### EXECUTIVE COMMITTEE AND SCHOOL BOARD CLASH

#### Say Latter Exceeded Their Limits—Odds and Ends of Interest in the Suburbs.

WEST TORONTO, July 30.—"Within five years these two schools facing one another will make a regular Donnybrook."

"If you attend to your business in the council as well as we do in the school board, you'd be better liked."

These are samples of the epithets hurled back and forth between the school board and the executive committee of the school board last night.

The school board held a special meeting to-night to discuss the installation of the new school building at the intersection of the road and the school building.

### PATIENT IN DELIRIUM FALLS FROM WINDOW

#### Tragedy at Grace Hospital—Coroner's Jury Makes a Recommendation.

Annie Cockcroft, aged 25, of New Toronto, a typhoid patient at Grace Hospital, while delirious, left her bed early yesterday and climbing thru an open window was instantly killed by a 60 foot fall.

She was secured in the bed, a sheet being tied over her and one foot being tied to the bedpost, but more to keep the coverings in place. At four o'clock she was seen getting out of bed by another patient, who called to the nurse, Miss Rose, but to no use.

Coroner J. E. Elliott conducted an inquest, and the jury, after hearing the evidence of the attendants and of Fire Chief Noble, returned a verdict that deceased had come to her death from shock and rupture of the spleen and liver, and attaching no blame to any of the hospital staff.

It was, however, recommended that the hospital board find some way of securing the windows, which should make such acts on the part of irresponsible patients impossible, but without entailing danger in case of fire.

Deputy Chief Noble said that the dinner in case of fire, should the windows be barred, would be too great to make it advisable.

"I want you to say that after making a full investigation of the case, I think that the nurses did all that they possibly could to care for the girl. It was just one of those unaccountable freaks of delirium which no one could foresee or prevent. The girl did not jump out of the window with any idea of suicide. She was as likely to do anything else. It was just a stray impulse."

This was Dr. Forbes Godfrey's statement.

### CITY'S IMPORTANT WIN IN NOTED RUSSELL CASE

#### Privy Council Allows Corporation's Appeal, Thereby Blocking Tax Sale Land Litigation.

A cable from London, England, announcing that the privy council had allowed with costs the City of Toronto's appeal against the judgment of Canadian courts in the famous Russell tax sale case, was received with deep satisfaction by the city's legal department yesterday.

Had the city's case failed, the corporation would be faced with the prospect of a succession of suits to recover land fallen into the city's hands thru arrears of taxes and endless confusion and litigation would have been entailed.

The privy council immediately affected by the judgment in the case of the City of Toronto north of Queen-street and contains eight acres. It is valued at \$30,000 and the taxes in arrears on the property amount to over \$12,000.

After the opening of Carlaw-avenue and the construction of the Carlaw-avenue subway the taxes on the property became so heavy that John Russell let it go in default.

It was sold at the tax sale in 1901 and was bought in by the city. When the city was preparing to sell a portion of the property two years ago, Mr. Russell instituted action to recover the land, and was given judgment by Justice MacMahon, the court of appeal later sustaining the decision.

and in company with Dr. Jeffs, the local health officer, he looked around town and the installing of some kind of sewage disposal. Questioned as to his ideas on the matter, the doctor refused to make anything public but it was learned that he has some definite ideas, which he wants to talk over with the local board of health and the town council at an early date.

The congregation of the Eglington Presbyterian Church empowered the building committee to accept the tenders received for the building of the church. These tenders were accepted: Teague & Son, foundation and brick work; R. Livingston, carpenter work; Chester & Hume, painting and glazing; A. Petrie & Co., plastering. The total contracts accepted amount to \$304. The site cost \$1500, total \$2844.

This still leaves the furnace, seating, filling up and sodding to be provided for. The sale of the old church and site realized \$2400 and \$2800 have already been subscribed, which makes a total of \$5200, and another \$3000 subscription will see the church practically free of debt. It is expected that the new church will be opened by New Year's.

Rev. J. W. Wilkinson officiated at a pretty house wedding last night on East, Eglington-avenue, at the residence of the bride's parents, Mr. and Mrs. Christopher Turner, when their second daughter, Ethel May, was married to Alfred Mullish, Toronto, by Miss Lena Abraham was bridesmaid and Thomas Smith acted as the groom. The bride wore a dress of cream voile, trimmed with liberty lace, and a wreath of orange blossoms and a bouquet of bridal rose-chrysantheums. After the ceremony refreshments were served to about 25 invited guests. The bride and groom will reside in Toronto. The employees of Sellers & Gough presented the couple with a handsome quarter oak Morris chair.

Mr. Davidson, who a few days ago purchased Mr. Drendey's new house on Yonge-street near Balliol-street, took possession to-day.

Rev. W. G. Back of the Eglington Presbyterian Church, and Rev. Dr. Carmichael of King City, will exchange pulpits next Sunday.

**MIMICO.**  
Cottagers Will Have Third Big Annual on Monday.

The third annual sports of the Mimico Beach Cottagers' Association will take place on Aug. 3, the local holiday, the same day as the civic holiday, at which time a big program of land and aquatic sports will take place. In the evening there will be illuminations galore. Lawn tennis and lawn bowling will take place at "Kilcooley" at 10:30 a.m. The sports will commence at 2 p.m. and the prizes will be distributed at 7:30. This is the third annual event. Harry McGee is president and the committee is an energetic one.

During the absence of Supt. Ferrier, who is on his holidays, the work of the institution is well looked after by Mr. Morris and everything is going ahead in the most satisfactory manner. The work of rebuilding the big workshops is progressing steadily and the dynamo building is now up two stories and ready for the putting in of the beams. The brickwork on the laundry is up to the second story.

### U. S. CITIES VISITED HAVE FINE PLAYGROUNDS

Commissioner Wilson Thinks Toronto Must Do Something to Keep in the Race.

Park Commissioner Wilson and Ald. Vaughan, chairman of the civic parks committee, have returned from their visit to United States cities more than ever impressed with the value of play grounds and boulevards.

The cities visited were Detroit, Chicago, Philadelphia, New York and Boston, and the most progress in regard to play grounds was noted in Chicago and Boston, where the number and extent of play grounds and the buildings and equipment were a veritable revelation, according to Mr. Wilson.

In Boston, he said, there are 24 miles of level well-shaded boulevard, while Chicago has 23 play grounds, and altogether 80 miles are in contemplation. In Chicago play grounds are conducted under ideal conditions, and children as young as 3 years enjoy the pleasures of sand courts, swings and doll houses, while the older boys revel in the large swimming pools, and in gymnastic exercises. In Boston beautiful buildings, used as gymnasiums and concert halls, are open to the public from 10 a.m. to 10 p.m.

Chicago has 23 play grounds, and last year \$50,000 was spent on equipment alone. New York is considerably ahead of Chicago in respect to play grounds, and Philadelphia showed less favorable conditions than the other cities. It being stated that it was impossible for Chicago to compete with Philadelphia, the commissioner is preparing a report, in which he suggests that every ward should have two play grounds, but he is content that progress should be gradual, with the acquisition of one play ground at a time. The establishing of a swimming pool in the Christie-street sand pits is the first move he advocates, as he considers there is real need of a bathing place north of Bloor-street.

That a very serious condition has been created by the inroads of the tus-

Editor World: Observing how dreadfully our beautiful trees are being, and have been, destroyed, I write to Mr. Bethune, professor at Agricultural College, Guelph. He says, regarding the tussock moth and the treatment for its control:

"The caterpillars will very soon have ceased their work for this year, and will be changing to the chrysalis state. If, however, they still continue to be numer-

ous on your trees, they should be sprayed with Paris green and lime. The simplest mode of getting rid of them is to cloud off the white egg masses from the tree and burn them. If all property-owners would do this to their own trees they would soon be very few left in Toronto. Anxious.
