

The Universal Verdict

INLAND REVENUE, CAN.,
CHIEF ELECTRICIAN'S OFFICE,
OTTAWA, Jan. 9, 1899.

Messrs. The Whitney Electrical
Instrument Co.

Sherbrooke, Que.

DEAR SIRS,—Replying to your letter of the 10th ult., I have very great pleasure in stating that the Watt and Ammeters manufactured and supplied by your Company have given good satisfaction. Particularly is this so in respect of the alternating current Ammeters. I consider them quite equal to the dynamometer in accuracy, besides being direct reading, and portable. Faithfully yours,

ORMAND HIGMAN, *Chief Electrician.*

Our New
Ammeters and
Voltsmeters for
Direct and
Alternating
Current are
especially
adapted for
Colleges and
Schools.
They will read
correctly on
circuits of any
frequency.
Convenient and
Reliable, they
are "a thing of
beauty and a
joy forever."
