

SINGING TO SOME PURPOSE.—The triennial musical festival held at Birmingham, Eng., for many years have not only been productive of great good to art, by presenting some of the masterpieces of the great composers, but the receipts over expenses, amounting to over five hundred thousand dollars, have been given to the Birmingham General Hospital fund. The amount of relief thus secured to the poor is incalculable.

—One of the most daring robberies on record was perpetrated on the People's National Bank of Jackson, Mich., Friday. While the president was engaged in writing at his desk and the cashier was out no business, a package containing \$3000 was abstracted from the safe, to which access was gained through the side door in the bank building.

—The annual report of the cotton crop of the United States, compiled with great care for the Financial Chronicle, shows a total product of 3,130,508 bales, an increase of nearly a million bales since last year. The exports amount to 720,000 bales more than last year, and the domestic consumption and stock on hand Sept. 1, are both increased. The average weight of the bales passing through the custom house is 464 pounds.

—The latest advices from Shreveport represent the yellow fever as unabated, and distress in the city indescribable. Of the six men in the telegraph office five have the fever, and two are already dead. The inter-city average thirty or forty daily in a population of not over 4000. The physicians and nurses are worked out. The western cities are forwarding contributions to the sufferers.

—Gordon Gordon, who fled from Fort Gerry, was captured 500 miles west from there and is now in Winnepeg jail. The trial of the American prisoners charged with kidnapping him, commenced yesterday. Rail, the leader in the half breed insurrection a short time since, is summoned as a witness. He is said to be accompanied by 300 of his friends and bloodshed is feared when he arrives, as parties have threatened to shoot him on sight.

Why the Valve Jar is Superior to all Others for Preserving Fruit.

1. Because it is the only one in which the contents can be securely fastened, and cooked while thus fastened, without risk of an explosion.

2. It is the only one that is automatically sealed, therefore, the only Safe-Sealing Jar in the market.

3. It is so simple that no skill is required to use it successfully.

4. It is securely fastened when placed in the kettle, and being immersed, the fragrance of the contents is confined in the Jar, a more perfect vacuum produced and the handling of the hot jars entirely avoided.

5. It is well known that fruit jars which are closed with rigid fastenings burst by fermentation, and the effect upon the food and surrounding is well understood by many housekeepers.

The Cover of the Valve Jar being a perfect safety valve makes an explosion impossible, and entirely obviates every difficulty that exists in other fastenings.
