Gentlemen of the House of Commons: Honorable Gentlemen of the Senate: I commend these subjects and others which may come before you to your earnest consideration, relying upon your wisdom and prudence under the divine guidance to dis-charge with dignity and effect the high trust comitted to your care. After their excellencies had retired the senate resumed the ordinary position, but

Gold in Abundance. Bridgevoter Enterprise: On Thursday last Mr. W. L. Libby, manager of the gold mine at North Brookfield, brought a large brick of gold to Bridgewater and deposited it in the Merchants Bank. This brick which is the largest ever brought to Bridgewater, is the product of one month's crushing at Mr. Libby's mine, and is certainly a very creditable showing for a mine which but a few years ago was looked upon as almost worthless. It goes to show what can be done by perseverance, and we are pleased to learn that through the intelligent manage-ment of this property Mr. Libby has placed his mine in the front rank as a gold producer in this province. On Friday the huge brick was on exhibition at the Bank and drew much attention. It weighed 561 ozs. and is enterprise.

Stoves or Doctors.

Once more we are reminded Winter days are drawing near That autumn days are passing, Soon will end another year.

And run your chance of illness, Suffer colds and many chills, Then at last send for the doctor, With his plasters and his pills.

And you sit and try to figure Which would be the cheaper thing, It to buy a stove for comfort, Or to shiver on to spring.

When spring comes, if you're living, As you figure up the cost, You'll find you haven't saved much, And perhaps you'll find you've lost.

So you'd better, then, be cautious, Ship the doctor, pass him by; Come and see our line of heaters, You can't beat them if you try.

Very respectfully yours,
