

CHIGNECTO POST AND BORDER.

SACKVILLE, N. B., JUNE 14, 1888.

—Halifax has the lowest death rate of any large city in Canada.

—Advices from London state that the new Canadian loan of four millions sterling is an assured success.

—A grand funeral ceremony is announced to take place in Vienna on the 21st inst., on the occasion of the transfer of Beethoven's ashes to the new Central cemetery, where they will be laid beside those of Schubert and Mozart.

—The fisheries protection steamer Acadia has commenced her service. All the cruisers are now out with the exception of one at Gaspe and the new vessel now being built at Shelburne, N. S., and which is not yet named.

—Donald MacMaster, Q. C., who is at present in England, is understood, shortly, to make application to the judicial committee of the Privy Council for permission to appeal from the judgment of the Supreme Court in the Gleggery election case.

—The Dominion Artillery Association has received official sanction for the holding of a garrison artillery competition at the Island of Orleans this summer, similar to that held last year. The time of holding it will probably be about the middle of September.

—Last Saturday's *Canada Gazette* contained the orders-in-council rescinding the orders-in-council under which the Canada Temperance Act came into force in the counties of Renfrew, Norfolk, Simcoe, Dufferin, Huron, Bruce, Halton, Stormont, Dundas and Gleggery.

—A quantity of Hillsboro plaster was shipped to the West Indies in the St. John Trade Promoting Company's schooner, Isaac Burpee. The result of the shipment was satisfactory to the plaster company who think they can work up considerable business with the West Indies.—*Observer*.

—A special meeting of the Imperial Federation League, with Lord Rosebery as chairman, has decided to support the action of the league in Canada with reference to better trade relations with the Empire, and approved its suggestion for a conference of the Dominion and the Australian colonies.

—The Anglican synod of the diocese of Toronto has adopted the report of the committee on the union of the church in British North America, recommending the establishment of Provincial and Dominion councils, the former to be presided over by an archbishop, and the latter by a primate and metropolitan.

—Fishermen along the eastern shore of Nova Scotia are excited over the destruction of their nets by American fishermen. Fish have been very plenty in shore and to get them the Yankees have deliberately destroyed the nets, gear, etc., of about thirty Canadian fishermen and they stole the fish in the nets. The damage to property is placed at twelve hundred dollars.

—According to *Bradstreet's*, Vancouver, the permanent terminus on the Pacific of the C. P. R., is making remarkably rapid progress as the result of the completion of the line, the accessible property having gained forty per cent. in six months. This would seem to indicate that the fixing of the Atlantic terminus of the road is likely to be a matter of large importance to the port selected.

—The Canadian Pacific 33 per cent. loan now stands in London at 41 premium. This fact and the imminent issue of the new Canadian Government loan which, it is believed, will be a three per cent. issue at 92 leads the English papers to discuss the question of Canadian credit. All agree that its advance has been most remarkable during the twenty years of Confederation. The Barings are expected to issue the new Government loan.

—Having completed a railway to Central Asia, the Russian Government are now projecting another gigantic line across Siberia, with a terminus on the Pacific. The length of the road will be about 5,000 miles, and its estimated cost, 400,000,000 roubles, or \$300,000,000. The first section of 2,800 miles, it is reported, will be commenced soon. This road is Russia's counter move to the Canadian Pacific, and is destined to increase her strength on the Pacific.

—The anniversary exercises at Acadia College, Wolfville, passed off very successfully last week, and terminated the most prosperous year the College has enjoyed in the fifty years of its existence. It is probable that the exercises would have been even more interesting if they had not been in a measure overshadowed by the anticipated celebration of the College Jubilee, which is to take place next August, and which will no doubt prove a notable event in the history of higher education in the Maritime Provinces.

—The Berlin correspondent of the *London Daily Telegraph* remarks that the British army keeps too few horses in time of peace as compared with the number absolutely necessary for war, and adds that it is far better that a regiment should be in Germany, have more horses than men in order to provide against unavoidable accidents. If the movement in the Mother Country in favor of making better preparations for war should lead, as is very likely, to a closer approach to the German system in regard to cavalry and artillery horses, the increased demand could not be supplied at home and the military authorities would have to come to Canada as the only available source of supply.

Ship Railway.

Mr. Ketchum left yesterday for New York to take the Servia on Saturday for England. A number of gentlemen representing large contracting firms have inspected the line and put in tenders. Mr. Ketchum expects to return in six weeks. The company's office in Amherst is, in the meantime, in charge of Mr. J. Armstrong, C. E.

The Democratic Nominations.

It was generally expected that Grover Cleveland would receive the nomination of the Democratic Convention at St. Louis last week, but the unanimity of the vote was severely anticipated. No other name was mentioned for President and the nomination of Cleveland was received with an outburst of enthusiastic applause such as could be witnessed in no other country. For more than twenty minutes it seemed as if pandemonium had broken loose, and during that period each delegate appeared chiefly anxious to make more noise than any one else. Hats, canes and umbrellas were thrown into the air; flags, coats and bandannas were waved; all parts of the audience, and cheering of the delegates drowned the music of a brass band which had been brought there to play and was trying to do its duty. Such a nomination had never been witnessed before and the excitement was so great that the selection of a candidate for Vice President had perforce to be postponed till next day, when Judge Thurman, a venerable Democrat of irreproachable character, became the choice of the Convention. If unanimity of choice is to be regarded as an indication of success, the triumphant return of the Democratic ticket may be considered a forgone conclusion.

Late Local Appointments.

The *Fredericton Gleaner* and correspondents in Moncton *Transcript* are much disturbed lest the appointment of Justice Cahill, Parish Court Commissioner to the post of Stenographic Magistrate will lead to a serious break up in Mr. Blair's party in this County, because Justice Cahill happens to be a Tory. It is not contended that Justice Cahill does not possess the requisite qualifications, for he is a man of high character in the past with undoubted credit to himself. It is not contended that he does not possess the entire confidence of the business public, for in his office is performed nine-tenths of the civil and all the criminal business of the parish. But the appointment does not give satisfaction for the great and all sufficient reason that he is not a Grit! Here we have Reform and Liberal principles with a vengeance! An experienced and successful public servant is to be passed over in a local judicial appointment because he is not a Grit. Why should these papers attempt to drag even the office of the peace through the gutter and mire of local politics? If their principles required it, it is high time that Mr. Blair should be the possessor of such reckless partisans, but whether or no, Mr. Blair is evidently satisfied with his experience in the past in making appointments in their interests, and if they have any regard for the character of the local bench, they should be also satisfied that Mr. Blair decides that to secure the services of the most fit and proper persons to preside in local courts of law and to exercise criminal jurisdiction is in the interests of the people at large, irrespective of party, and he is correct in the correct principle to ignore party lines and the clamorous political parasites claiming pay for their services.

—Archdeacon Farrar, the famous Church of England divine, urges the establishment of a new order of clergyman by the English Church, to work especially among the poor and degraded, the members to join in for a definite period, say five years, to be bound during that time by vows of poverty, celibacy and obedience.

—Recently a petition was presented to the House of Commons of the United Kingdom, signed by 15,000 workmen of Sheffield, urging that moderate protective duties should be imposed on all foreign produce that is driving laborers out of employment, land out of cultivation and capital to foreign countries.

—Efforts are being made to organize all the Cape Breton colliers into one syndicate. Fifteen steamers have been chartered to carry coal to Montreal, and the prospects are bright for a brisk trade in Cape Breton.

—Mayor Muir, of Turin, N. S., in his annual report, refers to the rapid growth of the town, as shown by an increase in assessed value from \$885,150 in 1875, (the year of incorporation), to \$1,200,000 in 1887.

—A young French lad at Bechuouche found a pearl in an oyster one day recently. It was of a beautiful pink color, as large as the end of one's forefinger and worth anywhere between \$50 and \$100.

PERSONAL.

—Lord Stanley of Preston arrived at Ottawa last Sunday morning and took the oath of office on Monday.

—The appointment of Hon. A. W. McLaughlin as Lieutenant-Governor of Nova Scotia is officially announced.

—Rev. D. C. Moore, of Stellarton, has been elected grand master of the Masons for Nova Scotia, P. E. I. and Newfoundland.

—Daniel Wilson, principal of the University of Toronto, has declined the honor of knighthood offered him by the Imperial Government.

—The *Empire's* London cable says: Lord Lansdowne will receive the degree of D. C. L. at the approaching convocation at Oxford in recognition of his services as Governor-General of Canada.

—Sir Francis Hastings Charles Doyle baronet is dead, aged 77 years. He was a brother of General Sir Hastings Doyle, for some time Lieutenant-Governor of Nova Scotia, and won considerable distinction as a poet.

—Papers have been served on Jas. Gordon Bennett in two libel suits for \$250,000 each. The mover in the suits is Joseph H. Reall, president of the mining company to which the *Herald* paid some attention.

—The Metropolitan of Canada was at St. John yesterday on his way to the great pan-Anglican synod to be held next month in London. Bishop Medley is eighty-four years old and is still hale and hearty.

—At Saturday's session of the Niagara Methodist Conference, Rev. John Stonehouse, of Adelaide, Scott at St. John, whose name was figured so prominently recently as being accused of blackmailing hotel keepers, was deposed from the ministry and expelled from the church.

—Nearly the whole of last Friday's session of the Niagara Conference of the Methodist Church was taken up with the case of Rev. B. Longley, who made a long and affecting statement, confessing his deep repentance of his error, and pleading for mercy. The district resolution for his expulsion was rejected, there being only 12 votes for it, and by a vote of 56 to 40 the district committee suspended him from the ministry for one year.

—Mr. James Harris, one of the oldest and most highly esteemed citizens of St. John, passed over to the majority last Monday morning. Mr. Harris was the founder and head of the well-known foundry firm of James Harris & Co., one of the largest manufacturing concerns in the Dominion. The present works of the firm cover five acres of ground and employ 282 hands. Besides the foundry and car works above mentioned the firm owns and operates the Strait Shore rolling mills which employ about 90 hands. Deceased was born in Annapolis in 1803, and went to St. John when a young man.

—William Minns, Howson, postmaster of St. John, and son of the late John Minns, died at Summerside, P. E. I., on Tuesday, of paralysis of the throat, aged 60. Mr. Minns was born in Halifax. He graduated at Kings College, Windsor, and practiced law in St. John, N. B., till 1854 when he came to the island. He was for some years engaged with the late Hon. Edward Whelan on the Charlottetown Islander and was a popular and trenchant writer. He afterwards practiced law in Prince county till some years ago, when he gave up owing to failing health.

—Sheriff McQueen, on Tuesday, sold the John W. Clark place, in Sackville, to E. A. Kinross, Esq.

—On Saturday last the Baptist parsonage was sold by public auction, and was bid in by S. Edgar Wilson for \$525.00.

—On Friday last a false alarm of fire was struck. It was thought that Philip Palmer's house was burning, but it was found to be a brush fire which was put out by the fire engine.

—The Recital in Robt's Hall, on Tuesday evening by Prof. Shaw was a very successful entertainment and the Hall was very well filled.

Amherst.

—Judge Townsend, of Halifax, has been in town for the last few days. He is on the Pictou circuit.

—King and McGrath, of Dorchester, have opened a branch of their business here and have on exhibition a number of monuments and grave stones of very pretty designs. No doubt they will do a fair business.

—Supreme Court opens next Tuesday, but, owing to the election, it is not expected that much business will be done. There are four criminals in goal for trial, viz: Dick Brundage, for assault, Jas. White, house breaking, William Crossman, bigamy, and A. Thompson, assault. Chief Justice McDonald presides.

—On Tuesday the corner stone of the new Court house, to be built by His Lordship the Chief Justice, who acceded to the request of the Municipal authorities, to do this act, with much pleasure. After the assembling of the Court the Judge, Barristers, grand and petit Jurors, accompanied by the Hon. Mr. Justice, and a large number of guests, were present at the ceremony which will take place.

—On Tuesday the Prohibition or Third Party began. Their convention held here was attended by over 100 delegates representing every section of the County. As previously mentioned, the delegates were named, among them being C. R. Casey, Scott Act Inspector, E. B. Elderkin, W. I. Pipes and Dr. C. A. Black, Amherst, J. I. Bulmer, Halifax, and J. J. Hingling, Oxford, and on the first ballot Messrs. Casey and Hingling stood highest. After the vote all declined except Messrs. Casey and Bulmer, and upon the ballot being taken for them the vote stood: For C. R. Casey, 80; J. I. Bulmer, 16. Mr. Casey was thereupon unanimously nominated and elected for the office of accepted the situation. It may be noted that Mr. Pipes was not present at the meeting and so far as known is not a member of the prohibition party.

—In the evening the ex-Governor delivered a lecture in the Music Hall which was largely attended. His address was largely of an inspiring character was attentively listened to by the audience. On the evening of that day Mr. Dickey, who was elected speaker, acted as chairman.

—Now in reference to the political atmosphere. As is generally known to your readers, Mr. A. R. Dickey, was, on last Thursday, nominated as the candidate for the House of Commons by the Lib. party of Cumberland. On the evening of that day Mr. Dickey, with others, addressed a meeting in Y. M. C. A. Hall, but the first meeting of the campaign did not take place until last Monday evening. On that evening Mr. Dickey, who was elected speaker, acted as chairman.

—Within the last few weeks A. Robt & Sons have shipped their celebrated Monarch Bolders and Hercules Engines to St. John, N. B. H. H. McCarty, N. S., Campbellton N. B., Springfield, N. S., besides two engines in Amherst, N. S. This same firm have also sent their very fine saw mill to Newville, Cumberland County, N. B., and Morrisville, Annapolis County, N. B. are now loading one of their 70 horse power engines and boilers, which, with one of their rotary mills, is to be set at Harland, N. B.

Port Elgin.

—A valuable horse belonging to Mr. Hiram Chapman died Thursday morning, also one belonging to Mr. David Johnson.

—The weather for the past week has been very favorable for vegetation, and Port Elgin is rapidly assuming her summer look. Nature has put the sidewalks in a passable condition and it is to be hoped that the citizens will provide better ones for next spring.

—Mr. Harris Chapman is carrying on quite an extensive business in carriage making and gets all the work he can attend to. He turns out about fifty wagons of various kinds in a year, and does a large amount of repairing. In some seasons he has repaired more than a hundred old carriages.

—Among the many new buildings here, the block erected last summer by Hiram Chapman deserves special mention. The building is of large size and two stories high. The upper flat is fitted up as a public hall and is among the finest in the County. The lower flat is divided into four rooms for the use of the public. The first of these is occupied by Miss Jones, who conducts a large and constantly increasing millinery business. Her stock is fresh and well selected. The next is occupied by Mr. Anderson, who carries on a general tinsmith and hardware business. The third is occupied by Mr. John Ogden and the telephone office. This office is one of the latest acquisitions of the place—being opened June 1st, and is in care of Mr. Ogden who is an experienced operator.

GENERAL NEWS.

—Seven Allan steamers, aggregating about 19,000 tons, were in port at Halifax last Saturday.

—Large quantities of cannon balls and other relics are being recovered by divers from the wrecks of the French men-of-war sunk in Halifax harbor one hundred and forty years ago.

—At Yarmouth, recently, the fishery inspector imposed a heavy fine and made seizure of material at a lobster factory, which had been taking lobsters less than nine inches in length.

—A most disastrous fire occurred at Chignecto, Ont., Saturday, destroying every business place in the town, excepting two. The loss is estimated at \$150,000. Two or three persons were badly burnt.

—The Wimbledon team sail from Montreal 21st June. Lieut. E. A. Smith, St. John Rifle Company, and Sgt. H. Miner, 71st Battalion, are the only New Brunswick representatives on the team.

—In Bloomington, Dak., two young farmers named Bailey and Wilson quarrelled over an old grudge. Bailey fired a shot at Wilson, who killed him. Wilson was then shot by Bailey.

—The Halifax *Herald's* New Glasgow correspondent writes: A brick of gold was brought to town to-day from the Esplanade gold mine, containing 105 ounces, and valued at \$21,000; the product of three weeks' work.

—Mr. James Brown's rotary mill, with between \$5,000 and \$7,000 worth of saw lumber, was burned at Wolford on Wednesday evening the 6th, by forest fire. All that could be saved was the machinery of the mill and the men had a hard time doing that.

—On Thursday afternoon last, while Captain A. J. Foster, of Alma, Albion Co., N. B., was putting in a new mast in his schooner Jessie, the fall which was being used fell, and the running rope caught the mast and the mast fell, throwing him heavily down and breaking the smaller bones in his ankle. He was also hurt internally, and died on Saturday.

—Robert English, one of the wealthiest and most prominent farmers of Barns River, Ont., and his son, aged 16 years, were placing traps for woodchucks, on Saturday. The son was nearly killed by the river bank, unknown to the father. The father, seeing his son had been so nearly killed, fired a shot at the woodchuck, fired, instantly killing the son.

—Advices received from Harbor Grace, Newfoundland, state that the number of people in that town and surrounding country who are getting ready to emigrate to Canada and the United States may be roughly computed at 800. The great wave of emigration is nearly upon us, and the people remaining are looking forward to union with Canada as their only hope.

—A twelve-year-old negro servant girl of Windsor, Mo., suspected of poisoning John O'wiler, his wife and four children, was taken to the court on Saturday. She had prepared for her execution in half an hour. Before her death she confessed that she had done the poisoning, and she was forced to do it by negroes, whose names she gave. The family are not expected to live.

—Says the *Charlottetown Examiner*: The Steamer *Good of Wales* left here for Pictou at 11 o'clock last evening, and returned at 2:15 this afternoon. Her cargo consisted of 200 cases of "cellulose" and 178 cases of crockeryware, and some other merchandise. Yesterday there were 800 cases of "cellulose" and 178 cases of crockeryware, and some other merchandise. Yesterday there were 800 cases of "cellulose" and 178 cases of crockeryware, and some other merchandise.

—Forest fires caused great damage last week in the vicinity of Moncton. A rotary mill owned by James Brown was burned at Trout Brook, near Wolford, on Saturday. The mill was owned by James Brown and was burned with all its contents. A fire burned from Prosper to Turtle creek in Albert county. Two barns belonging to James McLaughlin at Bechuouche, and a large field of oats belonging to Stewart Berry and Ansley Dryden were destroyed. Mr. Stewart, McLaughlin road, Westmorland County, lost a house and barn and all their contents.

—To the People of River Hebert and Vicinity: There appears to be in circulation reports and also a general impression in the vicinity that I sell intoxicating liquors in my business, giving me portion of the proceeds, I hereby repudiate and deny such reports, by that I believe maliciously concocted by some one to do me an injury. I may say in explanation of the report that I had four cases of liquor come to the house for the purpose of selling, and the reason some of my goods came packed in liquor cases, I suppose, is that the firm from whom I purchased my groceries in Halifax are wholesale liquor dealers, and as liquor cases are empty, make use of them in that way to save the expense of new boxes. I also may say in reference to my selling liquor, that I never have sold it, I do not sell it, I have no right to sell it, and I never intend to sell it. I sincerely trust that on account of my wife and family that people who have been misled by the reports of the public as they have injured me even by repeating them whether they knew or not, to be true or not.

—Thanking Mr. Editor for inserting the above in your valued paper, I remain, Yours very truly, A. C. GREENFIELD.
