

AN eye-headache some times accompanied by an earache and burning sensations of the eyes is caused by an over effort of the brain to understand a blurred image that has been thrown on the retina of the eye. In the eye-camera the focal are changed by the eye muscles that swell and reduce the shape of the crystalline lens. When these muscles become weakened an optometrist must prescribe the outer-man-made lenses to bring about this focus accommodation.

An Oil of Merit.—Dr. Thomas' result of the careful investigation of kept public favor from the first. A Electric Oil is not a jumble of medicinal substances thrown together as applied to the human body. It is any who doubt its power to repair and pushed by advertising, but the a rare combination and it won and heal.

To See What Other Half Is Doing.

Above—The Canadian Pacific S.S. Empress of France chosen to carry the Canadian flag round the world in 1925.
Right—The bedroom of one of the suites aboard the vessel.

One reads almost daily that so many automobiles have been shipped to foreign countries, that Canadian agricultural implements and other manufactured articles are finding foreign markets, and now one reads that there is an increasing demand in China and Japan for Canadian wheat and that thousands of bushels of grain are being shipped to Oriental Ports. Of vital importance is this news to the Canadian, because the growth of Canadian exports means that new industries are being created, that more employment is guaranteed, that more money is placed in general circulation, and that there are more opportunities for the workman, manufacturer and commercial man, and a larger home market for the farmer.

But it means more than all this. The increasing demand for Canadian, American and European goods, which is apparent, means that the other half of the world—the world itself—is changing. The automobile is gradually replacing the rickshaw and the one horse cabs in the gateway ports of the world, and is working its way inland, not so slowly as it is surely. Fields that once knew only the primitive agricultural implements are being tilted with up-to-date machinery, and on the busy streets where people thronged in picturesque and native garb, the occidental costume does not strike a strange note. Customs are changing even in respect to foodstuffs. Outside the little restaurants one sees "English Speak Here" and knows that inside it will be harder to procure a native dish than a European one. Everywhere there is change. The Turks abolish their caliphate and their harems. The Greeks proclaim a republic, education for women appears in India. The Chinese are erecting modern factories.

Yet the world of romance still exists. Foreign countries still hold an allurements, and always will, but as the occidental civilization spreads, the Oriental atmosphere which, after all, is what the tourist goes to find, disappears before it, and the man of today has opportunity which those who come later will never see. Opportunity to see and come in contact with old customs, costumes, crafts and civilizations which are entering or about to enter a transient stage. Opportunity to experience the picturesque life of the other half of the world and to absorb at will the colorful atmosphere of strange lands; for the traveler may still feast his eyes upon the barbaric splendors of Pekin and experience the thrill of shopping in the tumultuous market place at Cairo. The auto has not yet replaced the sledge which taxis through the steep and cobbled streets of Madeira.

January 14th next will see the palatial Canadian Pacific S.S. Empress of France leave New York on a globe encircling tour which will extend over 130 days. It will be a cruise which will embrace twenty-seven "Gateway Ports", and give the passengers opportunity of coming into contact with more than half a hundred different places. Madeira, Monaco, Naples, Haifa, Padang, Shanghai, Taku, Hilo, Balboa and Havana are but a few of the interesting ports of call, and inland excursions will be made to Jerusalem, Cairo, Agra for the Taj Mahal, Pekin, Nikko and other places. Last year another Canadian vessel, the Empress of Canada, made a similar trip—a very successful one—and the first to be operated under Canadian Pacific auspices throughout. A Mediterranean cruise is also planned this year by the Company, the Empress of Scotland being scheduled to leave New York, February 9th on a 62 day voyage, and, in addition, the Montroyal, formerly the Empress of Britain, will make two cruises between New York and the West Indies, one on January 20th and the other on February 21st. So it is seen that there is demand not only for Canadian foods, but for Canadian vessels, these last having won for themselves an enviable reputation on both the Atlantic and Pacific waters as seaworthy and comfortable ships.
