WEEKLY WEATHER SYNOPSIS. Victoria Meteorological Office, 12th to 18th June, 1907.

uring the first few days of the week weather was cool, and on the Lower inland showery. Upon Friday, 14th, extensive high barometer area moved the Coast and gradually spread over province until by Sunday, 16th, fine warmer weather became general over the Worth Pacific slope and continued till the mortherly gale was reported on the Oregon coast. Owing to the prevalence of
cool weather over Northern British Colmbia the snow about the Fraser river
las melted gradually, without causing
last fallen in Alberta, and showers have
