

Traveling to the four corners
of the Earth.
Even if the Earth is round.

Alitalia

With 114 destinations and 4,000 weekly flights, Alitalia carries more than 18,000,000 passengers every year. On average, every two minutes in some part of the world, an Alitalia plane is landing or taking off to carry you to one of the five continents. Alitalia offers maximum comfort and efficiency on domestic and international flights, with one of the most modern fleets in the world. In addition to its new MD 11s, a new plane will be added to the Alitalia fleet every two months, right up to 1995. Because that's our job. To take you around the world.
