BRITISH MARKETS.

The weekly report of Messrs. James Watson & Co., dated Glasgow, 8th July, says: The Scotch iron market has been a degree firmer, with no improvement either speculatively or legitimately. The squeeze in Cleveland warrants is now practically over, as there are sellers at 40/6. Hematite remains in good demand as the furnaces are not yet making the usual qualities.

JOHN ABELL Engine and Machine Works, Toronto.

A RARE OPPORTUNITY

FOR

Capitalists, Foundrymen, Shipbuilders, or Manufacturers.

VANCOUVER CITY

Foundry and Machine Works

The premises are unsurpassed for convenience of site and eligibility in the City of Vancouver, having a frontage of 756 feet on the harbor on the one side, and on the main line of the C. P. R. on the other, from which a side track is laid into the premises.

No other point in the Dominion west of Toronto presents such favorable opportunities for the establishment of a foundry and machine shops on a considerable scale as Vancouver. Besides the fact of its being the location of the largest saw mills in the province, it is the most convenient point for supplying mills in the other parts of British Columbia, whether by water or land carriage. Within the last few years, the building and repair of vessels and engines has become an important branch of industry and one which is certain to increase very largely. The terminus of the C. P. R., the port of the China steamers, the San Francisco steamers and innumerable coasting lines, the amount of trade for foundry and machine works is constantly increasing. It is within 35 miles of water of Nanaimo, from where coal of excellent quality can be laid down cheaper than at any other place. The repair ship on the premises should itself produce a revenue equal to a fair percentage of the cost of the property.

The value of the land at the prices current in the city is about \$118,400. The buildings erected there within the last three years consist of machine shops, boiler shops and engine house, pattern shops, blacksmith shops, moulding shops, store rooms and offices, coke sheds, carpenters' shops, wharves and a ship railway. In these buildings is a plant consisting of the most improved and modern machines, tools and appliances used in machine works and foundries. The stock of material on hand is large and well assorted. The whole establishment is in perfect running order at the present time, and a purchaser can enter into possession of a going concern without any delay or additional expenditure for fittings or stock.

Tenders for the above property will be received up to the first day of August next, addressed to the undersigned.

The highest or any tender not necessarily accepted.

A. McDOUGALL, Sec'y, VANCOUVER, B.C.

Plans and inventories can be seen at the office of THE MONETARY TIMES, Toronto,

Stock of pig iron in Connal's stores 423,472 tons, against 511,383 tons same time in 1891.

Messrs. Gillespie & Co.'s Liverpool circular of the 8th reports as follows:

Sugar, raw, is very dull. Refined unchanged. Rice rather easier at 9s. 6d. to 9s. 9d. per cwt. for usual good quality. Chemicals show little or no alteration. Bicarb soda 6s. 9d. per cwt., less 5 per cent. Bleaching powder 8s. 3d. to 8s. 4½d. per cwt. nett. Cream tartar rather easier at 86s. to 86s. 6d. per cwt. nett, c. i. f. to Halifax, N. S. Castor oil is the turn dearer at

2 9-16d. to 2½d. per lb. Olive rather lower since our last at £32 to £33 per tun for good ordinary quality. Palm oil remains at £20 to £21 per ton for Bonny and Lagos respectively. Freights continue about as last.
