The street committee have taken kindly the hint of the Monitor and are having generous layers of coal ashes spread across the streets at intervals through the town to serve as crossings.  
Last year a movement was made to improve and enlarge the Bridgetown Cemetery. We have heard nothing of it of late, but we trust the attention of the promoters of so worthy an object will not fall in its purpose.  
The military openings will be held here on Friday and Saturday of this week and no doubt will be largely attended if the weather is favorable. Miss Lockett, Miss Chute and Miss Deane and Haden have all made careful selections of the season's styles and will make an interesting display.

These young men are sons of the late Walter Saunders, who taught school in Bridgetown fifteen years ago.

Mr. and Mrs. W. R. Ray and family were very much surprised on Monday evening, March 30th, when between thirty of their friends, old and young gathered at their home. They welcome them back from the United States where they have been spending the winter. A tea was served by the ladies after which the evening was spent with music, games and a social chat. In the wee sma hours the company broke up, all wishing Mr. and Mrs. Ray many years of comfort in the dear old home.  
The greetings accorded Mr. and Mrs. Ray and the warm welcomes extended by their old friends are very gratifying evidences of the esteem in which they are held in the community.

**BUTTER MARKET IN ST. JOHN.**  
Thirty-nine cents a pound is now being asked for creamy butter in this district. This is the highest price for butter in some time. The dealers say there is very little butter in the country. The farmers having killed off many of their cattle in the fall rather than feed them through the winter at the very high cost of feed, the output of butter is as a result very much lessened. Lower prices are not looked for some weeks yet, at least.—St. John Times.  
**CHAMBERLAIN'S HAS THE PRE- FERENCE.**  
Mr. Fred C. Hamahan, a prominent druggist of Portsmouth, Va., says: "For the past six years I have used and recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is a great remedy and one of the best patent medicines on the market. I handle some others for the same purposes but pay me a larger profit, but this remedy is so sure to effect a cure, and my customer so certain to appreciate my recommending it to him that I give it the preference." **HALIFAX DAIRY MARKET.**  
While there is no further advance to report this week in the price of butter here, the markets everywhere are firm and still indicate that before many weeks have passed, a still higher price will be reported. Eggs on the contrary have declined to 15 and 17 cts, for fresh laid, and cheese is firm at former prices.  
In looking up conditions and prices which were realized at the same time last year for creamy butter, the following comparison may be interesting: On April 1st last year sales were made in Montreal at 27 to 28 cents, from the 2nd to the 15th, prices increased from 28 to 32 and 35 cents. It, and judging from what is known of present conditions, it is pretty safe to say that next report on butter will show a further advance in the local market. Today's market quotations are—

Dairy rolls—not quoted.  
Creamery solids, lb. 31 to 32 cts.

Mr. Arthur Tension, 88 London Street, Toronto, writes enthusiastically of the merits of Psychine for all stomach troubles.  
"For seven years I have had indigestion and dyspepsia. I tried scores of remedies. My room resembled a drug store with nostrums which I bought. Eventually I used Psychine, and every dose brought permanent relief." All throat, lung and stomach troubles quickly cured by Psychine. It is the prescription of a great specialist. **Obituary**  
**MRS. WELLINGTON DANIELS.**  
The death occurred at her home at Lawrenceville on Thursday last of Mrs. Wellington Daniels, after a brief illness from pneumonia. Her health had been precarious for some time past and her age and weakness of the heart caused the disease to terminate fatally within a few hours. Mrs. Daniels was eighty-two years of age, but sustained her weight of years remarkably well. She was a woman of fine presence and many sterling qualities by which she was endeared to a large circle of friends. Her husband predeceased her some years ago and she is survived only by one son, the Hon. O. T. Daniels, M. L. C., member for this county in the Nova Scotia Legislature. Although Mrs. Daniels continued from choice to live upon the old homestead, the care and affectionate devotion of her only son have been the solace of her declining years.  
**ROBIE HASTINGS YOUNG.**  
Mr. and Mrs. Abram Young have the deep sympathy of a large circle of friends and of the community in general in the loss of their son, Robie, which occurred on Monday afternoon after a brief illness. This is the second son Mr. and Mrs. Young have lost by death just as each boy was entering upon his early manhood, the eldest son, Harold, having died quite suddenly in the spring of 1902. Both were boys of excellent character and gave considerable promise as to future attainment and the double loss is a severe blow to their parents and to the sister and younger brother. Robie was attending school until a fortnight ago when he became ill and the attending physician said that he was suffering from Bright's disease in its advanced stages, consequently the fatal termination was inevitable. The funeral will take place from the house this afternoon at half past two o'clock. The public schools will be closed and the pupils will unite in the procession and pay their last sad tribute of esteem to their friend and companion.

MARCONI STATIONS.

OTTAWA, April 5.—According to a return just issued by the government, the Dominion owns 12 Marconi stations in the Gulf and on the Atlantic seaboard. Three of these are what are known as low power stations and cost \$5,000 each; the others are known as high power stations and cost \$10,000 each. The Marconi company receives \$2,500 and \$3,500 per annum respectively for operating them retaining all the tolls. From April 1st, 1908, to March 31st, 1907, the number of messages transmitted through these stations was 29,406, the tolls amounting to \$9,637. Apparently these messages cost the government more than two dollars each, the company getting the toll besides.
