All Covered With Eruptions-Could Not Work, the Suffering Was So Great-Hood's Has Cured.

"I was all run down with complaints peculiar to my sex, and I broke out in sores on my body, head, limbs and hands, and my hair all came out. I was under the doctor's treatment a long time without benefit. They called my trouble eczema. Finally I began taking Hood's Sarsaparilla, and after I had used three or four bottles I found I was improving. I kept on until I had taken several more bottles and the sores and itching have disappeared and my hair has grown out." MRS. J. G. BROWN, Brantford, Ontario.

"I was all run down and had no appefte. I had a tired feeling all the time. I was advised to try Hood's Sarsaparilla. I did so and it beneated me so much that I would not be without it." Mrs. G. I. BURNETT, Central Norton, N. B.

Have Nothing but Words of Praise for Doan's Kidney Pills.

They're Curing Backache and All

Porms of Kidney Disease.

Plenty of Peterboro people have been cured of their pains and aches by Doan's Kidney Pills, the conquerors of kidney ills. One of these is Mrs. Sarah Henderson, of 392 McDonnel street, For a number of years she suffered greatly from pain in the back and terrible headaches. At times she got quite dizzy and a mist would come before her eyes, so that she could scarcely see. Her hands and arms would swell and puff, and she was in a condition of great misery, unable to work, and al-

most in despair. "I doctored a great deal," said Mrs. Henderson, "and took many medi-cines, but everything I tried failed. "Seeing Doan's Kidney Pills advertised, I got a box. The first few doses seemed to lift a load from my aching back, and after taking three boxes I can conscientiously say that I am per-

The Terms of Capitulation Officially Stated.

Some \$800,000 Found in the Spanish Treasury at Manila.

New York, Aug. 22.-The World's special cable from Manila says: The At 5c-Fine Glass Toweling, special quality, worth 7c. American troops are wholly disgusted. They hope that the Philippines are not to be retained by the United States. The insurgents would have pillaged Manila and confiscated the property there had they not been stopped from doing so by the Americans. They profess friendship for the Americans and are allowed into the city when unarmed, but are kept under surveillance. The insurgents control the water supply of Manila and refuse to let the water run except for a few hours every day.

Business is booming in Manila. Supplies of all sorts are being rapidly The whole number of prisoners tak-

en proves to be 13,000, a figure considerably larger than the estimate immediately after the battle. They de-livered up 15,000 stands of arms. The troops continue in peaceful pos-lession of the city of Manila and its suburbs

THE LOSSES ON BOTH SIDES. A dispatch from Manila, dated Aug. 18, says the total number of killed on the wounded about 100. The Spanish losses were 200 killed and 400 wounded. The fire of the Americans did practi-cally no damage to the town or to the non-combatants. The Americans had considerable difficulty in keeping the insurgents out of the city, only admitting those who were without weapons.
Five insurgents were shot while looting at Tondo. An insurgent officer be-came involved in a quarrel with a Spaniard in the Escolta, in the Binolda suburb, during which the Spaniard fired upon the insurgent, inflicting wounds in the latter's leg. The Spanlard was arrested and imprisoned.

and Manila is now being operated. TREASURE FOUND IN MANILA. London, Aug. 22.-The Manila correspondent of the Daily Telegraph, in a dispatch dated Sunday, says: The Americans found \$800,000 in the Spanish treasury. Foreign opinion is loud in praise of the action of the American commanders in excluding armed repels from the city. There is good reason to believe that their firmness saved Manila from pillage. A week ago there appeared to be a possibility of collision with the rebels, but there is no danger

now. Everything is quiet. TERMS OF CAPITULATION. The following are the terms of the

capitulation of Manila:
1. The Spanish troops, European and native, capitulate with the city and defenses with all honors of war, depositing their arms in the places designated by the authorities of the United States, remaining in the quarters designated and under the orders of their officers, and subject to the control of the aforesaid United States authorities, until the conclusion of a treaty of peace between the two belligerent nations. All persons included in the capitulation remain at liberty, the officers remaining in their respective homes, which shall be respected as long as they ob-

serve the regulations prescribed for their government and the laws in force. 2. Officers shall retain their sidearms, horses and private property. All public houses and public property of all kinds shall be turned over to staff officers designated by the United States. 3. Complete returns in duplicate of men, by organization, and full lists of public property and stores shall

rendered to the United States within ten days from this date. 4. All questions relating to the repatriation of the officers and men of the Spanish forces and of their families, and of the expenses which said repatriation may occasion, shall be referred to the government of the United States at Washington. Spanish families may leave Manila at any time convenient to them. The return of the arms surrendered by the Spanish forces

shall take place when they evacuate the city, or when the American army evacuates Cuba. 5. Officers and men included in the capitulation shall be supplied by the United States, according to their rank, with rations and necessary aid, as though they were prisoners of war, until the conclusion of a treaty of peace between the United States and Spain. All the funds in the Spanish

treasury, and all other public funds, shall be turned over to the authorities of the United States. 6. This city, its inhabitants, its churches and religious establishments, and its private property of all descriptions, are placed under the special safe-

guard of the faith and honor of the American army.

WANT ANNEXATION.

London, Aug 24 .- The Times publishes a letter from Havana dated July 28, in which the writer says: fectly cured of all my complaints. I cannot too highly recommend Doan's kidney Pills."

The civil population have arrived at a deliberate opinion in favor of annexation to the United States and probthe army will eventually follow their example, however reluctantly.
While independence, which would signify the tyranny of the rebel party, would almost be followed by the flercest of civil was, on the other hand in the event of annexation the dis-appointed rebels would probably turn their arms against the Americans, and as one of the highest government offi-Worms cause feverishness, moaning prised to see the Spaniarla, perhaps the Spanish troops, assisting the Americans against the insurgents. TRADE YEAR

The Details of Canada's Enormous Exports and Imports.

The Greatest Amount of Our Exports Go to Great Britain,

While the United States Sell Us More little craft. Capt. Crawford ordered

Ottawa, Aug. 21.—The details of Canada's foreign trade for the fiscal year just ended are available. Our foreign trade this year, including coin and bullion, is \$304,091,720, compared with \$257,168,862 last year, an increase of \$46,822,868. Imports this year were \$140,305,950, and exports \$159,485,-770. Dutiable goods imported this year amounted to \$84,126,000, and free goods to \$56,178,000. The duty for 1898 is \$21,-956,059, compared with \$19,891,996 in 1897,

an increase of \$2,064.663. TRADE WITH GREAT BRITAIN AND THE UNITED STATES.

During the year just closed. took from Great Britain goods to the value of \$32,827,000, as against \$29,328,000 for 1897. For home consumption we took from Great Britain \$32,398,000, as against \$29,401,000 in 1897, \$32,824,000 in 1896, \$31,059,000 in 1895, \$37,035,000 in 1894, and \$42,529,000 in 1893. It will be observed that while our exports to Great Britain have increased there has not been a proportionate increase in imports from the mother country, but this state of things will be corrected by the operation of the British preferential tariff, which is now in full force. While we took from Great Britain \$32,827,000 worth, we sent her \$104,787,000 worth, there being a balance in our favor of \$71,960,000, a condition which is reversed in our trade with the United States, Despite tariff barriers we took from the United States \$86,587,000 worth and sent them in return \$41,122,000 worth, there being an adverse balance in our trade with the republic of \$45,464,00. The U. S. sent us a large quantity of raw material for manufacturing purposes, and keep out by high duties our exportable surplus of agricultural products and manufactures, so that we are obliged to find a market in free trade England and other countries for our goods. The effect of Dingleyism is seen in the fact that there has been an actual increase in our exports to the United States as compared with \$1897 of \$811,000. Great Britain took from us \$63,664,000 worth of goods more than the United States imported from Canada, and we purchased of the goods of Great Britain \$53,760.000 less than we received from the United States, and this in the face of the fact that Great Britain admits our exports free of duty, while the United States raises against them a tariff wall so high that it is only because of the inexorable demands of trade that we are able to surmount it.
The exports to Great Britain and the

United States are thus classified: G. B. The mine \$ 215,402 \$14,052,191 Fisheries 4,824,270 Forest 16,167,106 9,350,174 Animals 41,056,243 Agriculture 37,441,763 1.331.083 Manufactures 5,016,671 3.745.681 Miscellaneous 65.055

Wherever Their Interests Are Identical.

Alleged Reason for John Hay's Recall To Carry Out a Treaty Between Washington and London.

London, Aug. 22.—The Manchester Guardian says: "We understand that United States Ambassador Hay's recall to Washington to accept the post of secretary is due to the special fitness to carry out a treaty, to which negotiations have been proceeding for some time between Washington and London, and upon which a substantial agreement has been reached, whereby the two countries will act together in the Far East, or wherever American and British interests are identical. "There is no intention of binding the nations in alliance. Each is to be free to pursue its own destinies in its own way; but the governments will act together diplomatically wherever their common interests are concerned."

Thrilling Experience on Board a Tugboat-Race of Steam Against Fire.

Chicago, Aug. 22.-With a fire under the deck, Capt. Crawford ran his tug, the Ira O. Smith, five miles under a full head of steam toward the mouth of the river yesterday. It was a race of steam against fire. For a time the men on board were in danger of being burned to death or drowned. As it was, five of them were severely burned. While the tug was a mile off Lincoln Park, a -Preferential Tariff Will Change the engines turned on to their full ca-Imports-Great Increase in Revenue pacity, and pumps were manned. When the river was reached the flames were under control. In the river the flames again broke out but were soon disting-

uished by the fire boat Yosemite.

HEAVY HAIL

Fierce Storm Sweeps Over Mark. ham and Pickering.

Several Buildings Struck by Lightning -Great Rainfall.

Pickering, Ont., Aug. 22.-A heavy storm passed over here last evening Rain came down in torrents for about three hours. Hailstones fell at a lively rate for about 20 minutes. There was

continuous sharp lightning. Altogether

51/4 inches of rain feli. Markham, Ont., Aug. 22.-One of the fiercest and most peculiar electric storms seen here in years passed over this town yesterday. Only once in eight weeks has rain fallen here, and everything was parched. At about 4:30 the storm broke in all its fury, and for five hours the rain came down in torrents, accompanied at times with hail as big as robins' eggs. The lightning was incessant, accompanied by terrific peals of thunder. For about an hour there was a continual roar of thunder, the noise never ceasing for an instant. The lightning played havoc around town, striking a number of places. The observatory on Mr. Burk's residence was struck and badly shattered; the chimney on Mr. Thomas' house, 40 feet away, was also struck. The residence of Dr. E. T. Trowle was struck, lightning entering the house, and prostrating the doctor, who is still under a physician's care. Three transformers in the Town Electric Light system were burned out and tonight the town is in darkness. A large fire is seen burning about two miles to the west. The bridges to the south of the village were swept away with flood, and Milne's bridge over the

TO CURE A COLD IN ONE DAY. Take Laxative Bromo-Quinine Tablets. All druggists refund the money if it fails to cure

It takes more than a handsome Bible on the parlor table to keep sin out of the house. LIFE SAVED,-Mr. James Bryson Cameron writes: "I was confined to my bed with inflammation of the lungs and was given up by physicians.
