

**AYER'S CHERRY PECTORAL,**

FOR THE RAPID CURE OF

*Colds, Influenza, Hoarseness, Croup, Bronchitic Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.*

Scarcely a day passes in our ever-changing climate, that a reliable remedy has been long and anxiously sought for by the whole community. The indispensable qualification of such a remedy for popular use must be, certainty of healthy operation, absence of danger from overdoses, and adaptation to every patient, male or female, and of either sex. These conditions have been fully met in this preparation which, while it reaches the foundations of disease and acts with unfeigned energy, is still harmless to the most delicate and tender infant. A trial of many years has proved to the world that it is efficacious in curing pulmonary complaints, beyond any remedy hitherto known to mankind. As time makes these facts wider and more known, this medicine has gradually become a necessity, from the log cabin of the American settler to the palaces of European kings. Throughout the entire country, in every state, city, and in almost every hamlet it contains, the *Cherry Pectoral* is known by its works. Each has living evidence of its unrivalled usefulness, in some recoveries, or victims, from the threatening symptoms of consumption. Although this is not true to so great an extent abroad, still the article is well understood in many foreign countries, to be the best medication for distempers of the respiratory organs. A general of them it is extensively used by their intelligent physicians. In Great Britain, France, Germany, where the medical sciences have reached their highest perfection, *Cherry Pectoral* is introduced in constant use in the armies, hospitals, prisons, public institutions, and in domestic practice the surest remedy their attending physicians employ for the more dangerous affections of the chest. Thousands of cases of pulmonary disease, which had baffled every expedient of human skill, have been permanently cured by the *Cherry Pectoral*, whose cures speak convincingly to all who know

**SCROFULA, OR KING'S EVIL,**

Constitutional disease, a corruption of the blood, when this fluid becomes vitiated, weak, and poor in the circulation, it pervades the whole body, and bursts out in disease on any part of it. No part is free from its attacks, nor is there one which it does not destroy. The scrofulous taint is variously induced by mercurial disease, low living, disordered diet, impure food, impure air, filth and filthy habits, the use of vice, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in its constitution, descending "from parents to children to the third and fourth generation." Indeed, it is to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The effects commence by deposition from the blood upon or ulcerous matter, which, in the lungs, and internal organs, is termed tubercles; in the skin, swellings; and on the surface, eruptions of various kinds. This foul corruption, which genders in the system, depresses the energies of life, so that scrofulous persons not only suffer from scrofulous diseases, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not venereal in their nature, are still rendered fatal by their presence in the system. Most of the consumption which decimates the human family has its origin in this scrofulous contamination; and many of the most dangerous diseases of the liver, kidney, brain, and of all the organs, arise from or are aggravated by the same cause.

QUARTER OF ALL OUR PEOPLE are scrofulous, their persons are invaded by this lurking invader, and their health is undermined by it. To

cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

**AYER'S 'COMPOUND EXTRACT OF SARSAPARILLA,**

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as *Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blatches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercerial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood.* The popular belief in "IMPURITY OF THE BLOOD" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Dr. J. B. S. Channing, of New York city, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alternative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases of the Scrofulous diathesis.* I have cured many inveterate cases of Leucorrhoea by it, and some where the complaint was caused by *ulceration of the uterus.* The ulceration itself was soon cured. Nothing within my knowledge equals it for the female derangements."

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept, 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous attack of *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas Eruption* by it constantly.

**AYER'S CATHARTIC PILLS**

FOR THE CURE OF

*Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil.* They also, by purifying the blood and stimulating the system, cure many Complaints which it would not be supposed they could reach: such as *Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred Complaints arising from a low state of the body or obstruction of its functions.*

These Pills have been prepared to supply a surer, safer, and every way better purgative medicine than has hitherto been available to the American people. No cost or toil has been spared in bringing them to the state of perfection which now, after some years of patient, laborious investigation, is actually realized. Their every part and property has been carefully adjusted by experiment to produce the best effect which, in the present state of the medical sciences, it is possible to produce on the animal economy of man. To secure the utmost benefit, without the disadvantages which follow the use of common cathartics, the curative virtues alone of medicines are employed in their composition, and so combined as to insure their equal uniform action on every portion of the alimentary canal. Sold by Morton & Cogwell, Halifax; W. H. Watson, Charlottetown, P. E. I.; E. P. Archbold, Sydney, C. B.; and at retail by druggists and merchants in every section of the country.
