PARMELEE'S NEW VEGETABLE

CONTAINS MANDRAKE AND DANDELION
FOR THE LIVER

DR. PARMELEE'S **New Vegetable Pills** differ from all others now before the public in their composition and effect upon the system. Based upon the most scientific principles, and made from Roots, Herbs, and Solid Extracts which have specific virtues truly wonderful in their action upon the Liver and Kidneys, such as Mandrake and Dandelion, found in this country; while others, equally as potent in regulating the secretions and purifying the blood, etc., are found only in Spain and other countries. Thus we see that Nature in her wise providence has provided a valuable catalogue of plants all over the land, specific in their very nature for the cure of certain diseases. In this scientific combination it is found that **Parmelee's Pills** possess the power of acting, specifically upon the diseased organs, stimulating to action the dormant energies of the system, thereby removing disease. In this lies the great secret of **Parmelee's New Vegetable Pills**.
