**FORBES.**  
Court Masonry, I. O. F., meets in Temperance Hall on the third Wednesday of each month at 7.30 p. m.

## Justice of Peace Praises Dr. Chase's Ointment

### After Nine Years of Agony He Escaped an Operation by Using This Great Healing Agent.

As a means of healing sores and wounds that defied ordinary treatment, Dr. Chase's Ointment is known far and wide as a positive cure for hemorrhoids and piles. Whatever uncertainty there may be about the results obtained by the use of medicines taken internally, there can be no question of the healing of the skin when Dr. Chase's Ointment is applied. You can actually see with your own eyes just what takes place. The sore parts are cleaned, and gradually the new skin is formed and the sore becomes smaller and smaller until it has completely disappeared.

Mr. A. Heath, J. P., P. O. Box 100, writes: "Nine years ago I was taken with an ailment and cannot begin to describe what I have suffered from. Both of whom said I would have to undergo an operation to be cured. Thanks to Dr. Chase's Ointment, it has rendered an operation unnecessary, and has completely cured me. I cannot say enough in praise of this wonderful ointment which cured me after nine years of agony." Dr. Chase's Ointment, 50c a box, all dealers, or Edmanston, Bates & Co., Limited, Toronto.

MR. HEATH.

## Afterglow.

(By William Wilfred Campbell)  
After the clangor of battle  
There comes a moment of rest,  
And the simple hopes and the simple joys  
And the simple thoughts are best.  
After the victor's pean,  
There comes a lull that must come to all  
Before the set of the sun.  
Then what is the happiest memory  
Is it the foe's defeat?  
Is it the splendid prize of a world  
That thunders by at your feet?  
No, say to the life you've spent  
In the service of a noble cause,  
A simple love and a simple trust,  
And a simple duty done,  
Are truer trophies to light to death  
Than a whole world's victories won.

## The Waste of Manhood.

The bitter price of war is the sacrifice of human life. The waste of manhood in the present war will affect all the nations considerable time afterwards. France will probably suffer most, and Russia will be the first to recover.

Writing upon this matter in the "Evening News," London, Professor F. C. S. Schiller, of Oxford, says: "In France where the population was stationary before the war, the probability is that for some time at least it will show an actual decline, because of the low birth rate. The average of the French people is high, and that means less chance of keeping down the rate of mortality after the war. Russia has such a high birth rate that her recovery will be rapid. Germany, which only lost 50,000 men in the war of 1870, has sustained enormous losses, and since 1902 the German birth rate has shown a decline, the effects of which must begin soon to be felt. In England the rate of increase of the population has declined since 1880, but the limitation of families has not gone on to any extent as in France."

So far as England is concerned the chief effect of the war will be the depletion of the manhood of the middle classes, because of the selective death-rate among officers. "But I am not with those," says Professor Schiller, "who fear for the future of the race and contend that the future generations will be the children of stay-at-homes and slackers. That leaves English mothers out of account, and though the men of the upper classes are being killed the women are not. Our army being a picked army we are losing rather better men on the average than the other combatant nations. We shall not, on the other hand, lose so many.

The average number of children in the best families is two, whereas the average family of the casual laborer is seven.

You want an average of four in a family to keep up the proportion of a particular class. It is incorrect to assume that a family of two will replace the father and mother, since allowance has to be made for non-marrying members of these families and wastage from early deaths.

But to those who are alarmed about the future, Professor Schiller points out that the elimination of the best fighting stock is no new phenomenon. The upper classes have always died out. There are probably other reasons for that, but excessive war is the top, and then proceed to go on fighting until they are all gone. That has happened all through history. It happened in England during the Wars of the Roses, which practically wiped out the last of the Norman nobility in the Middle Ages also many of the best intellects of the nation declined parental responsibilities—they sought the study or the cloister.

There is one very important difference from the biological standpoint between this war and previous wars; the losses of women and children will not be as great. Disease is so much under control that the mortality among non-combatants will reach nothing like the same proportion as in the wars of past generations.

## A Yankee Opinion.

A leading American newspaper, the Chicago Daily News, contains the following:  
"And Britain—never forget it—was not compelled to go to the aid of France. Come what might, the best that ever Britain promised France were six divisions—120,000 men. She was not in honor bound to send a single soldier more, she could have stayed out of the war. Disgraced she might have been—as Britons think, must have been—if she had left Belgium and France and European liberty to their doom.  
But she could have done this. Few nations are without historical pages they faint would obliterate. Britain was not attacked—France and Russia were attacked. Britain might have awaited the onset—as America is awaiting the onset. Britain might have stood clear, might have husbanded her resources of men and money, might have loomed over the stricken adversaries in the end and claimed the hegemony of Europe for herself."

## Why Boys Leave School.

On the other hand, the majority of employers who have work to offer want them until they are at least 16 years old, and many not until they are 18. The amount of money which boys up to those ages can earn is certainly not in any degree an equivalent for the education which they should obtain in the two or four year period of the children is that they hate school and want to part. What does this mean? What part of school life do they hate and what part of school life do they crave?  
One of the paper's correspondents who has had abundant opportunity to investigate these matters holds that the largest cause of this defection is a lack of willingness to think and to take responsibility. That is, it is a form of mental laziness. As he views the situation, a boy feels that he can dodge responsibility for correct arithmetic, English, and every little thing else he is taught at school by entering a school. There, at his age, he is obliged to do to work which is all requires almost no thought, and little attention for its successful completion. He is only given work which requires thought and attention as he shows willingness to do it, which means that many never rise at all and the rest comparatively slowly.  
To a boy to hours a day in the shop spells more liberty than five hours in a school room, because in a shop he only does what he can easily do without mental exertion and without worry. In the school room he is expected, at least, to be constantly on the alert, to stand up to correct pitch.

## Summer Complaints Kill Little Ones.

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets, or in a few hours they will be beyond cure. These Tablets will prevent summer complaints if given occasionally to the well child and will promptly cure these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

An old soldier after leaving the British army wrote to his Colonel in the following terms:  
"After all I have suffered you can tell the army to go to Jericho."  
A week or so later he received a reply in the usual official manner:  
"Sir, Any suggestions or inquiries as to the movements of troops must be settled on Army Form 137, a copy of which is enclosed."

## 8 Boxes Cured Psoriasis.

Mrs. Nettie Massey, Concession, Ont., writes: "Three doctors described my trouble as psoriasis, and one said I could never be cured. The disease spread all over me, even on my face and head, and the itching and burning was hard to bear. I used eight boxes of Dr. Chase's Ointment and an entirely cured—not a sign of it to be seen. I can hardly praise this Ointment enough."

## Whooping Cough.

Mrs. Charles Lovell, Agassiz, B. C., writes: "Seven of our nine children had whooping cough the same winter and we attribute their cure to Dr. Chase's Syrup of Linseed and Turpentine. We always have it in the house, and recommend it as the king of all medicines. I was formerly a sufferer of prostrating piles by using Dr. Chase's Ointment."

Sergeant—"By there! Where are you going?"  
The Absent Minded Beggar (who climbed out of the trench)—"Oly Jim here. When that 'bloomin' shell whizzed over 'ead I thought it was 12 o'clock!"

"A CAT IN GLOVES CATCHES NO MICE"  
The merchant who fails to advertise is like the cat that puts on mittens. He not only fails to use his natural opportunities, but he really invites attention to the fact that he is not progressive. People like to deal with wide awake merchants. They think, and properly so, that the merchant who is advanced enough to advertise is the one who will give them the best service.

## To Non-Advertisers.

A hen is not supposed to have much common sense or tact. Yet every time she lays an egg she cackles loth the fact. The busy little bees they buzz; Bulls bellow, and cows moo; And watch dogs bark, and ganders quack. And putter pigeons coo. The peacock spreads his tail and squawks.

## One Spoonful Gives Astonishing Results.

Wolffville residents are astonished at the QUICK results from the simple mixture of buckthorn bark, glycerine, etc., known as Adler's Lax. This remedy acts on BOTH upper and lower bowels and is so THOROUGH a bowel cleanser that it is used successfully in appendicitis. ONE SPOONFUL of Adler's Lax relieves almost ANY CASE of constipation, sour or gassy stomach. ONE MINUTE after you take it, the masses rumble and pass out. Sold by A. V. RAND.

## Teacher Corrected.

The teacher wondered whether 'know edge' or the meaning of the word 'pessimist' had survived in the children's minds since the lesson of the day before. She wrote on the board: 'A certain man is extremely doubtful as to whether England or Germany will win the war.'  
"Now, children," she said, 'how would you describe that man?' The brightest and best of the bunch shot out his hand. 'You've written 'certain,' teacher, and it ought to be 'uncertain!'

## Men and Parties.

There are men who hold aloof from politics and boast that they are not affiliated with either of the Canadian parties. They assume a lofty air and point to the politeness of many of the party squabbles. "Who are we to have a part in such things," they ask, with more or less of patronizing scorn. Their attitude is not the most praiseworthy in the world.  
Who needs to be told that there are many petty and unworthy squabbles in Canadian party politics? That partisanship frequently runs mad among the politicians and the people? That electoral corruption has disgraced both parties, and the country, on different occasions? No man of superior vision is required to make plain the regrettable features of Canadian political warfare.  
But improvement in Canadian conditions will not be brought about by men who stand afar off scolding. It is no sign of mental or moral superiority in any man that he will have no part in the political activities of the country. On the contrary, it is a sign that he is lacking in proper appreciation of the duties and responsibilities of citizenship. Such a man may attract attention in a small circle at campaign times, and fool those who are easily impressed by an egotistical assumption of unusual qualities, but that is all.

The 'independent' is an excellent man. The voters who will oppose the party which they have formerly supported when the time comes that they believe the party is wrong in its attitude upon any important question or is allowing dangerous elements to control it are the salvation of parties and do their country good service. But the man who will not do his share of work for a party which he believes is right, and refrains from activity simply because he must maintain his post is one who will not 'descend' from his imaginary pinnacle to a shikier catering to his self conceit.  
Granted, we have too much partisanship in our politics. The way to lessen the injurious condition is to get to work for improvement, not simply to stand aloof and criticize: the mistakes and sins of others. Men of ideals, independence of mind, and steadfastness of character can help Canada by working with and through the party which they believe to be right, and leaving it when they believe it is wrong. The superior being who does nothing but scold and fails to work for improvement in our parties does not help Canadian political conditions. Instead he does them further harm.

Miss Souleby has not a particle of tact. What has she done now?  
The other evening when M. Jaggies, who is notorious for not paying his debts, asked her to sing she went to the piano and sang 'Trust Him Not.'

## Little Pigeons Carry Great Messages.

Before the days of the telegraph, Carrier pigeons were often used both in war and peace; hence the proverb.  
Little want ads are like the pigeons and often carry money making and money saving items. Read them carefully. There may be something you want that may be obtained most advantageously. If you have something to sell, try the pulling power of a little want ad, yourself.

## HAVE YOU WEAK LUNGS?

Do colds settle on your chest or in your bronchial tubes? Do coughs hang on, or are you subject to throat troubles?  
Such troubles should have immediate treatment with the rare curative powers of Scott's Emulsion to guard against consumption which so easily follows.  
Scott's Emulsion contains pure cod liver oil which peculiarly strengthens the respiratory tract and improves the quality of the blood; the glycerine (left scotches and seals the tender membranes of the throat). Scott's is prescribed by the best specialists. You can get it at any drug store.  
Scott & Borne, Toronto, Ont.

## Teacher Corrected.

It is no sign of mental or moral superiority in any man that he will have no part in the political activities of the country. On the contrary, it is a sign that he is lacking in proper appreciation of the duties and responsibilities of citizenship. Such a man may attract attention in a small circle at campaign times, and fool those who are easily impressed by an egotistical assumption of unusual qualities, but that is all.

**Little Pigeons Carry Great Messages.**  
Before the days of the telegraph, Carrier pigeons were often used both in war and peace; hence the proverb.  
Little want ads are like the pigeons and often carry money making and money saving items. Read them carefully. There may be something you want that may be obtained most advantageously. If you have something to sell, try the pulling power of a little want ad, yourself.
