# SPECIFY HOLLYWOOD PAINT

## Combination Union Valve Elbow

Patented January 30, 1906

### For Hot Water

Is more elegant in design than a Valve or an Elbow. It is quick opening (Qr. turn) and adjustable to either end of the radiator. It has a true curved, full sized water way which reduces friction. It is neatly and compactly made of valve metal and packed ready to use. It has rough body, with finished trimmings and is nickel plated all over.

Operated with the foot. Costs no more than a valve. Every one warranted.
