BIDDEN STRENGTE.

In one of the practic towns of north ern Iowa, where the Illinois Centra railroad now passed from Duouque to Sioux City, lived a woman whose experience repeats the truth that inherent orces, ready to be developed, are waiting for the emergencies that life may

She was born and brought up in New England. With the advantages of a country school, and few terms in neighboring city, she became a far scholar-not at all remarkable; she wamarried at 21 to a young farmer, poor, but intelligent and ambitious. In ter years after the death of their parents. they emigrated to Iowa, and investemoney in land that bade fair to increase in value, but far away from neighbors. Here they lived, a happy family, fo. five years, when he died, leaving her a the age of 35, with four boys, the eldes: nearly 14 and the youngest 9. The nearly 14 and the youngest 9. The blow came suddenly, and at first was the would not let them get ahead, no overwhelming. Alone, in what seemed almost a wilderness, she had no thought There they must stay and do the best passing near them, in time, was good ; was never without a schoolhouse. They were bright and quick to learn.

then some of the land might be sold. tessons at school.' They took the his A little money had been laid by—noth-tory of the United States which the two ing that she ought to touch for the present. Daniel, the hired man who had came out with them and who was a decreased friend and servent she determined and servent s devoted friend and servant, she determined to keep—has judgment was exbeys had gone regularly to school a mile or two away : for a settlement in Iowa Their father had been eager to help and encourage them. Newspapers, magazines, and now and then a good book had found their way into the household. Though very fond of reading herself, with the care of her house she had drifted along, as so many do, until the discipline of study or any special applications.' tion, had been almost forgotten. It was the ambition of both parents that their sons should be well educated. Now Jerry and Thede, the two oldest, must be kept at home during the aummer to work. Nate and Johnnie could sitting room window, and a merry help at night and in the morning. The group was gathered around the table boys had been always trained to habits, of obedience. They were affectionate, and she could depend upon their love. advance, and faithfully studied. Once One evening, alone in her bedroom, she overheard some part of conversation as the children were sitting together

around the open fire place.

a civil engineer.' help; but then, I guess mother's-'

the best mother in the world ?' too; but I was just thinking now that you can't go to school, if she only knew you can't go to school, if she only knew rewarded. Each child made her his a lot about everything, why, she could peculiar confidante. She became the

tell you.'

'Well,' replied Jerry, with all the gravity of a man, we must just take hold and help all we can; it's going to be hard enough for mother. I just hate to give up school and pitch into

ter, anyway.'

'Shan't we be lonesome next winter?'
said little Johnnie, who had taken no
part in the talk until now; 'won't
mother be afraid? I want my father
back,' and without a word of warning
he bursted into tears. he bursted into tears.

ter, anyway.'

Dead silence for a few minutes. The entburst was so sudden, she knew they were all weeping. It was Jerry again who apoke first: 'Don't let mother see us crying. Come, Johnnie, let's take Bone and all go down to the trap; then she heard them pass out of the house.

The repressed.

First of all, a preparation had been made for the Sabbath. There was a church in this town, but at a distance of several miles, and during many days the roads were not passable. She had leaned upon Infinite strength, gathering wisdom through all these experiences. The secret of many a promise the house.

she help her boys, for whom she was same vivid interest, the same power of ready to die? Was she only 'mother,'
who prepared their meals and took care
The lessons were varied by little of their clothes? She wanted a part in the very best of their lives. She thought it all over, sitting up far into the night. If she could only create an interest in some study that should bind thom all together, and in which she could lead! Was she too old to begin? Never had the desire to become the very Never had the desire to become the very learning to count upon this hour a-

ing at the breakfast table. 'Boys I've the bright faces of her boys, as they been thinking that we might begin geo- clustered affectionately around her. logy this summer and study it, all of us Time rolled by. A railroad passed together. I've found a text book ; by- through. A village sprang up and the and-by, Thede can draw a chart, perhaps land was ready to sell. She could keep Jerry will take hold, I know, and Nate enough for her own use, and the boys

The children's interest awoke in a home was kept bright and pleasant; fiash and that every evening the questiends, new settlers came in, and now Fish Warehouse, tion discussed was one brought in by here was visiting and social life. limestone and granite? a simple one, became an engineer; Nate a minister; but it opened the way for her, and their Johnnie went into business. Theodore had to study each day to be ready and all the stones and the flowers make me limestone region. Different forms of coral abounded, and other fossils were blessed times.' Nate said, 'Mother, was turned into a cabinet. One day,
Nate, who had wandered two or three
miles, brought home a piece of rock,
where curious finger-shaped creatures

there always comes to me a piece
ture of those old evenings, with you in
the rocking chair, by the fire light, and
there always comes again. Johnnie ceratites, and an expedition to the spot was planned for some holiday. Ques-tion after question led back to the origin of the earth. She found the nubu- There will never be any one like mothlor hypothesis, and kardly slept one er to me.'

frojans, they took their lunch in the arm wagon and rode to the spot; and i their search was not altogether sucessful, it left them the memory of a

happy time. In the mean while the farm prospered. See did all the work in the house, and ill the sewing ; going out, too, in the arden, where she raised a few flowers. and helping to gather vegetables. Daniel and the boys were bitterly opmed to her belping them. 'Mother' said Jerry, 'if you won't ever think you must go out, I'll do anything to nake up I don't want you to look ake those women we see sometimes 1 ne fields.' Generally she yielded . ner work was enough for one pair of nands. Through it all now ran the hought that her children were growin.

so as to pass her entirely. Winter came. Now Daniel could see of giving up the farm. It was home. to the work; but these habits of study There they must stay and do the best they could. The prospect of a railroad form a history club,' was the proposition; 'It shan't interfere with you. tessons at school.' They took the his tory of the United States which the two younger children were studying. Begin ning with the New England Settlements, and being six in number, they called each other, for the time, after the six states, persuading old Daniel to take the states. beats all creation,' he was heard to exclaim, 'the way she works all day and goes on at night over her books.' The

mother used to say she hardly knew if she were any older than her boys when they were trying to trip each other with questions. The teacher of the district school came over one Saturday afternoon. 'I never had such pupils,' said he 'as your sons, in history; and indeed they want to look into every-Afterward he heard with delight the

story of their evening's work. The deep snows often shut them in, but the red Theodore remembers a shout of laugh ter was raised when 9 o'clock came by Jerry's exclamation, 'Oh, mother, den't go home ; we are all having such a good time!' Five years they lived in this 'I don't mind the work,' said Theodore, 'if I could only be learning, too.

They studied botany. She knew the Father used to say he wanted me to be name of every tree and shrub for miles around. The little boys made a collec-'If father was here,' said 11-year-old tion of bird's eggs, and then began to

Nate, 'you could study evenings and watch closely th. habits of the birds. recite to him. I wish mother could It was a pure simple, life. It would have been too wide and lonely but for 'Help, now?' she heard Jerry ask the charms of this devoted mother sharply, before Nate could finish his Her hours of loneliness were hidden sentence; and she knew at once that from them, but she learned in an unthe boy was jealous for ker. 'Isn't she usual degree to throw every energy into the day's work of study, and create, 'Yes, she is, and she likes stories, as it were, a fresh enthusiasm for the
