vacant houses and stores, so much talked about in the past, are steadily disappearing. We have now a population of at least 235,000 in Toronto proper, without counting any of our many suburos. With the deepening of our canals and entrances to our harbor, and the extension of trolley lines reaching out to greater distances, and the opening up of the new railway lines in our northern country. Toronto will have, not a boom, but a very rapid growth and increase in business.

"The actual increase in the individual names in our 1800 Directory over our 1808 is 6357. This multiplied by the usual numeral of three makes our increase for last year 19,071 our total number of individual names, without those in the addenda or suburbs, is 81,527. This multiplied by three wild give us a population of 244,581. Our vacant houses have decreased by 1805, and quite a number more nave been filled up since the streets were printed. The popularity of Pearline begets the habit of calling anything that's washing-powder, "Pearline."

Those who notice the difference in name, think perhaps "it's about the same thing." It isn't. Nothing else equals Pearline, the original and standard washing compound. 678 Williams

DUNDEE AND FAIRMONT

As a Branch to the Tree, so Fairment to Dundee, The FAIRMONT, possessing the famous DUNDEE Ledge, enables me to indulge in a pleasant lattle simile this Monday morning. To anyone wishing to associate himself with two capital u ndertakings I cannot advise anything more attractive than these two popular stocks. Unless something exceptionally unforeseen takes place, the pleasant rumbling sound of the Dundee's 56-ton concentrator at work will be heard to-d ay by the officials and miners gathered round the pulverizing machine, safely ensconced in a substantially built mill house, erected on Ymir's snow-bound slopes.
