What You Swallow?

There is a growing sentiment in this country in favor of REDICINES OF RANGEN COMPOSITION. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and astafaed that the fullest publicity can only add to the well-carned reputation of his medicines, Dr. R. V. Pierce, of Ruffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery" the populas liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over - worked, brokendown, nervous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed free to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. PERMANENCY OF TONE

As a rule when a person buys a piano it is not with the intention of replacing it with a new one next m onth, next year or within five years. It is regarded as a permanent fixture in the home, and the most important feature next to the owners

It is evident that great care should be taken to select a piano which will retain its original brilliancy, power and quality of tone for years and years and years. And such a piano is the "Nordheimer."

It has a lasting, permanent tone, as you can prove for yourself if you play on one which has been in the home of a friend for ten, fifteen twenty years or more.

The "Nordheimer" is perfectly constructed by experts from the finest grade of materials procurable. It is built with the idea of not only satisfying the most critical ear for tonequality when new, but for retaining its original superb tone, so that it will still satisfy the critical ear in years to come.

Those who own a "Nordheimer" are the only ones who can really appreciate to the fullest sense the wonderful, oure, sweet, brilliant, yet powerful tone of the peerless " Nordheimer " piano. May we not have the pleasure of a talk with you with the object in view of placing "Nordheimer" in

Our MR. R. V. Carter will visit Chatham frequently in our interests and will be pleased to furnish you with any information you may desire. Correspondence addressed to him in care of the Garner House will receive careful attention.
