This Fowder never varies. A marvel of purity, attentit and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphata powders. Sold only in cans. ROYAL BAKING FOWDER CO., 106 Wall street, N.Y.

### THE AMERICAN ELECTIONS.

Henry George Gets Badly Bouted-Demo. cratic Cains-The Results in New York and Other Cities.

NEW YORK, Nov. 8.—The State election to day resulted, so the can be told at present writing, in the election of the Democratic State ticket, headed by Cook for Secretary of State, by about 10,000 or 15,000, though later returns may modify this estimate. Henry George polled a big vote in county returns show that his support out-side New York and Brooklyn has been insignificant. Brooklyn gives the head of the Democratic state ticket 8,006 plurality. George polled 11,518 votes in Brooklyn. In this city Cook, the head of the Democratic ticket, has a plurality of 45, 897 over Grant, George polled \$2,420 votes. In New York and Brooklyn Cook's plurality falls 12,000 short of that given to Hill, who carried the state for Governor in 1885 by \$1,000, but Grant's vote in the country is not up to expectations. The Republican vote shows that the George supporters have been drawn mainly from Republicans, and that Democrats, heretofore supporters of the apostle of anti-poverty, colted him in the election. George's vote in the interior of the state is very thin. Chapin is elected mayor of Brooklyn, and that city elects the entire Democratic city ticket except sheriff.

Becker. The contest is so close that on a sole item when it is borne in mind how closely count of votes at this hour (1.30 a.m.) the our farmers are obliged to live in order to result is about a tie. Yet seven districts make ends meet. This state of affairs is the have to be heard from. Apart from the secret of the success of the C. U. movement Assembly contests and Superintendent of smong the farmers. Schools the Republicans elect nearly all the city and county officers.

LATER-In Buffalo city for mayor 55 election districts out of 61 give Becker (Republican) 15,258, and Schen (Democrat) 15,251. The count will not be completed to night.

WORK DISTRICT ATTORNEYSHIP.

NEW YORK, Nov. S .- The State and all other contests in this city were of insignificant interest compared to the contest between Fellows and Nicols, the present assistants in the District Atterney's office, as to which should succeed District Attorney Martine. Nicols prosecuted the boodlers and attained a great reputation for the manner in which he discharged the duties devolving upon him. The Democrat mogule of the city, however, passed him over and nominated Colonel Fellows in his stead. Thereupon the Demogratic World and the Mugwump Times yelled for a citizens' ticket of Nicols and Reform, and the usual committee of one hundred putup Mr. Nicols and the Republicans promptly endorsed his candidacy. The campaign fellowing this action has never been surpassed for mud throwing and vituperation, but the result is that Colonel Fellows has been elected by a plurality of over 20,000 Customs, \$48,760; and public works, \$184, ver Nicels. Post, the Henry George candidate, police 30,000 votes.

### MASSACHUSETTC.

BOSTON, Nov. S.—The enormous crowds in the streets and in the corridors of hotels indicate that the interest in the state contest is very much greater than usual. At the Republican bezdquarters Chairman Burden claims that the Republicans will have a plurality of not less than 14,000, and, perhaps, 17,000. The net loss of the Democratic ticket in Boston is 3,000, while the Republicans claim that returns so far in show that they have gained three or four senators and a dozen or more representatives. The total returns received so far at the Republican headquarters show a Democratic net loss in the state of 8,490. At Democratic headquarters they are making no claims except that the vote will be found to be close when the returns are all in.

Later—The re-election of Ames (Rep.) as governor is generally conceded by an increased plurality. His plurality fast year Was 9,463.

IN OTMER STATES.

DES MOINES, Ia., Nov. 8.—Meagre re-urns show a very light Democratic pain, but there will be no material change from last

PGELADELPHIA, Ps., Nov. S.—The entire Republican state ticket is elected, but their principal municipal candidates were defeated in this city by small exajorities. The Republican majority on the state ticket is about

CINCISTATI, Ohio, Nov. & .- Foraker (Rep.) is re-elected governor by an increased majority. The city of Cleveland and Cuyahoga county show a great Republican gain.

JACKSON, Miss., Nov. 8.—The election to-

in in Mississippi for members of the Legisstureand county officers was the quietest toknown. There will be few other than traight out Democrats in the next Legisla-

Lincoln, Neb , Nov. 8 .- It has been raining all day and a light vote was polled, with sreduced Republican majority on the state ticket. The chief interest centres in the judicial ticket. The Prohibitionists and

state or judicial ticket. Only a two thirds

one o'clock this morning are that the majority for Jackson (Dem.) for Governor will be from 10,000 to 12,000 over Brooks (Rep.) The Legislature will be largely Democratic in both branches.

PORTLAND, Org., Nov. 8.—A steady light rain fell all over the western section of the State to-day. The vote was light in the interior, all interest centreing in prohibition. The estimated vote of the city will be 4 to against the amendment. Returns late this afternoon indicate that the prohibitionist amendment is defeated by 7,000 to 8,000. The other two amendments, namely, to change the time of election and to allow the Legislature to fix the salaries of state officers,

are supposed to be beaten. DETROIT, Nov. 8.—The municipal contest to day resulted in the election of the entire Democratic ticket, with exception of the city tressurer, by majorities ranging from 1,800 to 5,000. The Democrata also elected fifteen out of sixteen aldermen.

AGRICULTURAL VALUES. The annual report of the Ontario Bureau of Industries for 1886, just issued, is considerably more voluminous and covers a much wider area than its predecessors. The section dealing with farm values is especially important, Brooklyn, but there is a big decline compared ing with farm values is especially important, with his vote for mayor in this city, and the as showing that during the year there has been a very decided increase in the value of the farms of the Province. Owing to the exodus to Manitoba, the total value of farm property, including land, buildings, implements and stocks, dropped from \$961,428,395 in '83 to \$949,803,170 in '84. In 1886 the amount trad increased to \$987,497,911, showing that the exceptional interests of the amount trad increased to \$987,497,911, showing that the agricultural interests of the Province have fully recovered the effects of the Manifesh have the Manitoba boom.

The table giving the prices of produce,

state or judicial ticket. Only a two thirds yote was east in this city. It is supposed the Republican bloket is fully elected. For superior judge (head of ticket) the Republican plurality in the state will be 20,000.

ONAHA, Neb., Nov. 8.—The Omaha Beet says the Republican set elected will be 20,000 majority. Nineteen district judges were elected in Nebraska.

Plomnon, Va., Nov. 8.—There was some trouble in this city owing to an attempt made by negroes to steal a ballot box. A box is missing, but it is believed it has been safely cared for. It seems probable that the Democratic on a joint ballot, thus auguring a indignant men, who prefer to act when exper-tunity shall offer rather than to vent their rage in shouts and curses.

> When Baby was sick, we gave her Castoria, When she was a Child, she cried for Castoria, When she became Miss, she clung to Castoria, When she had Children, she gave them Castoria,

TO PRESERVE THE COMPLEXION. English women, as a rule, possess in youth and keep till age the finest complexions. Their climate is kind to them. Its perpetual moisture seems to keep them in perpetual bloom, as it does their wonderful roses. But besides their climate, their customs tavor them. English girls are kept in the nursery or the school room, free from the excitement of late hours, rich food, adult society, fashionable dress or habits, till their constitations are established and their physiques developed. The simple fool, daily bath, hours spent out of doors, on fort or on horseback, and uneventful life, give them sound stomachs, hearty livers and tranquil nerves, and the beautiful coloring is a matter of course. It cannot be said too strongly that health is the only safe recovator of the plexion. Cleanliness is the one universal cosmetic. And if the women of this generaserve that inheritance of beauty to which most Americans are born.—Harper's Bazaar.

## Children Cryfor Pitcher's Castoria.

however, show that in nearly every case there has been a steady decline since 1883. Taking the six principal articles of grain, a comparison with the average for the past five years proves that the crop of 1886 re-presents nearly ten millions less than the

BUFFALC, Nov. S.—There is a very close contest for the mayoralty. Philip Becker, seeking re-election, was opposed by ex-Mayor Solomon Scheu, who once previously defeated.

The very full statistics showing the falling off in the values of farm produce are a strong argument in favor of our finding new markets. The depreciation in value described in value

SLOWLY TORTURING O'BRIEN
TO DEATH.
DUBLIN, Nov. 14.—Mr. O'Brien complained
to the visiting Justices in the Tullamore jail
yesterday of being slowly tortured to death.

It takes a Hindoo twelve days to cut an acre of grain by the primitive method he employs. With a mall, curved blade he severs the stalks by handfuls as he squats upon his heels. The wages of a harvester are said to be about 30 ents per week, without board. These people will have nothing to do with the modern threshing machine. They prefer the "bhooss," or tramping process. They clean the grain by the aid of the wind.

A. F. Shirer, of Fetterman, W. Va., is just recovering from the effects of a spider's bite received over a monthago. For a time he was on the verge of death.

Democrats have fused to beat the Republican nominee. The result will be very close.

Returns are very meagre, and there is nothing on which to base an estimate on the Cladstone is a firm believer in the pood of athletics, and his son, Herbert Gladstone, is the President of a National Physical Recreation Society that has recently been organized in Liverpool. Gladstone is a firm believer in the rood of

#### MONTREAL MARKETS.

MONTREAL, Wednesday, Nov. 16, 1887. The various markets to-day have done a good business, especially in hay and grain, which has come in freely and favored a ready sale; lo sabringing \$10 to \$12, according to quality. Good timethy is in good demand and eagerly sought for, also bright straw: hay that has been wet and colored goes slow. Grain, especially oats, is in good demand and bright oats have been sold at 34c for 32 pounds. The birley boom seems to have seen its best days as large shipments have been made to the States at large advances and the markets there have been overrun. Brewers here have also bought largely and do not seem over anxious to load too heavily at the prices demanded; bops are selling at 11c to 15c as to quality, but there is at present no grand rush for hops. Butter remains unchanged, nearly all sales being in small lots for home consump-tion and holders in the country are getting impatient, in fact, we are assured that could sales be readily effected without overraming the market the factories would sell at a reasondrop from what they have been holding, but they seemed to have formed a combine to stand by each other. In cheese everything is "about so." From all parts of the country it is shown that the surplus is more than ample and holders are anxious to sell, but still persist in dictating figures. At London on Saturday a large quantity was offered but no sales effected. At Ogdensburg on the same day 500 boxes were offered, and at Canton 9,000 at 11½c, but with sales of less than 500. Hogs seem in little better demand, and those offered are an improvement. on many former lots received. Injectile little is being done, and those offered cannot be classed

being done, and those offered cannot be classed as the best. Vegetables are coming in fairly and sell readily. The demand for potatoes is remarkably good for small lots.

The stock of game is quite large this morning, implying that the boys put in a goods day's work Sunday. Hares 35c a pair, patridges 55c, venison 11c to 15c, per pound. Fowls and turkeys remain at old prices.

The call for fresh eggs is equal to the demand, and 25 cents seems the ruling price. There is quite a stock in the market that have seen their best days, which can be bought at optional

## Grain.

There seems to be a little better feeling in the wheat market, especially for Manitoba winter, and oats are esperly sought for for home consumption. Barley it would seem had its boom early, and the demand for peas is not as active as one week ago; 72 to 721c is all that is offered for peas to day, while holders are demanding 73c, and some would accept of more. Corn seems to be in good demand and the markets are well supplied, considerable western having been received. Buckwheat is coming in slowly and finds ready sale. The grain market in Chicago is reported irregular but fairly active. Wheat closed at 73%. The corn mar-ket was strong and advanced to 41% December, Alfc January, 45% May. Oats were firmer, closing at 25% December, 25% January, 29% May. The New York wheat market was stronger and advanced to 83% November, 84% of the stronger and advanced to 83% November, 84% of the stronger and advanced to 83% November, 84% of the stronger and advanced to 83% November, 84% of the stronger and advanced to 83% of the

May. The New York wheat market was stronger and advanced to 83% November, 84% December, 85% January, 86% February.

That there is a great shortage of the grain crop this year cannot be denied. From the best statistics to be obtained in fall wheat there was 14,500,000 bushels, being 3,600,000 less than last year and 5,000,000 less than the average for five years. In spring wheat 5,600,000, being 3,800,000 less than last year and 4,000,000 less than the five years average. In barley there is 17,000,000, being 2,800 000 less than last year and 2,000,000 less than the average. In oats there is 50,000,000 less than the average. In oats there is 50,000,000 less than the average. In oats there is 50,000,000 less than last year. In pease there is 12,000,000 less than last year. In pease there is 12,000,000 against 16,000,000 last year. The Manitoba estimates give 12,351, 724 bushels of wheat, 7,265,237 oats, and 1,925,231 barley; whilst estimates of the same date give for the United States a yield of 450,000,000 bushels of wheat, 600,000,000 of oats, and 55,000,000 of barley. Still with all this shortage the supply seems to be equal to the demand, and the prices are most reasonable.

#### the prices are most reasonable. Butter and Cheese.

The butter market for the past two or three days has been exceedingly tranquil and sales have been slow. The market is well supplied with all goods, and several large shipments of creamery have been received. There were one or two quite large orders for cheese for shipments that they then reportations. If the steel of the steel ment, but at less than quotations. If the stock in the country has not leen over-estimated, better prices or quicker sales may be anticipated. Just now the commission merchants here have

Just now the community all they can handle.

Apples-The market continues to be well supplied, The market continues to be well supplied, and choice fruit is in demand, but the prices are too stiff to warrant any large sales. The fameuse seem to be principally in the largest demand, but some offered seem to be badly spotted. The Alexander, Oldenburg and Golden russet are being purchased quite freely, as they hold their own for months. Large shipments are dealy being received and purchased. ments are daily being received, and purchasers

#### m to be in no great hurry for laying up their winter supply Onlons.

The weeping onion has been enjoying itself for the past few days and is in active demand. Yesterday nearly 3,000 barrels were sold at \$3.25. This makes the onion the rival of the apple. There is quite a demand for shipmost just now and it is thought that prices will hold good for some time to come although it is well known that there is a large quantity in the conner ready for the market. country ready for the market.

#### Came.

Just now game seems to be in excellent de-mand and this morning Mr. Geo. F. Phelps, No. 56 Victoria Square, an extensive dealer in game, had an order for several brace of part-ridges to be shipped to the Old Country. Black duck are called for early and late and a nice pair go quick for a dollar; the teal duck seems to be in good supply and woodcock are in good demand at quotations. Few here have been received as yet and those evidently were not stall fed. Eggs.

The call for fresh eggs continues good and 23 to 24 cents is the price realized. Now and then an old lady would accept of an advance, claiming that her stock was from genuine thorough-bred pullets, but the prices given are as near right as can be. There is quite a stock of last year's goods in the market, but there seems to be no demand, and they are only sold to those who are not a judge of the fruit they are buying. they are buying.

at 3½c to 4c; butchers', \$2.50 to \$3.50 a head. Lambs are firm at \$2.50 to \$3 for ordinary, and \$3.25 to \$3.60 for good to choice. Calves are quoted at \$3 to \$5 for common and \$6 to \$11 for choice and \$12 for extra choice. Hogs are worth 4c to 4½c or 4½c p:r lb. for good medium weights, 4½c to 4½c for heavy and 2c to 2½c for stags. The local market is quiet and unchanged. Butter, 19c to 20c for choice dairy; 16c to 20c for pastry, and 10c to 18c for medium and inferior. Eggs, 19c for round lots Dressed hog, \$5 to \$5 50. Poultry—Plentiful offerings. Chickens, 25c to 35 a pair; ducks, 40c to 35c; geese, 5c to 5½c a pound, and turkeys, 8½c to 9½c.

PRIERBOROUGH.

The following are some prices quoted at Peterborcugh:—Wheat, fall, 80c to 82c; barley, 65c to 80c; peas, 65c to 67c; rye, 50c, to 58c; potatoes, per bag, 80c to 95c; butter, per tub, 18c to 19c; fresh roll, 22c to 24c; apples \$2.00 to \$2.50.

ST. ALBANS, VT.

There was not a large quantity of butter offered yesterday, and prices for fall lots, not 'frost bitten," sold at 21c to 23c; summer lots way down. Cheese, none offered. Poultry offered freely. Turkeys, 8c to 10c; fowls, 7c to 8c; egge, 21c to 22c for fresh. LONDON.

Twenty-six factories registered 17,005 boxes cheese, of which 900 are August make and balance September's and balance of season, now in the market here for sale, but none effected, buyers and sellers being apart. UTICA, N.Y.

Sales of cheese to day 3315 boxes, at 10½c; 2000 boxes at 10½c, and 2340 at 11c. At Little Falls, N.Y., nearly 5000 boxes offered, selling at 10½c to 11½c. Butter, 20c to 23c; now and then a small choice lot a little higher. CHICAGO.

There were 23,000 hogs received at the market Tuesday, while 32,000 were expected; hence prices were firm at slight advance. Corn has also taken an advance, and for the past two days the Corn Exchange has been lively,—corn going as high as 42fc.

BIG CHANCE FOR SKIPPERS.

At the W. Oxford, Ontario, cheese factory there may be seen five monster cheese, aggregating in weight 22,000 pounds, a sight which, we believe, has never before been seen. Four of the cheese stand four feet high, are five feet two inches in diameter, nearly seventeen feet in circumference, and weigh 5,000 pounds each, or two and a half tons. The smallest one weighs 1,800 pounds, nearly a ton. Last year there was made, at the same factory, a large cheese weighmade, at the same factory, a large cheese weighing 4,600 pounds. This cheese was shipped to Glasgow, Scotland, and being cut was found to be so much superior in every way to twelve large cheese made in New York State that, in conse-quence, our Glasgow cheese eaters this year ordered from this factory.

## CARSLEY'S COLUMN.

S. CARSLEY, Notre Dame street, imports all his Dress Goods from the best European manufacturers, which enables him to keep the best goods at the lowest prices.—Witness.

S. CARSLEY. "What do you make a week?" said a magistrate to an Italian organ-grinder, who charged a man with breaking his musical instrument the other day.

"Vour pound, sare." "Eh, what! four pounds for grinding an organ?"
"No, sare, not for grind—vor shut up and go away!"—Tit Bits.
