indicate that there is no surplus of Anthracite Coal in the U.S. The shortage caused by the strike of Anthracite Miners last year has not been made up, and American hard coal will, in all probability, be hard to get and high priced. Coke is an excellent substitute for hard coal, and we have on hand a stock of coke that will soon be disposed of, because a shortage of hard coal invariably creates an increased demand for our product.

We advise our customers to book their requirements as soon as possible.

Canada Considers the Prince a Desirable Citizen---Henry Ford is Non-committal
---Accidental Death of Henry. Peddle at Sydney---Workmen in the Ruhr Returning to Their Posts---An Eye-witness Describes the Japanese Horror.

The tremors that shook parts of England to-day were felt in many parishes on the east coast, including Cromer. Mundesley and Sheringham but were not noticeable far inland. The shock occurred at 11.15 and was felt mostly by people seated or lying down, but not by those standing or walking. Windows, brick and ornaments in houses were loosened, men working on a tennis court at Cromer said they felt the earth shake for ten seconds, while iron stanchions supporting the netting around the court were shaken. If it is a violent rain storm, it has been suggested the tremor was caused by an explosion at sea but none has been reported.

MONTREAL, Sept. 20.—The first refugee from Japan to pass through Canada, arrived here today in the person of a Major Brackley, attached to the Imperial Japanese Naval Air Service. He stated that in his war service, he had seen nothing like the Japanese horror. He was standing in the offices of the Japanese Navy Department at Tokio when exactly now when suddenly there came a tremendous shock, the whole face of the earth seemed to move first vertically and then horizontally. Real earth waves. He with hundreds of others in the building were unable to keep their feet and crawled out all fours. "Then we saw fires breaking out in all directions. The second

BERLIN, Sept. 20. Since the Government formally announced its inability further to finance passive resistance in the Ruhr and Rhineland there has been a

its to industrialists, employers and labor organizations, is reflected in the growing inclination on the part of many workers to return to former posts. The altered attitude is not ascribed to waning patriotic faith in Germany's cause but to the fact that the social chaos accompanying the passive resistance has become unbearable.

SIDNEY, Sept. 20.
A verdict of accidental death was returned to-night by Coroner Townsend's Jury which investigated the death of Henry Peddle, aged 28, machinist, who was killed while repairing a crane at the Besco Steel Plant this afternoon. Peddle was working under the machine when the operator unaware of his presence started it, and the man was drawn into the gears and crushed to death. He was a native of Conception Bay, Nfld. and is survived by a widow and one child.

Major George W. Stephens, of Montreal, was elected to-day by the Council of the League of Nations to succeed R. D. Waugh, Winnipeg, as member of the commission governing the Saar Valley.

"I am not running for or against anything, no man knows what he will do from one day to another," said Henry Ford to-day when seen by a Herald reporter as he passed through here on his way to Seal Harbour, Maine, where his family has been for some weeks. Mr. Ford had been asked if he would run in the next Presidential campaign in the United States. He declared that he was neither Republican nor Democrat. "They will have to show me the difference before I affiliate with either party," he de-

elsewhere Mr. Ford said it was the law and should be enforced. "They should put the army and navy to work," said Mr. Ford, presumably meaning the work of enforcing the law.

Official of the Canada Colonization Association would like to keep the Prince of Wales permanently in Canada. Howard Everett, General Manager of the Association, to-day sent the following telegram to Captain G. M. Dix, Chairman of the Joint Conference of Immigration and Employment officials being held at Saskatoon:—"Understand a British harvest traveler under the name of Renfrew now employed on a farm in Alberta. Can the Conference arrange to secure winter employment for Renfrew and keep him in Canada permanently."

Lord Renfrew was introduced to another royal Canadian dish at noon to-day when he sat down to a great feed of corn on the cob. He enjoyed it heartily. It was learned to-day that Lord Renfrew is intensely interested over the improvement of his property, and is making plans which indicate that the present stay on the ranch is only one of the many in the future.

Prime Minister Baldwin paid a brief courtesy visit of farewell to Premier Poincare this evening, it was stated. No politics were discussed.

George L. Berry, President of the International Pressman's and Assistants' Union of America, announced to-day that two thousand five hundred members of the Web Pressmen's Local 25, on strike since Monday, are no longer affiliated with the International which has decreed the walkout illegal.

Feildians vs Guards. Admission 10c. Ladies free. Grandstand 10c. extra. Boys free.—sept 21.11

The Amateur Contest, which takes

long while. Pat Harrington, who has the charge of the affair, has a list of competitors that comprises all the various branches of the vaudeville field. Some surprises are in store for those who are fortunate to secure seats to witness this show—because they will certainly be very fortunate to get a seat as a huge concourse will be heading for the Crescent to-night.

The feature programme which scored such a hit last night will also be repeated this evening. Pat Harrington went over big with his number from the Musical Comedy "Spice

Pat Harrington which accompanied this song nearly brought down the house. All in all this is an altogether snappy show.

In matters of investment you should always seek the advice of one whose knowledge and experience qualify him to advise you. Your income from savings properly invested should be as large as is consistent with safety. I specialize in safe investments yielding from 7 per cent to 10 per cent. If you have funds invested at lower yield, it will pay you to consult me. RICHARD C. POWER, Investment Specialist, Bishop Building, St. John's.—sept.21,f

That fine old Irish gentleman, Major-General Sir Charles Callwell, tells an amusing story of a young peasant woman—Sally Sweeney—who used to walk into Galway twice a week to do shopping for his family. She could neither read nor write, yet she never made a mistake with any of the messages that were entrusted to her.

Once, however, her memory did
