OILS, PAINTS AND GLASS.—The movement of goods in these lines is a limited one, and the warehouses show little activity, but travellers, who are all out on the road, are sending in fairly satisfactory orders for spring delivery. The only noteworthy feature with regard to values is contained in a letter from Savannah, which reports an advance of 1½ c. in turpentine within the last few days, and some stiffening here is possible. We quote:—Turpentine, 43c. per gallon for single barrels; two to four barrels, 42c. Linseed oil, raw, 57c. per gallon; boiled, 60c.; 5-barrel lots, 1c. less; olive oil, machinery, 90c.; castor, in lots, 6½ c.; single cases, 6¼ to 6¾ c.; tins, 7c.; Nfld. cod, 38 to 40c. per gal.; Gaspe oil, 38c. per gal.; steam refined seal, 38 to 40c., in small lots. Leads (chemically pure and first-class brands only), \$4.50 to 5.00; No. 1, \$4.50; No. 2, \$4.25; No. 3, \$4.00; dry white lead, 5c.; genuine red do., 4½ c.; No. 1 red lead, 4c.; putty, 2c. in bladders per bbl.; London washed whiting, 40 to 45c.; Paris white, 90c.; Venetian red, \$1.50 to 1.75; yellow ochre, \$1.50 to 1.75; spruce ochre, \$2.25 to 2.50; window glass, \$1.20 per 50 feet for first break; \$1.30 for second break; third break, \$2.80. These prices are shaded 5c. for 50-box lots.

WOOL.—For wool a little more enquiry is reported, and some moderate sales have transpired at pretty steady prices. The London sales opened on the 17th inst., and prices show firmness. A cargo is reported to be loading at the Cape for this market. We quote greasy Cape 13½ to 16½ c.; B.A. scoured, 26 to 32c.; North-West and B.C., 10 to 12c.; domestic fleece, 17 to 20c.; supers, 20 to 21½ c.; extra, 23 to 26c. per pound.

TORONTO MARKETS.

TORONTO, Jan. 24th, 1895.

GRAIN.—Although good roads now exist for the most part throughout the country as a result of repeated falls of snow, trade in grain has not developed any marked activity. This constraint in delivery is the result of the weakness in the market. The visible supply of wheat decreased 1,029,000 bushels, oats decreasing 289,000, while corn increased 1,195,000 bushels. During the week both English and American wheat markets have lost strength, and while prices here are not quotably less than they were at our last review, the feeling is much easier. The export trade is of a strictly limited character, and the only movement taking place is that to local millers. Barley may be considered a shade steadier. Some lots are going to the United States, and for the next week or six days this trade may reasonably be expected to be active. Oats are easier than they were last week. There is a feeble demand for oats from the eastern provinces, and the natural inference is that these markets are pretty well supplied. Rye and corn remain without change.
