If the astronomical view that the moon was once a part of the earth's mass be true, the moon in its early age must have revolved much nearer to the earth than now and must have caused prodigious tides upon its parent planet as recently shown by Prof. Ball. Prof. J. S. Newberry finds in geological evidence a refutation of this theory—to the extent, at least, of proving conclusively that no such tides could have existed since the commencement of the geological record. He does not hesitate o assert, therefore, that the astrono- on his head are the symbols of his soul. ers are in error in regard to the A phrenologist fumbling about over a moon's genesis; or that if it was once a portion of the earth, the separation cruel, or selfish, or passionate, or una portion of the earth, the separation took place at a period so remote that it feeling. He can tell whether a certain had receded to nearly its present distance before the dawn of life on the

Explorations by a Russian party show that the eastern shore of the Gulf of Obi, in northern Siberia, is nearly fourteen miles west of the place assigned

to it by existing maps.

A successful operation, during which logist, and would get him to describe the patient was kept immersed in water for sixteen days, was recently performed by Dr. Langenbeck, of Berlin. Among other applications, these "permanent baths" are said to be especially valua- splendid, and I thought so too.

SAMPLE ROOMS For Commercial Men The GENUINE SINGER SEWING MACHINE

THE demand for Sample Rooms to a commodate the commercial travellers being so great, and the supply being inadequate, causing the travellers in some instances to remain three or four days awaiting their turn, has induced the subscriber, to build two Sample Rooms, well lighted, sired and warm. Commercial men can depend on obtaining just what they require, being situated in the central part of the business community, namely, corner Main and Wesley Streets, they will be found to be far more suitable, comfortable and convenient. Should a horse and sleigh be required it will be furnished without additional expense. Rooms secured either by letter or telegram. The GENUINE SINGER SEWING MACHINE has been awarded the first premium over all others more than two hundred times at Great Word's Fairs, at State Fairs and at County Fairs, in every part of the United States.

Three quarters of all the Sewing Machines sold throughout the world in 1830 were "Singers," and there must be a reason for that. When any of our style of machine used in millions of homes, leads all the other kinds to such an extent as that there must be some way of accounting for it all. Other Sewing Machine Manufacturers refuse to state their sales! Why? Companies have sprung up in every part of the Union and Dominion of Canada for making an initiation "Singer Machine." Why are not similar companies formed for making initiation of other Sewing Machines? The public will draw its own inference. Gold is continually counterfeited; brass and tim never! Beware of superficially ornamented machines with an infinite number of worthless nickel plated attachments, but buy the Genuine N. Y. SINGER SEWING MACHINE, the best that ever was made.
