Still in the Lead.

Every department in our store offers special inducements to the closest buyers. Your dollars will purchase more goods of us than from any other house selling strictly for cash. Our expenses are small and our BARGAINS ARE UNMATCHABLE.

Spring Millinery

The First Showing is now ready of the Advance Spring of 1807 Trimmed and Untrimmed Hats.

Every lady in London must be curious to know by this time what the new spring of '97 Hats are to be like, We time what the new spring of '97 Hats are to be like. We have received and have placed on show the advance spring styles in Ladies' Hats. They represent the brightest concentions of the daintiest sent the brightest conceptions of the daintiest designs of both hemispheres. Whether you are ready to purchase a hat now or not, we want you to feel at perfect liberty to call and gratify your curiosity as to the new styles. What you will see here are only fore-runners of the immense variety of styles and shapes which we shall keep in stock.

Additional accommodation needed for many years. The old buildings, imperfect as they are, can be used profitably for many departments of hospital work, and need not be discarded. There is nothing specially objectionable in the present site. It is probably as convenient to the public as any other site that could be secured. It is not unhealthy. It is on a bluff overlooking the river, and having, as I believe, a clay subsoil, all surface water can readily drain increase of 100 per cent. Compared with all the other provinces of the designs of both hemispheres. Whether you are ready

BUSINESS OUTLOOK.

Dun & Co.'s Statement of the State of Trade in Canada.

Toronto, March 26 .- R. G. Dun & Co.'s weekly statement of trade in Montreal advices indicate that genral trade in that district is still of somewhat dull, waiting character. It is hoped that the earlier going into effect of spring freight rates next week may effect the distribution of certain es of heavier goods. It is believed there will be no very general or radical changes made in the tariff as it is; but still the element of uncertainty exists. and has its effect on the business of

General wholesale trade in Toronto the latter being stopped.

Shows no charge. In some departments a fair volume of business is ported, but there is not that activity that was expected by many. The dullness is likely to be prolonged now that Parliament is in session and tariff reion the prominent subject before the House. Business men will watch the progress at Ottawa on this most imortant matter with the closest atten-

Toronto, March 25 .- The House, after the evening recess, was in com-mittee on the agricultural estimates entirely new hospital could be erected in some suitable locality. But the question to be decided is not what is actually best from a medical point of view, but what is the best attainable. In my opinion the idea of a new and complete hospital will have to be dropped as being beyond our means. A suitable site and proper buildings would call for an expenditure approximating the nast is the only guide to progress. call for an expenditure approximating \$150,000. The city cannot afford that amount; and I doubt if individual citizens are prepared to contribute any this country 20 or 30 years ago are such sum. Besides, the adoption of this idea would mean practically giving away the present building. It could not be sold for anything worth while; and it has cost too much to be thrown constructed. That would supply all the dion, and inspectors were appointed additional accommodation needed for The growth and extension of the rewhich we shall keep in stock.

We Told You

Some time ago through the press that we had prepared for you a feast in Millinery at prices that were never heard of before at the beginning of the season. We are determined to keep up our Rebuilding and Alteration

It is on a bluff overlooking the river, and having, as I believe, a clay subscoil, all surface water can readily drain into the river; while its proximity to our new sewers will satisfactorily dispose of its sewage. There is no use in our people attempting too much. Let us be satisfied with what is available. Dr. Moorhouse—The present site is not suitable for several reasons. The nature of the soil is very bad. It is hard, sticky, mucky 'clay, while the right ground for a hospital site is sandy or gravelly soil. It is too small—only two acres. Also, it is on the bank of a hill, at the foot of which is stagned to keep up our Rebuilding and Alteration fifth. The building has been hadly rater, filled with green mold and The building has been badly Explaining the provisions of the bill

built and badly arranged, and could he stated that only three licenses for never be reconstructed the same as a every 1,000 will now be granted, where modern hospital. If added to now, it formerly it was four. That will cut of would be an endless source of expense. 150 licenses in the province. The In all probability, after spending \$40, municipalities may, through their coun on or \$50,000 on it, it would be vacated. By all means, the best and cheapest of licenses. That the councils do not plan is to select a site of proper soil further reduce the number of licenses and sufficient extent of area, and build on it after the newest and most approved plans. Only a portion of the building need be erected at first. The best hospitals have an administration Edward Island and Quebec, in four building at the front and pavilions for provinces of the Dominion, there is the patients built at the rear at right a population limit. Under this bill is angles to the front portion, thus ad- is 3 per 1,000, and the power of tota mitting light and air at two sides and prohibition is given to the municipalione end. Two pavilions might be built ties under provisions for local election. at first and temporary arrangement A most important provision is the made for the offices, etc. Then when clause of the bill setting the hours possible additions could be made on of closing. This matter has hitherto some pre-arranged plan so that when been left to boards of license com-the building would be completed all missioners. In seven out of every would be completed all missioners. In seven out of every would be in harmony. A shift could easily be made for a few years until the city could afferd to do this, and then \$75,000 would put up a building that would be sufficient for twenty of the bill is that of raising the age This clause alone justifies the bill. Perhaps the most important provision of minors from 18 to 21 years of either tion in the past 25 years nothing has sex. One of the most valuable provibeen more marked than in hospital work and hospital building. Only a few years ago people generally considered a hospital only for paupers. There are 2,114,000 people but now because of the efficient staff in Ontario. Half of these are under of nurses and the excellent treatment, 21. Raising the age of minors from 18 to 21 effects practical prohibition for 135,000 of the people of Ontario. Gambling and revelling in a licensed place leads to a forfeiture of license. The changes in the bill: (1) In case of Cheapside street between Wellington of a reduction of the number of

and Waterloo. It is a ten-acre block, licenses in any municipality, the regravelly, high and dry, and could be duction is to take place on the 1st of purchased for about \$5,000. The most essential part could be built first. The large area would admit of pleasure grounds and the erection of cottages, isolated words purchased to the late purchase of the late purchase o solated wards, nurses' wards, etc. It set aside. Such a bylaw can be only would be easy of access from all por-passed after notice has been given tions of the city as the street railway prior to Nov. 15 of the preceding year, the notice to be signed by 100 municipal electors, and in towns by 500. (2) Liquor stores are allowed to sell unbroken packages of not less than one-half pint. (3) Holders of shop licenses are allowed to sell packages of 50 cigars or five pounds of tobacco
(4) The restrictions on drug store liquor sales are made more stringent, and are more clearly indicated. The demand for medical certificates and registration will apply to all pounds where liquors are mixed with other ingredients, but "legally quali-fied." Penalties are imposed for selling liquor to be consumed on the pre-mises, mixed with soda water, etc. (5) The regulations prohibiting the sale of liquor to persons of either sex under 21 years of age are made more string-Bona fide guests or lodgers, excepted by the original bill, are not now excepted, and in addition, clubs are prohibited from selling or supplying quor to minors, whether members or otherwise, or where the charters

expended to commemorate such an oc-casion, he thought it could not be power to sell to members. spent in a more advantageous man-ner. He did not know in just what shape the present General Hospital minors, other than lodgers, are found frequenting taverns, the proprietor shall be subjected to a fine. (6) Herewas in, but if accounts were true about lack of accommodation he would favor some portions of the present one were not, it would cost just about as much as a new one. Mr. Metherall could as a new one. All the \$150,000 was going to be raised, but thought that if money could be raised it would be a grand if made acquainted with the scheme, make a handsome donation toward the new structure.

N. McLeod, grocer, of East London, when asked about the matter, said he considered it was a useless waste of money to try to patch up an old build-LUBY'S
