Fast Football Fight.

The Star-C. E. I. teams met on St. George's Field last evening in the 12th League Championship Match, and a good game was witnessed by the many spectators present. The teams lined up:—

Star—Keefe, goal; Carew, Hartery, backs; Sullivan, Jackman, Hart, half backs; Brien, Morgan, Adams, Evoy, Power, forwards.

C. E. I.—Miller, goal; Hunt, Le-Meurier, backs; Hussey, Hallett, Stick, half backs; Harris, Evans, Godden, Dobson, Drover, forwards.

Winning the toss the C. E. I. elected to play from the western goal in the first half and half a gale of wind from the westward blowing in their favour. For a few minutes after the ball was kicked off play was confined to midfield, and then the ball encroached on Star territory for a short period and Keefe saved a rather difficult shot. Stars now got up on C. E. I. ground, hands were recorded against them, when Brien secured the leather and running up with it in the teeth of the wind sent the ball across the goal mouth, and Evoy being "there with the goods" banged it into the net; Stars scoring first blood. On re-centering the ball the Stars were quickly on it and made an attack on Miller, but the backs of the C. E. I. put up a good defence and soon Keefe was kept busy but cleared excellently. The Stars now got the ball up when Evoy emulating Brien ran up on the left wing against the wind, and at close quarters sent in a brassy, beating Miller and scoring No. 2 for Stars. The C. E. I. now pulled themselves together, and getting on goal, Keefe's job for several minutes proved to be no sinecure. He saved shot after shot, several of them very hard ones, after which the ball was again driven up field and Stars had a look in at Miller. C. E. I.'s retaliated, the ball was worked east, when Harris on the wing got it along and sent in a scorcher which Keefe missed, and scored the one and only goal for the C. E. I. Shortly after Hussey made an excellent shot from up field, but the ball struck and rebounded from the cross bar of goal and was quickly placed beyond danger by the Star. The half time whistle then blew and the teams crossed:—Stars, 2 goals; C. E. I., 1 goal.

In the second half the C. E. I.'s, strange to say, played a far better game against the wind than they did with it in their favor. Some fouls and corners were given both sides, and repeatedly each had a look in at the other's goal. Hartery sent in a long shot from midfield which chipped, and striking the cross bar was cleared by the C. E. I. Getting the ball down field with a rush the Stars now showed some fast play, when a few minutes before the final whistle blow Power, centre forward, sent in a swift one and scored No. 3 for the Stars. Shortly after the whistle blew and the game ended. Stars, 3 goals; C. E. I., 1 goal. Mr. W. J. Higgins refereed.

The last meeting of the old Council took place yesterday evening. Mayor Gibbs presided. There were present Councillors Ellis, Kennedy, Collier, Cowan and Martin. A letter was read by the Secretary from William Hill and John Hill, Windsor Lake, asking for street line as they want to build there. Jonas Barter sent in application for street line for the clothing factory, Duckworth Street. He also asked for leave to use the sidewalk. Street line will be given. Mrs. Facey wrote that she is unable to connect with the main sewer. The question will be looked into. The first payment from the Placentia Water Co. was received from Secretary O'Reilly. P. Summers, Signal Hill Road, asked permission to move a stable. Referred to the Health Officer. The application of G. Bouzan to be allowed to make repairs to his house at Brine Street was referred to the Engineer. E. J. Mulloy's plan of house, Long's Hill, will be passed on condition that he put a stone or concrete foundation in. W. Codner's plan, Power Street, was passed. Mr. Dillon's, Barnes Road, was held over for enquiry. Mrs. Wing asked for water service to her home on Flavin Street. She will get it as soon as she puts in the sewer pipes. The City Engineer reported on work done on Young Street, Power Street and King's Road. He also reported that the work of laying pipes on Power Street had commenced. The matter of Geo. Neal's application to build a coal shed was dealt with. The question of the condition of the street near Mr. Thomson's new leather factory was also referred to. After the reports of the Health Officer and foreman of works were read, the meeting closed.

The Governor at Forest Pond.

His Excellency and Lady had refreshments there and the Governor had a nice afternoon fishing out in the pond in a boat. Mr. John Williams, father of the proprietor, who is in his 85th year, gave His Excellency some interesting reminiscences of his lengthy career as a fisherman. His Excellency and Lady were delighted with the outing.

Hurt by an Auto Car.

A young man named Mills, of the Nfld. Highlanders, while cycling across LeMarchant Road last night, at the junction of Pleasant Street was hit by an auto which came up the latter thoroughfare. He was thrown a considerable distance, and was rendered unconscious and for a time it was feared that his injuries were dangerous. Truth to say the driver of the auto was greatly concerned over him, rendered every assistance and brought him quickly to a doctor who found that he was bruised and shaken up but not seriously hurt. His bike was rendered useless.

Worst Case of Eczema  
Cure only came when doctors gave up and DR. CHASE'S OINTMENT was used.

Mrs. Wm. Miller, St. Catherine's, Ont., writes:—My daughter Mary, when six months old, contracted eczema and for three years the disease baffled all treatment. Her case was one of the worst that had ever come under my notice, and she apparently suffered what no pen could ever describe. I had three different doctors attend her all to no purpose. Finally I decided to try Dr. Chase's Ointment and to my surprise she immediately began to improve and was completely cured of that long standing disease. That was four years ago when we lived at Cornwall, Ont., and as not a symptom has shown itself since, the cure must be permanent. The record of cures which Dr. Chase's Ointment has to its credit have placed it alone as the standard cure for eczema and all forms of itching skin diseases. Do not be satisfied with imitations or substitutes, 50 cents a box at all dealers or Edmanson, Bates & Co. Toronto.

Canada's Claim to Hudson Bay Challenged.

Ottawa, June 29.—Canada's claims to exclusive jurisdiction in Hudson Bay as being wholly within Canadian territory, has been challenged by the United States Government, and the question may come up for arbitration at The Hague. The owners and masters of American trading vessels in Hudson Bay have been notified from Washington that it is unnecessary to take out Canadian licenses and pay other dues hitherto demanded by Canada, as the United States Government no longer recognizes the Bay as an island sea under the exclusive Canadian jurisdiction. So far there have been no refusals of American whalers to recognize Canadian authority, but the first refusal will bring the issue to a head. The principal stake is in regard to the fisheries rights.

CANADA'S CONTENTION. The result of the present case at The Hague in respect to the North Atlantic fisheries will largely determine the issue, as the point involved

respecting the interpretation of the three-mile limit of jurisdiction out from the coast applies also to Hudson Straits. Canada's contention is that the three-mile limit is from headland to headland, and does not follow the sinuosities of the coast. The upholding of this contention would mean that both Straits and Bay are wholly within Canadian territory.

The Regatta Meeting.

Another very enthusiastic and largely attended meeting of the Regatta Committee took place last night at Wood's West End Restaurant. Hon. John Harvey, the President, occupied the chair, and the business done was in itself an augury of the complete success of our great general sporting day. After the minutes of the previous meeting had been read and adopted, Secretary Noonan intimated that he had written Lieut.-Col. Rendell of the C.L.B. that a swimming race for the city brigades would be added to the programme. This race will be incorporated with the general swimming event, so that the winner, if he is a brigade boy, can carry off the trophy for the general race as well as for the brigade contest. The Truckmen's Union sent in \$15 towards the funds. The truckmen will be asked to definitely say whether they require medals or money as the prize for their race. The President stated that, he wrote Mr. Wood of Grand Falls re the matter of securing men from that place for a log rolling contest. Mr. Wood being absent, Mr. Cooper replied, saying that the men could not get away as the "drive" would not be over before October. The Amusement Club's race was cut out of the programme. The same programme as last season was adopted and the same prizes will be given, though if necessary an exception will be made in the case of the Truckmen's Race. A cup is being ordered for the general swimming contest. Secretary Noonan will communicate with the City Council and ask them for the use of the ground for the day. The necessity for an awning over the band stand was quite evident last year, so that one will be supplied for the coming Regatta. The collectors reported having done fairly well, but much money is still required to ensure the success of the day. All the collectors will go on their respective routes next week, and they feel assured that they will gather funds sufficient to enable the public to enjoy a Regatta which the Committee hope will surpass many previous events of the kind. The President commented on the fact with pleasure that the routine work of the Committee had been, so to speak, departmentalized and so ordered that much work heretofore in evidence in the past could be disposed with and business transacted with accuracy and despatch. Mr. Harvey at this juncture, on behalf of the members, in a neatly worded little speech took occasion to congratulate Mayor Ellis, always an enthusiastic member of the Committee, on his election by acclamation to the dignified position which he holds and coupled with his name that of Councillor G. W. Ryan, who was present, and whom he also warmly congratulated. Councillor Ryan thanked Mr. Harvey and the Committee for the kindly sentiments expressed both for the Mayor and himself. The President also hoped that the Committee would call and inspect the new boat being built by Mr. Robert Sexton, declaring that she is a beauty. Mr. E. W. Hayward, who will collect at Bowring's, guaranteed an amount similar to that of last season. It was unanimously agreed that the Secretary telegraph the Committee's congratulations to Mr. J. W. Morris on his approaching wedding at Truro, he being a popular, zealous and efficient member. With the transaction of some minor business the meeting adjourned.
