THE GROCERY MARKET.

The following comment on the market situation appeared in Canadian Grocer last week:

Further shipments of strawberries reaching the market during the week have served to lower prices somewhat. Supplies of boxed apples are in fair condition and the good demand continues. The first shipment of California Valencia oranges has arrived and although high in price, it is anticipated the primary market is slightly easier, which may mean later shipments will be somewhat lower.

A fresh car of tomatoes is in and prices range from \$6.50 to \$7 a case, a considerable decline from last week's figure. California celery is practically done and Florida is being offered at \$3 a case with a tendency toward higher levels. Onions, beets and turnips are all slightly easier.

Little change is apparent in package goods or cereals. Rolled oats in bags have declined in some quarters in a slightly easier market. Other lines remain unchanged. The demand for mill feeds continues heavy.

The first shipment of new maple syrup has reached the market and prices are slightly higher than those formerly ruling. Orders are being booked against further arrivals. Difficulty in transportation is still being felt in getting shipments of molasses through.

Receipts of rice show some improvement and an advance in fancy Honduras to 18c, a pound in full bag lots has been made in some quarters. All shipments of lima beans have been placed under an embargo by the United States government, pending a survey of available supplies for their use. The new regulations providing for inspection of Indian rice for acid content has placed the possibility of further shipments in an uncertain light.

Nuts are being firmly held and shipments of shelled almonds and walnuts have been received. A shipment of
