

though polished by a skillful workman. Six miles above the Bay of St. Johns are the great points of attraction on the river,

#### CAPE ETERNITY AND TRINITY ROCK,

Colossal promontories of sheer descent, at whose very base the largest ships may ride in the immense depth of waters; sights never to be forgotten—bold, barren, forbidding and awful. The discharge of a cannon on shipboard between these bare walls of rock, is said to crash back in echoes which no one could wish to have repeated, one such sensation sufficing for a lifetime.
