

CONSUMPTION CURED!

BUCHAN'S HUNGARIAN BALSAM OF LIFE,
THE GREAT ENGLISH REMEDY FOR
COLDS, COUGHS, ASTHMA, AND CONSUMPTION.

STILL Stands unrivalled and unsurpassed as the most elegant, agreeable, and effectual curative of these formidable complaints, now known to the civilized world. Years of trial, during which it has been distributed from Maine to Florida, has served to establish its pre-eminent merit in all parts of the country, as the great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease; and the best and most agreeable curative of all the slight forms of colds, cough and inflammation, that can possibly be used.

SPITTING OF BLOOD!

This frightful symptom of approaching Consumption, is speedily checked and prevented by the use of Buchan's Hungarian Balsam, which heals the affected membrane, removes the incipient tubercles and restores those vital organs, the lungs, to a sound and healthy condition.

PAIN IN THE SIDE!

This distressing symptom of Consumption arises from inflammation of the Lungs, or the membrane called the Pleura, or from Bronchial affection of the air-passages. In either case it is a very dangerous indication of disease. It prevents full and free breathing, and wears away the natural strength of the system. The cause of this symptom should be removed at once; and nothing can possibly effect that object so speedily and happily as the Great English Remedy, discovered by Dr. Buchan, which is entirely vegetable in its ingredients, and perfectly harmless in all its qualities.

WINTER COUGH!

The harsh, dry, hacking Winter Cough which afflicts OLD PEOPLE, and invalids in a low state of health, is happily affected by the Hungarian Balsam.

It warms, moistens, and stimulates the whole breathing apparatus; removes all morbid mucus, and other foul matter; purifies and animates the blood; improves the secretive power of the Liver, Spleen, and other large glands, and the digestive organs; and imparts new life to the wan and emaciated system.

TUBERCLES ON THE LUNGS!

The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs. Incredible as this is generally esteemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct effect, in all cases where there is no natural organic defect. In fact, so confident is the American Agent of its power to cure the worst form of this disease, that he prefers, that it should be used by invalids who have been

PRONOUNCED INCURABLE

the most eminent physicians, rather than by persons affected with the slightest form of disease—in order that its triumphs might be more apparent. He boldly declares that it will cure Tuberculous disease, and confidently solicits a trial in the **WORST OF CASES.**
