### CONTEMPT PROCEEDINGS.

WELDON VS. PARKS IN THE SUPREME COURT.

**Order of Judge Palmer—Opinion of Attorney General Blair and A. A. Stockton—Affidavit of John H. Parks.**

The following are the papers on which he application was made before the Chief Justice at Fredericton this morning in the matter of the contempt proceedings sought to be taken against the Bank of Montreal.

ORDER OF JUDGE PALMER.

Upon the opening of this matter this day, and upon application of the plaintiffs by Mr. Barker, Q. C. of counsel, and on reading the bill in this suit and by consent of Mr. Trueman, of counsel for the defendants, William Parks & Son (Limited), Mr. Skinner, Q. C. of counsel for defendants, John Ferris, Mr. Barnhill of council for the defendants, the Bank of Montreal and Mr. Ruel of counsel for the defendants, George F. Smith, Robert Blair and William E. Vroom, and it appearing to be desirable for the interests of all parties that a Receiver should be appointed, I do, therefore, hereby order that a Receiver be appointed in this suit, and I do hereby further order with the consent of the defendants in this suit that Hugh H. McLean, Esq., referee in Equity, be appointed Receiver, and I do, therefore, hereby order that a Receiver be appointed in this suit, and I do hereby further order with the consent of the Defendants in this suit that Hugh H. McLean, Esquire, referee in equity be appointed receiver, and I do further order that said receiver shall enter into immediate and exclusive control and possession of the cotton factories now operated by the said defendants William Parks & Son (limited) together with all the stock in trade, both manufactured and unmanufactured, and all other property of whatsoever description belonging to said company, together with the debts due said company and the said to hold, use and dispose of under the order and directions of this honorable court, to be made from time to time herein.

And the said receiver is hereby ordered and required to keep regular accounts of the receipts disbursements of money and at the end of every three months to file an abstract account of his receipts and disbursements and shall as often as required by the court make full report and settle his accounts. And the said receiver is further directed to proceed with all practicable dispatch to take an inventory of all and singular the property and effects which may come into his possession or under his control, under virtue or this order, and to file such inventories in this court.

And the said receiver is hereby vested with the complete and entire management of said cotton factories and other property of said defendants, the William Parks & Son (Limited) with power to appoint and remove all managers, officers, agents, or servants.

The said receiver acting in pursuance of this or any order or decree of the court herein in good faith shall not be individually liable for any breach of any contract entered into by him, on the fulfilment of any obligation made by him as Receiver or for injury to the person or property of the parties or of third parties or for the faults or neglience of his subordinates or servants, but the property, monies, and effects that shall at any time be in his hands as Receiver shall be held liable for such breaches or wrong, and may from time to time be applied thereto in such manner as the court may direct.

And I do further order that the said Receiver give security himself in ten thousand dollars, and two securities of five thousand dollars each to the satisfaction of Philip Palmer, Esquire, barrister for the due and proper performance of his duties as Receiver as aforesaid. (SIGNED) A. L. PALMER.

August 22nd. 1890.

OPINION OF ATTY. GENERAL BLAIR AND A. A. STOCKTON.

Under the direction of His Honor the Judge in Equity, we are to state our opinion as counsel, to the receiver of the estate of William Parks & Son (Limited), as to the receiver's rights against the Bank of Montreal for the bank's interference with him in his capacity as receiver.

The facts very clearly establish that the officers of the bank have persistenly sought to obstruct the receiver in collecting bills due him for goods manufactured in the mills under his management and sold by his direction, and under the authorities we are of opinion that such interference accounts to a contempt of court. A question may possibly be raised as to whether the acts of the officers of the bank complained of were not done under cover of the order of the court and not in disobedience of it, but it would seem from the terms of the arrangement the receiver made with the bank, and which the court distinctly authorized together with the circumstances under which the interference took place that the bank must have intended contesting the authority of the receiver and disregarding the order of the court.

As to the remedy against the bank for its contempt we are of the opinion that the proper course will be to move the court on behalf of the receiver on petition and affidavits setting forth specifically the acts which it is charged constitute the contempt, for a rule nisi, calling upon the bank to show cause why it should not be punished for the contempt, and as the contemnor is a corporation and cannot be committed to prison for the contempt and breach of injunction the proper course would be to apply for a writ of sequestration. The ordinary and usual penalty for a contempt committed by a corporation is to fine the contemnor and the sequestration would hold its property until the fine be paid, but we have been unable in our researches upon this question to discover any case in which damage was assessed or awarded against the party in contempt in respect of an injury resulting from the contempt and payable as such to the party injured, nor do we find anything in the cases recognizing the authority of the court, either to hold a party committed or to hold the goods of the contemnor in sequestration until the amount of such damages are ascertained and paid. One reason why such a procedure does not appear to us practicable is that the contempt is a criminal act, and the fine is the penalty imposed for its committal, and the fine does not go and would not go to recoup the party his damages, but belongs to the Crown and would go into the crown exchequer. We do not however wish to be understood as expressing the opinion that the Court of Equity is not empowered either to assess the damages or direct an action at law to be taken for the purpose of assessing the damages sustained by the party (in this case by William Parks & Sons (limited) by reason of improper conduct of the bank. The case of Whitehead against Lyons, 34 Beaven, 165, seems to be very similar to the present one in principle, and in that case which was decided in 1865 the court held, that while it had the power to assess damages in case of an injury sustained by the receiver, it would not assess damage itself where the party objected and insisted upon having an action taken at law for the purpose. We have not been asked particularly to direct our attention to this question and do not therefore advise the Receiver whether he would be the proper person to maintain such an action, if it was thought advisable to bring one, or whether it had better be left to William Parks & Son (Limited) to do so. We confine ourselves to the effect of the contempt and remedies in respect of it.

A. G. Blair.
A. A. Stockton.

AFFIDAVIT OF JOHN H. PARKS.

"I, John H. Parks of the City of Saint John, in the City and County of Saint John, and Province of New Brunswick, President of William Parks & Son, (Limited) one of the said defendants make oath and say:

(1.) In or about the month of August of the year of our Lord, one thousand eight hundred and ninety, this suit was commenced for the foreclosure of a certain mortgage upon the two cotton mills of the said William Parks & Son (Limited) situate in the City of St. John, and on the 22nd day of August A. D. 1890 an order was made by the Honorable the Judge in Equity, appointing Hugh H. McLean, Esquire, receiver, a copy of which order is hereunto annexed, marked A.

(2.) That the said receiver upon the making of the said order took charge of the said cotton mills, and began to operate the same, and is continuing to operate the same down to the present time.

(3) That in the month of April last past the said, the Bank of Montreal by sending notices to persons who had bought goods from the said receiver notifying them not to pay the said receiver for the goods which they had so purchased from him and by notifying various banks forbidding them from loaning money to the receiver or discounting his paper made for goods purchased from him, caused serious loss and damage to the said receiver by interfering with his credit by preventing his getting in moneys which he was entitled to get in and thereby, for a considerable time materially interrupting the operation of the said mills, and caused a serious pecuniary loss to the said receiver and to the said William Parks & Son (Limited), upon whom the said loss will fall.

(4) That upon application made to the Honorable the Judge in equity by the said William Parks & Son (limited), His Honor the Judge in equity directed the said receiver to obtain the advice of the Hon. Andrew G. Blair, attorney general, and Alfred A. Stockton, one of Her Majesty's counsel learned in the law as to whether the said, the Bank of Montreal had been guilty of a contempt of court in so interfering with the receiver as aforesaid.

(5) That the said acts of the said, The Bank of Montreal, in so as aforesaid interfering with the said receiver, were wholly unjustifiable, illegal and improper, and were as I am advised and believe, a clear contempt of this Honorable Court.

(6) That hereunto annexed, marked B, is a copy of the written opinion of the said Andrew G. Blair and Alfred A. Stockton, which opinion was delivered to the said receiver several months ago. The said receiver has not since that time taken any steps to have the said Bank of Montreal punished for said contempt of court, or to have the same dealt with in any way, or to have the said William Parks & Son (limited), or the said receiver in any way compensated for the large pecuniary damage caused to the said receiver as aforesaid and to the said William Parks & Son (limited) by reason of the said wrongful acts of the said Bank of Montreal.

(7) That the direct loss and damage caused to the said Receiver and to the said William Parks & Son (Limited) by reason of the said wrongful conduct of the said, the Bank of Montreal, have amounted to at least the sum of fifteen thousand dollars, and the indirect loss and damage occasioned thereby are much more.

(8) That the mortgage to the plaintiffs, for the foreclosure of which this suit is brought, was given to secure bonds or debentures to the amount of fifty thousand dollars all which are held by the said. The Bank of Montreal, and this suit has been instituted and has been carried on for and at the request of the said The Bank of Montreal.

(9) That on the 13th day of September last past, the said the honorable the judge in Equity, gave judgment in favor of the said plaintiffs for the sum of fifty-six thousand seven hundred and thirty-seven dollars with interest from the 18th day of June last past, and unless proceedings are stayed, I am advised and believe that the said the Band of Montreal and the said plaintiffs will seek to have the minutes of decree settled in accordance with the said judgment, and will proceed to have the said cotton mills and

### FIFTY YEARS OLD.

THE BIRTH DAY OF THE PRINCE OF WALES.

**It is being Celebrated all over Great Britain.**

BY TELEGRAPH TO THE GAZETTE.

LONDON, Nov. 9.—The fiftieth birthday of the Prince of Wales, is being celebrated with enthusiasm. It is said that ever since early morning messages have been pouring into Sandringham, with gifts. Those from the German Kaiser and Prince Henry alone amounting in value to one hundred thousand marks. The city fathers of London are celebrating at Guildhall in honor of the occasion, and in every part of Great Britain there is some recognition of the day.

**The Weather.**

BY TELEGRAPH TO THE GAZETTE.

WASHINGTON, Nov. 9.—Forecast, warmer, southerly winds, fair weather today, increasing cloudness probably rain tonight and Tuesday.

**Among the Shipping.**

The following vessels have been recently chartered:— Bark Avoca, New York to Plymouth, or Bristol Channel, grain @ 3s. 9d., ship Jane Burrill, New York to Bristol Channel, grain @ 3s. 8d.; bark Alice M. Claridge, New York to London, refined oil and naphtha @ 2s.6d, bark Antwerp, same voyage; ship Lennie Burrill, from Philadelphia to St. Loubes, crnde oil @ 3s. 0d; bark Havre, West Bay to W. C. England, deals @ 45s. 0d.; Schr. John S. Parker, from a Gulf Port to N. S. Cuba Lumber $5.75 or Ceinfuegos @ $6.25, Clifton from Halifax to New York, fish at 30c per bbl., schrs. Walter Miller, Lucerne, Centennial, Saxon and Prudent, from Port Johnson to St. John coal at 75c; brigt. Alice, Turks Island to New York, salt at 6½c; brigt. M. E. Mallett, Port William to Havana, apples at 55 cents, lumber $5.00; ship Servia, New York to London, Liverpool or Bristol, oil, at 2s. 3d.; bark Bessie Markham, from Ship Island to Santos, lumber at $15.00.

Bark Maori, McCann, from Londonderry for St. John before reported, put into Queenstown in distress etc., sailed thence, Oct. 18th for Cardiff.

A telegram received by Donald Carmichael announces the safe arrival of the bark Queen of the Fleet, Capt. Grafton, at Sydney from Liverpool. There was a report about town last night to the effect that she was in trouble, but there was no foundation for it. Capt. Grafton telegraphs that he had a hard passage. The Queen of the Fleet will load coal for St. John.

Nor. bark Cspella from Londonderry Aug. 3rd, and the Ital. bark Marie Laura from Liverpool, Aug. 2nd, both for St. John, are now considerably over due, and it is feared they have been lost. The bark Countess of Dufferin from Londonderry and Navasch from Liverpool are now out about 65 days.

Schr. Howard A Holder, before reported ashore near Edgartown, was floated on Friday 6th inst, by wreckers, in good condition.

**The Deal Trade in England.**

The Timber Trade's Journal of Oct. 31st gives the following report from Liverpool:

"The season for contracts from Canada is virtually over, and anything after this time will be either on account of shippers or in completion of outstanding engagements. There is nothing particularly worthy of mention in the way of sales of spruce deals from New Brunswick and neighboring districts. The markets round the coast are better than here so far as regards price, but this is in consequence of the demand for smaller sized ships than the average run. For the large vessels chartered for six or eight hundred standards there are few markets open, and they come here as a matter of course, and it follows that with a restricted market for such large cargoes lower prices must be taken. Round the coast the rates given for spruce are at least half a crown per standard better than here even for moderate sized vessels."

**Wood Paving in Paris and London.**

A trial is being made in Paris of a new system of wood paving. It consists of pieces of oak about 4in. long, split up similar to ordinary firewood and laid closely on an end in fine sand on a bed of gravel 4in. to 4½ in thickness. A layer of sand is spread over the blocks and they are then watered and beaten several times. In about 48 hours the wood swells so that the whole mass becomes compact and capable of supporting heavy traffic.

In London the old granite and wood pavements of the Haymarket, Bow and Exeter streets are to be taken up and be replaced by deal blocks 9in. by 6in. laid on a bed of Portland cement.

Six hundred yards of the London paving it was estimated would cost £750.

**The Y. M. C. A's Display.**

The display made by the Y. M. C. A. Athletic club in Manchester, Robertson & Allison's window attracted a great deal of attention to-day. The window was trimmed with plushes, satins, silks and velvets in black and gold, the colors of the club. The photos of the Lacrosse club and some of the other members were shown in the centre of the window and over the top is the tug of war rope and pictures of the tug of war team which has pulled against 5 or 6 teams and has never had beaten. The medals won by Frank White are mounted on a plush shield, and a silver pitcher won by M. B. B. Henderson stands at one side of the window. The back ground of the display is a champion pennant flag won by the Y. M. C. A. base ball club.

Mr. Robert Lee, carpenter of High street, had his right hand badly crushed at Waring & White's new foundry to-day. It is thought that one of his fingers will have to be amputated. A staging fell at the foundry this morning and a number of men had a narrow escape from serious injury.

Albert Belyea, who had his right hand almost pulled off in Messrs Harris yard the other day is suffering much pain but as the hand is swelled the same as the wrist it is thought by Dr Emery and McLaren who are attending him that amputation may not be necessary and that the hand can be saved. If this proves to be the case the wrist joint will probably be stiff, however.
