Watch Out

For something interesting in This Space next week. You can learn how to get Something for Nothing. This week we begin to sell all kinds of Carpets at a Reduction to make room for Fall Goods. Good Bargains may be expected.

JUST RECEIVED! A Lot of Children's Carriages coming in late will be sold cheap to clear them out. 25 more suites parlor frames daily expected. Just think of it! You can buy a Parlor Suite in Walnut Frames for \$27.50. Have you seen our hand made Chamber Suites, complete and all mounted on castors, for only \$19.50? It is a marvel of cheapness. We are getting them by the dozen and they are going out like hot cakes.

J. G. McNally.

150 QUEEN STREET. ESTABLISHED, 1802. 150 QUEEN STREET. JAMES R. HOWIE, PRACTICAL TAILOR, Has a Splendid Stock of Impored and Native Cloths.

A SPECIAL NOVELTY. In Promosings of French Make, and a splendidly finished silk mixture, soft and fine, and smooth as satin. It comes in beautiful designs, a fine selection of which can be seen on the counter. SPINNING AND SHIRING OF ELECTRICITY. A specially good value and style this year, and now is the time to have them made up. MY READY MADE CLOTHING is all it should be, and my easy trimmings are certainly daily. Come and see the makes and prices, they will astonish you.

BOYS' CLOTHING. In a model line with me this Spring. My boys' wear is BEAT, a fact which should be commended to all school-boys. But seriously, every suit is stylish, durable, and cheap. Styles in summer department are very rapid, and my boys' really beautiful, choice and cheap stock.

A GLENGARRY MIRACLE

MR. JAMES SANDS' WONDERFUL RESTORATION TO HEALTH.

After Three Years of Paralysis, Incapacity, Blindness, and Deafness, He Tells the Tale of His Recovery and Renewed Health in the World-Famous 'Total Free Press' Reporter.

The town of Alexandria, some 55 miles south of the city of Ottawa, on the Canada Atlantic Railway, has been completely astonished, recently, at the marvellous experience of a young man, who, after having been bed-ridden for nearly twelve months, and his case pronounced incurable by Montreal and Alexandria doctors, is now restored to complete health and strength.

James Sands is a young tanner, well-known and extremely popular throughout the country-side, and his illness and wonderful recovery have been indeed still more the chief topics in the town and neighborhood. The story of his marvellous cure having reached Ottawa, a member of the Free Press staff journeyed to Alexandria and sought out Mr. Sands for the purpose of ascertaining the truth of the statements made regarding his recovery. Mr. Sands is a slimly built, but wiry-looking young man of about 32 years of age, and when met by the newspaper man the bloom of health was on his cheek and his whole frame showed signs of unimpaired vigor and vitality.

The newspaper man told Mr. Sands the object of his visit, and the latter expressed his surprise to find all the facts connected with his case.

"I was," said Mr. Sands, "a complete wreck, given up by the doctors, but now I am well and strong again, and putting strength every day. I was born in Lancaster in 1860, and up to three years ago I was always healthy and strong, living in the open air and being well-known throughout the whole county of Glengarry. It was in the winter of 1888-89 that I first felt signs of incipient paralysis. I was then contractor for the road and door factory here, and had been exposed to all kinds of weather. I then experienced violent twinges in my right hand. I was in Cornwall that winter, and the first stroke fell, and I remained there for three days before I knew anybody at all. A medical man was called in, but he said that I was incurable. After that I came home and appeared to get all right for a time, but after a few days the twinges began again, my hand continuing the twinging and cramping that had preceded the stroke. Up to twelve months ago these twinges were the only symptoms I suffered from. The twinges ceased, when I was in Huntington village I sustained a second stroke, and remained unconscious for about seven hours. A doctor attended and I recovered sufficiently to be brought home. After my return home the paralysis steadily gained on me, and I lost the use of my right arm and leg, and my right eye was completely paralyzed and my tongue partly paralyzed. I was prescribed for by an Alexandria physician, whose treatment I carefully followed, but it had no effect. I still got steadily worse, and about a month before Christmas last, I went to the English Hospital at Montreal. Prof. Stewart all the doctors of the hospital, and I was treated as a case of general paralysis. I remained in the hospital a month, without the least improvement, and was then brought home, and remained in my bed till May day. I had constant medical advice, but continued to grow worse and worse. My right arm withered and I grew so weak and unable that I could not turn myself in bed. Meantime I had tried all sorts of patent medicines without the least effect. In May I saw an advertisement of Dr. Williams' Pink Pills in the papers, and said I would try them as a last resort. I had heard of the wonderful cures effected by Pink Pills, and told my folks to get me some. I had not taken them long when I found myself improving, and this determination to continue their use. My strength gradually returned, the muscles of my arm and leg became invigorated and stronger, and I was able to sit up. I still continued taking the Pills, and gaining strength, until at last I was able to go about, and finally to return to my old place at the sack and door factory. I gave up the Pills for a while, and did not feel so well, so I again began their use. I now feel as well as ever, though perhaps not quite so strong as formerly. You can see my right arm, which was withered, is now all right," and Mr. Sands stretched out a muscular limb, which would have done credit to a blacksmith. In reply to the reporter Mr. Sands said he thought his trouble had been brought on through exposure to the weather. "I am completely satisfied," said he, "that it is Dr. Williams' Pink Pills that I owe my wonderful restoration. Besides the medical treatment, I had tried electricity and patent medicines, both internal and external, but without the slightest avail. After beginning Pink Pills I began to mend, and they have made a new man of me."

The newspaper man then called on Messrs. Ostrom, Druggist, and interviewed their representative, Mr. Smith, as to his knowledge of the case. Mr. Smith was fully conversant with the facts, and vouched for the story told by Mr. Sands, and said that his experience he had never handled a remedy that sold so well, or gave such general satisfaction to those using them, as everywhere glowing reports are heard of the excellent results following their use. Dr. Williams' Pink Pills are not a patent medicine in the sense that is understood. They are the result of years of experience and careful investigation. They are not a purgative medicine, but act directly upon the blood and nerves, supplying those constituents required to enrich the former and stimulate the latter. For all diseases depending upon a vitiated condition of the blood, or shattered nerves, they are an unending remedy. Such diseases as these speedily yield to their treatment. Ecomotor ataxia, partial paralysis, St. Vitus' dance, neuralgia, rheumatism, sciatica, nervous prostration, nervous headache, dyspepsia, chronic, erysipelas, scrofula, etc. They are a specific for the troubles peculiar to females, correcting irregularities, and restoring the functions, and in the case of men effect a radical cure in all cases arising from overwork, mental worry or excesses of any nature. In fact, it may be said of them "They come as a boon and a blessing to men, restoring to health, life and vigor again."

These Pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and subsequently, N. Y., and are sold in boxes (never in loose form) by the dozen and hundred and the public are cautioned against numerous imitations sold in this shape at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, from either address. The price at which these pills are sold make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

JINGLES OF BUOON. A Little Nonsense Gathered for Leisure Reading. 'My rich uncle has got the shiping fall' said a young Gaiety. 'He is going up next week. I am his heir' and I think they will be money in the heirship.'

Said Days. First Lobster—Well, what are you going to do now? Second Lobster—Get dressed for dinner. The worm that feeds on steel has been discovered by a brilliant scientist. He is probably a cousin of the late microscope.

Ma. Trotter—Oh Henry, He throw away that cigar. It is something awful. (After a pause.) Do you know that Mrs. Barlow saves money for her husband by buying his cigars?

Trotter (grimly)—I thought as much; this is a cigar that Barlow gave me. It is said that Ward McAllister spent a great deal of time deliberating whether to call his book 'Society as I Found it,' or 'Society as I Founded it.'

Willie—I can't come out, Dolph. Ma says I must stay in all the afternoon. Dolph—Why don't you sit in the chair that squeaks and wiggles. She will send you out quick enough then.

Willie (sneering)—Now we've milked the cow, what'll we do? Pop'll be awful mad. Jimmie (to the occasion)—Well, drive her down to the pond and fill her up with water. It is sometimes easier for a man to complete a round of pleasure than it is for him to make things square afterwards.

In early days the schoolmaster 'boarded around' himself, but he shingled the boys. 'My son,' said Rev. Stiggins, don't let me hear you say poverty. 'Why, father? 'Because, my boy, poverty is a curse, 'Husband—So they evidently think, 'Husband—Oh, what have they done? 'Husband—Made a canon of him.'

Grains of Wisdom. God's side of every question is the side the devil doesn't want us to take. Keep a close watch on the devil, for he will do anything for the pitcher. The man who will not be honest with God is not worthy of trust anywhere. He never takes the devil very long to find a job that will suit the man who isn't busy. The devil never has much trouble with people who get for a living.

Patrol visitation ought to mean something more than eating chicken and talking politics. A milk would rather hear himself bray than to a brass band with two brass drums in it.—Kam's Horn.

For Female Weakness. Mr. T. Steadman, Robalston, writes:—'My daughter had been attended by four physicians for female weakness, without avail. A course of your Dr. Williams' Pink Pills cured her.' 'Of all dealers or by mail at 50c a box or 6 boxes for \$2.50. Dr. Williams' Med. Co., Brockville, Ont., and Schenectady, N. Y.

Fashionable Fancies. Yellow and violet are rival colors. Gray crape plastron and ruffles upon black gowns indicate half mourning. Around the coil of back hair is worn a hoop of twisted tortoise shell. Silk linings of a contrasting color are the rule for evening wrap.

The popularity of the long Slende gloves wanes not. Those in wood color are especially desirable. Lined driving-coats are long, double-breasted, have at least three pockets, are fastened by large smoked pearl buttons, and the fullness at the waist lined in the back is confined by a belt. It is predicted that the autumn street gowns will be short of even length all round. The sweater is no longer de rigueur.

Young ladies don large straw hats adorned with white feathers, lace and satin ribbon and warf off the wind with deep veils of white net.

The smoker who has not yet tried the 'Myrtle Navy' tobacco has a new pleasure before him in the use of 'the weed.' An investment of twenty-five cents will furnish him with the means of giving it a fair test. Let us advise him to make the experiment, he will find the tobacco to be all that its thousands of friends claim for it, and they are far from being in their praise.

AGRICULTURE

Notes and Suggestions of Practical Utility

FOR THE FARM, FIELD, GARDEN AND DAIRY. Cleanings of Interest for Our Country Readers.

Only the best really pays. All fowls like a quiet nest. Onions are good for poultry. Always read instructive books. Sheep should never be worried. Don't let your mill get too ripe. Feeding racks should be movable. A variety of stock prevents waste. Vines make nice home decorations. The progressive farmer takes the paper. Look well to saving seed for next year. Hilling up is good only in wet weather. A good pasture saves grain feed for hogs. Profit is in growth rather than in fattening. Women in the dairy for cleanliness. Too many people eat hay instead of grass. There is no gain in close-cropping pastures. The strength of the fence is its weakest place. Hot as well as wet days are hard on sheep. Butter-milk is said to cure scratches on horses. If you would have the best, breed from the best. Shallow, not deep, culture is the order of the day. Grow no solonchs or limbs where not needed. There is health and happiness in a good garden. Fatten old animals on grass rather than on grain. The cleanest and best oiled machine runs lightest. Every farmer should know something of chemistry. A heavy crop of book-worms makes a good mulch. Cooked foods are generally best for young chicks. Confinement is less taxing in winter than in summer. Boxes are good in the water in which hands are washed. Study the individual characteristics of your animals. Robbing future generations is an unparadisiacal sin. Make your skimmed milk into curd for your poultry. Trees will grow where you can't grow anything else. Save all the little conveniences you can for next year. Without a variety of stock there is more or less waste. Vegetarian animals are longer lived than carnivorous ones. Cultivate as soon as the soil begins to break up. Four feet is long enough for blackberry and raspberry canes. No matter how hard your work varies the day accordingly. Watch each individual animal and pay the food accordingly. All animals are benefited by contact with the clean earth. One day's rest in the bundle saves waste when they are laid. A little ploughed ground is good for the hens to scratch in. Look to the young animals that which will most promote their growth. Feed to the young as well as the nutritive value of the ration. The interest in an article should be proportioned to its length. The strong breed, strong feed and poor shelter will ensure failure. Whole wheat cleaned in a sweet mill makes a very complete food. Buckwheat kills weeds, shades the ground and side irrigation. The success of the creamery instead of the patron is first considered. Business, as well as capital, accumulates in the hands of fewer and fewer. Nature is quite feasible, but she rejects on the observation of her laws. High prices make poor stock unprofitable, as costs as much as good. Use all-dressed lime freely about your poultry house and your stable. Animals lay on fat faster in cool weather than when it is either hot or cold. Don't content yourself with being an imitator; the monkey can do that. Put on your farm rather than take off important elements of fertilization. If we have debts for the future to pay, we must leave an equivalent of assets. There is in the poultry business what you get out of it, and no more—for you. Plants do not need irrigation every day. Once a week is often enough for a swim. When you do a thing have some sort of an understanding of what you do it for. In dry seasons and on dry land level cultivation of blue crops gives the best results. A liberal education may be obtained by devoting spare moments to useful reading. It is pleasant to have a surplus of choice garden seeds to share with your neighbors. Dry earth is good for the bottom of a hen house, but they need dry dust to wallow in.
