

**THE NEW
EARLY WHITE GRAPE
"EMPIRE STATE"**

The Empire State is a seedling of the Hartford Prolific, fertilized with the Clinton; bunches large from six to ten inches long, shouldered; berry medium to large, roundish oval, color white with very light tinge of yellow, covered with a thick white bloom; leaf thick, smooth underside; flesh tender, juicy, rich, sweet and sprightly, with a slight trace of native aroma; ripening very early and continuing a long time in use; vine very hardy, vigorous and productive.
