BASEBÁLL THE INTERNATIONAL

The Detroit Free Press says: Progress in affairs pertaining to an inter-national baseball league has oven made much more rapidly than was anticipated in the short time that has been devoted to the organization of such a circuit, and it is confidently expected that such a league will be formed because the circuit of fore the week is out. A meeting of the promoters will be hell at the Griswold House, in this city, Wednesday afternoon at 2 o'clock, and Grand Rap-lds, Saginaw, Manistee and Muskegon will represent the Michigan end, while Hamilton, London, Woodstock and Chatham or St. Thomas are the Can-

edian cities interested in the venture. In Saginaw the business men have raised money enough to build a new park and back the team. Grand Rap-ids will come in, although it will be necessary to build a new park for Sunday games, and "Rasty" Wright says a club in that city will make 42,500 this year in such a league. Muskegon and Manistee have good parks, and can play Sunday ball, and paid close to \$600 per month in salaries while playing independent ball last The managers realize that it will be far more desirable to join a strong league with an \$800 salary limit and scheduled games in good cities than to play independent ball, so there seems to be little chance for any other Michigan city to get in the circuit.

Louisville fans are not discouraged by numerous turn-downs and have organized a city league.

President Thomson will also offer a prize for competition.

CHESS. London, April 9.-The second round of the chess masters' and amateurs' tournament, held under the auspices of the City of London Chess Club, was commenced yesterday, the committee having altered the days of play. When an adjournment was taken, early Saturday morning, five games had been finished. Blackburne defeated Jones, Teichmann beat Ward, Passmore suf-fered defeat at the hands of Gunsberg, Loman was downed by Tietpen, Lee disposed of Physick, and the game be-tween Mason and Lawrence was ad-journed; Vanvlet had a bye. The ad-journed game between Blackburne and from the first round, was won by the former.

The Most Popular Jockey in America and England Recommends Stuart's Dyspepsia Tablets.

No jockey has ever appealed so strongly to public favor as Tod Sloan. He has achieved more than his most noted predecessors ever attempted and stands in a class by himself.

Not satisfied with his successes in

his native country, he went to Lingadian League, is desirous of hitching land and now his fame as a success-on with some Eastern League team.

Catcher Reunig, with London in 1898, tongue not only in this country and tongue not only in this country and England, but in every section of the globe where racing has found favor.

When Tod first went to England his temerity was openly laughed at, but the little American played skittles with his English rivals and his victories made all England gasp. Having the stamp of royal approval,

society both at home and abroad "lionize" him and he is feted and petted to an extent that would turn an ordinary mortal's head.

The great jockey was in such de-mand socially and dined and wined to such an extent that it was feared his ing told on him. A two weeks' trip to America made

him acquainted with Stuart's Dyspepsia Tablets and their remarkably restorative effects on a depleted digestive apparatus and he recommended them unstinted terms to a friend, saying: "Stuart's Dyspepsia Tablets are the best thing I know of for keeping the stomach in condition and appetite in good repair.'

Thousands of former dyspeptics can vouch for the truth of Tod Sloan's words, as "Stuart's Dyspepsia Tablets" have become a household word in America, and few families are without them. One or two taken after meals keep the stomach sweet by causing prompt and healthy digestion of the food.

Perfectly healthy people use them after heavy dinners to keep their good health and to make sure that no ill effects will follow an unusually hearty

Minister Harcourt's Circular to School Inspectors.

Hon R. Harcourt, minister of edu-cation, has just sent the following cir-cular to public school inspectors throughout the province, in reference to Empire Day:

"I earnestly invite your co-operation in having Empire Day duly celebrated this year in all our schools. In the other provinces of Canada, as well as in Ontario, the 23rd of May, 1899, inaugurated an important event in the cultivation of British patriotism among the Canadian people. As intimated, last year the education department of Ontario, on the 1st of March, 1899,

adopted the following minute:
"The school day immediately preceding the 24th of May shall be devoted specially to the study of the history of Canada in its relation to the British Empire, and to such other exercises as might tend to increase the interest of the pupils in the history of their own country and strengthen their attachment to the empire to which they belong, such day to be known as Empire Day.'

"According to this minute, Empire

Day this year falls on Wednesday, the 23rd of May, and it is desirable that every suitable means should be adopted to foster among the youth of our country a high national sentiment. The subject is specially important this year, since the struggle in which England is now engaged, and in which Canada is taking a prominent part, will call forth increased love for British institutions. Canada is helping to make history, and the youth of our country should be taught fully to appreciate their position as citizens of the British Empire. It should be understood that true patriotism does not consist in empty shouts of acclaim, in mere professions of loyalty or in any spirit of national boasting. The patriotism to be cultivated among the children of our schools should be that which reour schools should be that which results from a just appreciation of what the nation has become because of its spirit of freedom, its laws, its customs, its form of government, and its triumphant onward march as a great civil-izing agency. For the children of our schools to appreciate rightly what they owe to the British Empire, it is necessary for them to know something of its traditions, its perils, its stages of growth its source for the stages of growth its source for the stages of the schools approach to the schools its stages of growth its source for the stages of the schools approach to the schools approach to the schools approach the schools approach to the school t growth, its source of power and its many glorious achievements. In other words, the patriotism to be cultivated in our schools should be broad and marked by intelligence and high moral principle.

"It is not necessary that the manner in which Empire Day is to be observed should be indicated in detail. As was done last year, some intimation of the following nature might guide the tea-

chers and trustees: "In each of the classes part of the forenoon might be occupied by the teacher taking as his subject the Britlence of the British form of government, and the privileges which all British subjects enjoy; the great extent and magnificent resources of Canada, together with some account of its vincial, municipal, educational: historic incidents in connection with the development of the Dominion, and the part it has taken in the unity of the empire An historical reference to the Union Jack, explaining when and how it be came the national emblem, would be opportune. It should be understood that the aim of the teacher, in any outline he may give to his pupils, will be to cultivate that spirit of Canadian patriotism which will be marked by intelligence and the highest moral sentiment, and which will be adapted to the age and attainments of the pupils.

"A suitable programme can easily be arranged for the afternoon, the exercises commencing at 2:30 o'clock. These might consist of patriotic recitations, songs, readings by the pupils, and addresses by trustees, clergymen and such other persons whose services may be available. At the afternoon exercises the trustees and public generally should be invited to be present, and during both forenoon and afternoon the British flag or Canadian ensign should be hoisted over the school building. With these objects in view, you will kindly give the necessary directions to the teachers of schools under your supervision, in order that throughout the entire province Empire Day in the closing year of the century may be duly celebrated."
