Dr. J. L. Bray while in Toronto, attended a meeting of the leading physicians of the country in the city The object of the meeting was to form a provincial association for the prevention and cure of tuberculosis, and for the erection of sanitaria in the different municipalities for the treatment of such cases amongst the poor. There was an act passed at the last session to permit the erection of such buildings, and the government such buildings, and the government wilf grant \$1.50 per week for each patient, provided the municipality grant a like amount for the keep and maintenance of patients unable to pay. SCHOOL CHILDREN 'I'd hate to pay that woman's dentist bills," said a business man to a friend on a South Side L train the other day. Across the aisle from the men was a woman who showed enough gold every time she opened her mouth to make a man want to leave and try his fortunes in the Klondike. Two of her upper teeth had been replaced by pieces of burnished metal, and one of her lower teeth also had a 22-carat sheen about it. Her companion had only one gold tooth, but she kept it doing the work of three by a constant

For a quarter you can get a shell that can be stuck over any front tooth, and with an excuse to smile you can present a regular gold mine to the astonished public.

Actresses first affected the gold tooth, and then the Yankee man got an idea. In a short time there was an epidemic of gold teeth.
