been made at 20s to 20½c, we learn of con-tracts having been made for August and Sep-tember make at 19s. In Eastern Townships the quality of receipts is said to be unsatis-factory, owing to the fact that farmers are

now sending in their summer goods, which are off fiver, and consequently it is difficult to find a quick market for them. Montreal houses have been operating in Boston lately, having made a number of purphases of piece freely

ber of purchases of nice, fresh, sweet ladle packed goods for export at prices ranging from 13: to 1311, which are said to

give better satisfaction to shippers than our stale western butter, large quantities of which are held west of Toronto. We quote prises as follows: creamery, 19: to 200; Kastern Townships 170 to 190; Morrisburgh 170 to

Cleary upon the very large subscription he had handed in, collected from workingmen, and he felt sure that there were thousands of workingmen in the city who would contri-bute liberally were they but approached either by opening a list in their workshops or by collectors. The secretary stated that the amount of money handed in would have been considerably augmented, but as several of the collectors had very little time to spare during the week, they were out collecting today, and their returns would probably not be in before the next meeting. The following letters were then read to the meeting :-MONTREAL, Sapt. 15th 1888. DEAR SIR,-I have much pleasure in send-
