Business Embarrassments. The Power of Ink.

"A small drop of ink. failing, like dew, upons thought, proclaims that which makes thousands, perhaps millions, think." wrote Byron. Jones was an assistant in one of the company's St. Louis offices, and being well connected the railway people thought his friends would make the amount good and thus avoid exposure and arrest, but they did nothing of the kind. The young man stole a large sum of money at one time and otherwise pilfered from the company. It was found that Jones was living in Toronto and Detective Fuelons came on from St. Louis. In company with Detective John Ouddy he went to the Arlington where Jones was arrested. Let this true story of Florie Meredith's marvellous restoration to health sink deep into the hearts of the fathers and mothers of into the hearts of the fathers and mothers of Canada. When your child feels nervous, irritable, does not sleep well, has headache, variable appetite, acts tired or listless, or shows any of the symptons of nervous disorders, give the little one Paine's Celery Compound. There is no other medicine which is so well adapted for children. It is pleasant to take, entirely vegetable, a scientific preparation and cannot harm the most delicate. Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic relearch, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been discovered which permanently cures the most aggravated cases of these distressing diseases by a few simple applications made (two veeles aquart) by the patient at home. A pamplifet explaining this new treatment is sent free by A. H. Dixon & Son, 387 and 389 West King Street, Toronto, Canada.

a busy man all his life he is certainly the Right Hon, W. E. Gladstone. All the honor and distinction that he cares to receive from the nation he has received. There is no gift at the disposal of Britain now that seems to have any attraction for Mr. Gladstone. No amount of abuse perturbs him. He is unnoved by adverse criticism. What is the philosophy or remon of his recent course which is so contradictive of his previous career? He has supplanted Mr. Parnell in the leadership of the Irish party. He has formulated a Home Rule Bill of which he will not allow any modification that will sectire its passage. By that means he has split the Liberal party in the interests of the integrity of the Empire. In the matter of the Crown grants he has influenced the Irish party to follow his lead and support those grants. In his apparent departure from principle he has subdued the turbulent elements and facilitated the operations of the Government towards a peaceful issue. He finds time to criticise hooks and engage in dentity of the most wondered and think. Everything on which he bestows thought acquires importance through his consideration. Mr. Gladspone is the most wondered undying fame. Of freedom of thought acquires importance through his specialty and the sphere in which he has achieved undying fame. Of freedom of thought there could be no more devoted champion, and the cause and supremacy of Britain will never suffer at his hands. The harsh things that have been said of him, we believe, have proceeded from a misapprehension of his true motives. He has subserved the infereste of the nation at the expense of appearing inconsistent. This he could afford to do, leaving time and the future to bear testimony to the goodness of the results and his own motives. Freedom will ever honor the name of W. E. Gladstone.
