 Buenos Ayres—Reports from all parts of
 the country respecting the grain harvest,
 which is now in progress, are satisfactory,
 in some districts the want of rain at cer-
 tain intervals and the ravages of locusts at a
 later period caused a considerable loss of the
 wheat and other crops; but in general
 the production will far exceed that of last
 year, the area sown having been very
 large.
 The reports of the last crop of maize
 have exceeded, to this date, those of 1905
 by 500,000 tons, and, with ordinarily favor-
 able weather, they will in turn be surpassed
 by those of the growing crop, which is
 in excellent condition. The total area of
 grain-growing land is now nearly 5,000,000
 hectares, being 400,000 more than in 1905.

SENT CIRCULAR TO BANK.
 Added Information, It is Alleged,
 Embarrasses the Rival Company.

The clash between the Toronto Cas-
 ket Co. and the National Casket Co.
 was given a further airing yesterday
 morning when the late Percy and Wil-
 liam Bell, were arraigned on a charge
 of theft. They were accused by J. A.
 McCracken, manager of the Toronto
 Casket Co., with stealing some circulars which
 found their way into the hands of the
 National Casket Co. rival concern. Percy
 Bell worked for the printer who was
 getting out the circulars and the
 brother worked for the National Co.
 Detective Kennedy told of arresting
 the boys. William admitted getting the
 circular from his brother, who also ad-
 mitted taking them from the printing
 office.
 Mr. McCracken testified that he had
 been asked by the bank to reduce his
 account, and they were pressing him
 for \$5000. In order to meet this pay-
 ment a sale at special prices was de-
 cided on. He drew up a circular to
 the trade-announcing this sale. Before
 he received the circulars from the
 printer, some of them had been handed
 to the National Co. and one of them
 had been sent to the bank manager,
 marked, so as to show what these
 goods cost and what they should be
 sold for in the regular way.
 Witness produced this marked cir-
 cular.
 Magistrate Denison observed: "If this
 circular was stolen for the purpose of
 being used against him, it is a serious
 thing."
 Nicholas Kendrick, a foreman in the
 employ of the National Co., said he
 received the circular from William
 Bell and had handed it to William
 Eckardt.
 Miss Galloway, a stenographer for
 the same company, swore that under
 dictation from A. J. H. Eckardt, man-
 ager of the company, she had made
 the annotation on the circular and
 had addressed it to the manager of
 the bank. Mr. McCracken was sup-
 posed to be business with the bank.
 The Bell boys were committed for
 trial and released on their own bail of
 \$200 each.
 The Toronto Casket Co. have com-
 menced a civil action against the Na-
 tional Casket Co. for \$20,000.
 W. M. Irving formerly bookkeeper
 for James H. Russell, admitted that
 two years ago he stole \$63 from his
 employer. Since then he has been liv-
 ing in the States. He had offered to
 make restitution, and was again will-
 ing to pay back the money. The
 magistrate thought two years ex-
 ated of the British empire was sufficient
 punishment and remanded Irving until
 called on.
 Charles A. Saunders, who conducts
 a hand-dogery in Adelaide-street,
 turned \$150 over to Frankie Lassar for
 safe keeping. She kept it so safe that
 it never came back. Her defence was
 that she had given the money to her
 brother-in-law to return to Saunders.
 The brother-in-law cannot be found.
 She was sent to jail.

STORY OF WEALTHY MANITOBA FARMER

Tells How He Spent Three Thou-
 sand Dollars in Search
 of Health.

Physicians were entirely baffled by
 the case of Mr. Robert Squires, of Shoal
 Lake, Man. He owns a thousand acres
 of land in the west and said he was
 willing to give it all to be restored to
 health. His trouble started with an or-
 dinary cold that was neglected. Let
 Mr. Squires tell his own story:
 "I have spent over three thousand dol-
 lars in my search for health. I have trav-
 eled from place to place looking for suit-
 able climate, I came to the conclusion
 that climate made no difference in curing
 throat or lung troubles. At the health re-
 sorts consumptives die there as at any
 place else. I determined to find a home
 remedy. I think I tried every one of the
 so-called cures for consumption. The
 only remedy that ever helped me was
 Payette, and a significant fact about
 Payette is that it is not a cure-all like
 the others, but specially for throat and
 lung diseases. My condition was like
 the first I tried, and I wish it had been
 the first I tried. I was a very bad case,
 and no hope was held out by any of the
 eminent medical men that I would get
 well."
 "A friend advised me to use Payette,
 The first few bottles gave me great relief
 from coughing, and seemed to ease the
 pain in the lungs. Within a month the
 cough and night sweats had disappeared,
 and I had gained weight. I had been
 using two bottles, but my case was a
 Payette, and a significant fact about
 Payette is that it is not a cure-all like
