Physicians' Library.

Post-mortem Examinations. By JOHN CAVEN, B.A., M.D. (Toronto), L.R.C.P. (London), formerly Professor of Pathology, University of Toronto Medical Faculty. Illustrated. Price $1.00. Toronto: J. A. Carveth & Company.

To the many students, both of Toronto and Trinity, who have passed through the hands of Professor Caven at the *post-mortems* held chiefly at the Toronto General Hospital, and who are now practising in almost every quarter of the globe, this practical volume will be received with unbounded delight, enthusiasm and satisfaction. The methods and technique of this careful operator in this particular field are readily recognized throughout the text, which is clearly illustrated by diagrammatic drawings, adding greatly to the value of the book. The profession throughout Canada, within the sphere of this journal's influence, is so familiar with the name of Dr. John Caven and his work that it scarcely seems necessary to add anything by way of commendation. From his pen we would expect something good, and we have got it ; and we do not think that there is any practitioner throughout the whole Dominion of Canada who can afford to be without this book. The publishers are also to be congratulated upon the whole appearance and finish of the work.

Progressive Medicine, Vol. IV., 1900. A Quarterly Digest of Advances, Discoveries and Improvements in the Medical and Surgical Sciences. Edited by HOBART AMORY HARE, M.D., Professor of Therapeutics and Materia Medica in the Jefferson College of Philadelphia. Octavo, handsomely bound in cloth, 428 pages, 69 illustrations. Per annum in four cloth-bound volumes, $10.00. Philadelphia and New York : Lea Brothers & Co.

Each succeeding volume of this quarterly emphasizes the increasing success with which its editor and contributors are realizing their novel aim in producing in a narrative form the record of the year's medical advance. The issue for December more than fulfils expectations and will well repay careful reading. But little more
