Motor Car and Motor Truck Owners.

I have a splendid equipment for general automobile work and can guarantee first class overhauling. Every engine tested under its own power before being put back in the car, thereby getting over the greatest enemy an engine can have, that is oil leaks. All oil leaks are detected and made right, consequently you can be sure of a good and lasting job. I also have a Hempy Cooper reconditioning and reboring machine for crank shaft and connecting rods, which insures quiet running, as all bearings are in perfect line. With this equipment we can do work quickly and much more practical than heretofore.

SPECIAL NOTICE.

My Garage will be closed from March 10th until April 15th, as I am taking my entire Mechanical Staff on a visit to the Motor Factories with a view to giving first class service. Parties wishing to have their cars overhauled for the coming season would be wise to have them done immediately. For instance, parts may be found broken or worn and it may not be possible to replace them here, in which case I can get them while away, thereby saving a lot of inconvenience and disappointment when the car is wanted. One thing is sure, cars that are overhauled in the winter months are given better inspection than those done in the rush season; so just call us up and we will get your car in and have it done right away. I have a supply of repair parts in stock. Room for about 50 more cars. Ford Trucks taken care of with despatch.
