QUALITY

This is the last day of the Show and it makes the beginning of Spring. That is the reason this is a par-ticularly appropriate time in which to purchase a new Dineen Hat.

We select the Horse Show as the time in which to introduceour new Spring effects.

To visitors and those who require exclusive designs, we make a special effort to have something unusually

nobby in London and New York Silks. We are sole Canadian agents for Henry Heath of London, Eng., and Dunlap of New York. Store open until 10 o'clock to night.

A. M. ORPEN

Capt. Milsl of the Corsican was much annoyed yesterday over the negligence shown in not having the fog horn at the island sounded during yesterday's heavy fog. The Corsican left Hamilton on Thursday at 5.30 p.m. and did not arrive here until 6 a.m. yesterday morning, much time being lost because of the failure of the signal. Not a warning note from the fog horn has yet sounded, and last night Harbormaster Postlethwaite had lodged with him a complaint on that score.

Some excitement was created yesterday morning when the engineer of the Lakeside failed to gauge his distance with the needful nicety, the steamer crashing into the wharf and displacing some timbers. The damage, however, was not great, and \$50 will probably cover it.

Death or lunacy seemed the only alternative for a well-known and highly respected lady of Wingham, Ont, who had traveled over two continents in a vain search for a cure for vous debility and dyspepsia. DENTAL GRADUATION. ir William Meredith and Prof.

SATURDAY MORNING

A special convocation of the Uni ersity of Toronto was held last night Guild Hall to confer the degree of

ings.

The chancellor, congratulated the students on their success. He hoped that the young men going out from the university would impress on the rest of the Dominion the necessity for maintaining the institution in all its efficiency. He alluded with satisfaction to the federation with Trinity and regretted that provision had not been made for adequate instruction in the department of physics. It was the worst kind of economy to restrict the expenditure on the University of Toronto.

The diplomas were presented by Dean Wilmott, after which Prof. Clark made one of his characteristic addresses. He impressed on the students the necessity for continuing their studies, as the successful professional man was he who followed up the latest discussions and discoveries. They also cultivate gentleness and courtesy, which were most necessary for dentists, but to be distinguished from servility.

The degree of M.D.S. was conferred on W. J. Laker, who passed the prescribed examination after five years spent in practice.

THE WAY AT CORNELL.

Ithaca, April 29.—An "anti-spooning society" is the latest creation of the women of Cornell University. The new co-ed organization aims to discipline the Cornell men and to teach them the rights of a co-ed. The provisions of the bylaws provide for a system of fines for violations of the principles of the society.

STORE CLOSES AT 5.30.

XX A Constellation of Stars.

A Horoscope of Good Fortune for This Store's Monday Morning Customers.

"MAKE ROOM, MAKE ROOM!" That's the cry of the moment. That's the cry of the railway offices. That's the cry of our over-crowded, inconvenient and temporary storage places which we have been forced to take refuge in since the fire. Nowhere can we look for relief except to you, as our numerous customers. We must sell the goods so fast that they won't accumulate in warehouses too small to accomodate them, that they won't linger long enough to block the freight sheds.

Monday must be a big day. You can not, in justice to yourself, to your

own sense of domestic and personal economy, refuse to help us. Look at the wholesale prices we have put upon goods to sell a wholesale quantity in the retail way. Numbers and enthusiasm will work wonders. The motive for both will be found in the following big cluster of star attractions for Monday.
