K.C. Choong
President

Established in 1973, Electro Therapeutic Devices Inc. is a distributor and manufacturer of electro therapy devices. The company produces the ACCU-O-MATIC VM2, which has both diagnostic and therapeutic capabilities, and operates on microampere current stimulation. It is used in pain relief and muscle re-education relating to trigger points and neuro-muscular conditions. The ACCU-O-MATIC VM2 enhances tissue repair and provides fast pain relief to damaged tissues. Economical transcutaneous electrical nerve stimulators and accessories suitable for patient use are also available.

Entreprises Galenica Enterprises, Inc.

Telex: 05-25134

Jacques Marcotte
Executive Director

Entreprises Galenica Enterprises, Inc., a Canadian-owned company established in 1982, manufactures high-quality disposable vaginal specula and disposable anoscopes. Galenica's vaginal specula are perfect for all routine gynecologic examinations and feature 360-degree angle examination of vaginal mucosa without rotation, easy manipulation, and cost savings due to its disposable nature. The company's disposable anoscopes are made from a hard, non-toxic plastic resin and feature the following advantages: easy manipulation for septic anal/rectal examinations; 56-degree bevel at the insertion end to ease the use of instruments; adaptable fiberoptic lighthouse enabling perfect visual field; and no necessity for deep cleaning and sterilization.

Galenica manufactures illuminating devices for the vaginal specula and also I.D. bracelets.

The disposable vaginal specula produced by Entreprises Galenica Enterprises, Inc., can be used for all routine gynecological examinations with the elimination of sterilization and cross-contamination problems.

Fleetline Industries Ltd.
450 Brooklyn Street
Winnipeg, Manitoba
