In regard to the reciprocity in fishing licenses now in vogue between Canada and the United States where residents of both countries can fish anywhere among the Thousand Islands between Kingston and Brockville, a great deal of credit for the successful outcome of long drawn out negotiations is due the Brockville member of the Legislature, Mr. A. E. Donovan, who has worked hard to make this possible. In regard to Canadians who have been fined for fishing in United States waters Mr. Donovan has taken the matter up with a view to having the fines remitted if possible.

The Shillalah.

The shillalah is no raw limb of a tree. It is almost as much a work of art as a well balanced cricket bat. The old shillalahs were as carefully looked after by their loving owners as is a rifle in the wilds. Cut from the sturdiest of young blackthorns and showing as little taper as an ebony ruler, it was weighted with lead or iron at the end nearest the grip so that its center of gravity was about four-fifths of the way from the hitting end. When properly seasoned by being kept in the neighborhood of the farm oven for a few months it became a thing of supreme steel. And the proper pronunciation of the name of this fearsome weapon is the melodious one of "shillalah," with the accent on the "all"—London Mirror.

No Reprisals if Foo Will Become Civilized.

LONDON, Sept. 4.—In answer to a communication from the International Red Cross, the text of which is made public simultaneously with the British answer, the Foreign Office Friday stated its position on the question of reprisals.

The reply concludes: "His Majesty's Government will readily respond to the appeal, being confident that the neutral powers and the International Committee will recognize that the demands for reprisals grow in volume and urgency with the recurrence of abuses, and that the surest means of avoiding reprisals is the abandonment of the policy inspiring them."
