BAXTER SEES MARITIME STAND VINDICATED IN DUNCAN REPORT

License Fee Is Presented As Most Likely Method To Cut Tax Rate

SAYS FINDING SATISFACTORY IF ACTED UPON

Premier in Moncton to Discuss Matter With N. S. and P. E. I. Leaders

TRADE BOARD WILL ISSUE STATEMENT

Meeting Tomorrow Night Will Discuss Result of Investigation Here

"ON THE whole, the report is very satisfactory, if the recommendations made are carried out," said Hon. Dr. J. B. M. Baxter, Premier of New Brunswick, referring to the report of the Duncan Commission on the Maritime case, in an interview over the long distance telephone this morning with a member of The Times-Star news staff.

Premier Baxter went this morning to Moncton to meet Premier Rhodes of Nova Scotia and Premier Stewart of Prince Edward Island.

The meeting is one of a series of get-together sessions being held by the Maritime Premiers, and it is expected that the Duncan report will form the chief subject of deliberation today. A joint statement is anticipated as one of the outcomes of the session.

Continuing his comment on the report, Premier Baxter said: "The report vindicates the position taken by a number of us, who claimed conditions were not satisfactory in the Maritimes. We were accused of raising a partisan issue. The findings show very distinctly that our contentions were well founded and were not being much as political propaganda."

MUCH INTEREST IN CITY.

The report of the Duncan Commission, as was published in full in The Telegraph-Journal and The Times-Star on Saturday, produced a volume of week-end reading for many people. Even on Sunday afternoon a few men were noticed tramping on the streets, still hungrily absorbing the good things which the report contained.

Comment generally about the report is of a satisfactory nature, although in no case is it taken that the specific recommendations are immediately intended by its members to be the final remedies to be applied in the cure of Maritime ills.

TRADE BOARD MEETING.

Members of the Board of Trade, asked today for an expression of opinion on the findings of the Duncan report, declined to say anything just now in view of the fact that a full meeting of the board is being called for Tuesday evening, when the report will be considered and a joint statement handed out for publication.

ISLAND FERRY O. K.

The Prince Edward Island car ferry, running from Borden to Cape Tormentine, continues to make two trips a day, much to the satisfaction of the travelling public, especially a large group of commercial men now busy on spring orders. So far there has not been much loss in the Strait, and while this condition continues every opportunity to "clean up the Island" is being taken by those having business over there.

RED CROSS NURSERY AT SAND POINT CARES FOR 150 BABES WHEN 2 STEAMSHIPS ARRIVE

Excellent Work Is Done to Aid Traveling Mothers on Reaching Saint John—Watchful Eye Kept Until Destination Reached

THE Red Cross nursery staff at Sand Point had plenty to do on Saturday when the Canadian Pacific steamships Minnedosa and Montcalm arrived at this port. Owing to the pressure of work it has been found necessary to enlarge the nursery, and on Saturday the additional accommodation was used for the first time. Approximately 125 children from the Minnedosa were cared for in the morning and about 30 during the afternoon, when the Montcalm reached port.

The nursery does a necessary work in caring for the little ones while the mothers get opportunity to look after their tickets, check their luggage and take a little rest. The children are given a physical examination here and the names and destination of any found needing special care are carefully noted.

SUPERVISION CONTINUES.

The Red Cross here forwards cards to national headquarters on these cases and the national office sends these cards to the provincial offices so that the children are cared for on arrival at their destinations.

The nursery here is in charge of Miss V. A. Tremaine, Red Cross nurse, who has supervision over the three nursing assistants. Bridge was played at seven tables and the prize winners were Miss Jean Harding and Mrs. F. A. McFadden.

The nursing assistants are Miss Olga Martindale, who is not only a nurse but a fluent linguist. The V. A. D. also gives valuable aid in this undertaking, these workers here being in charge of Mrs. A. M. Rowan.

FIRST OF CAIRN LINE OF SEASON IN PORT TODAY

Cairngowan in From Hamburg—Delayed by Storms in Atlantic

Taking 17 days to make the voyage across, due to stormy weather all the way, the S. S. Cairngowan, the first Cairn Line steamer of the season, arrived at Port of Saint John at 5.30 o'clock this morning from Hamburg. Although the weather was stormy all the way across, an exceptionally heavy blow was encountered off the Lurcher Light last night, but the ship had no trouble in weathering it.

The ship came in ballast and docked at McLeod's Wharf at noon. She will load a part cargo of general freight there, and then shift to Sand Point, where she will complete loading and sail for Hamburg, Thursday of this week.

Captain A. S. O'Connor is in command of the ship. Other officers are: W. White, chief officer; P. Hay, second officer; F. Laurance, third officer; A. Stuart, chief engineer; T. Crompton, second engineer; T. Dawson, third engineer; Whitely, fourth engineer; T. Robb, wireless telegraph operator.
