VICTORIA RINK TONIGHT.

VRCTORIA RINK TONIGHT. There was a grand attendance at Victoria rink last night. Good ice and popular music are evidently capital drawing cards. There will be a band every night this week except Saturday. Tonight Dalton and Merritt will skate a half-mile match race between bands. The extra band tonight is gut on by Manager Armstrong to meet the fre-mendous over-crowling that so far this season has, taken place on regu-lar band nights. The people of St. John evidently appreciate healthy win-ter exercise. So does the caterer of Victoria rink.

WEDDING ANNIVERSARY.

WEDDING ANNIVERSARY. Last evening a very pleasant social event took place at the residence of Mr. and Mrs. James Boyd, 26 Douglas evenue, when a large number of their friends and relatives gathered to cele-brate the twentieth anniversary of their wedding. An address, accomp-panied by a handsome dinner set, was presented to the happy couple, who re-pled in a suitable manner. Parlor games and music were indulged in by those present and a very pleasant eve-ning was spent. After singing Aud Lang Syne, the party broke up at an early hour this morning.

A WORD OF THANKS. Hev, H. H. Rouch desires to thank the many persons in the city who so kindly contributed clothing and money for distribution among those under, quarantine. In a great many cases no names were sent with the contribu-tions. Although large quantilies of clothing have been distributed, so gen-erous was the response to the request made that there is still a sufficient sup-ply on hand to last for some time. The only articles required now are mat-trasses, of which eight or ten can be put to good use and it is hoped that these will be forthcoming. Either single or double mattrasses can be made use of.

GONE FAR ENOUGH. Ernest J. Hieatt, proprietor of the Hygienic Bakery, complained to the police court this morning that a large number of hens kept by him had been killed by dogs belonging to several of his neighbors. On one occasion thir-teen hens were killed, on another five, and others at different times. Mr. Hieatt considers that the thing has gone quite far enough, and has re-tained H. H. Pickett to act for him in the matter.

Police Circles. In the police court this morning the magistrate said: "About five years ago I made a statement which I be-lieve was the origin of all the trouble now existing in police circles. I said that if I were going along the street at any time of the day or night in an intoxicated condition and a police of-ficer met me, he should watch me to see that I got home safely without be-ing injured by falling or otherwise. And if any poor man, no matter what his reputation, were seen in a like con-dition, the duty of the police would be exactly the same. This is how I inter-preted the law, and I fully believed that I was the one whose duty it was to interpret it. These instructions were made known to the police, but it appears that they have received other orders—that I tell them one thing and someone else another. This I believe was the beginning of all the present trouble, I would now advise the offly cers present to act according to my in-terpretation of the law. Do not be too anxious to make arrests. If a man is intoxicated anywhere near his home and can get there himself let him go. If he he cannot get there unaided, as-sist him and report he matter in the usual way on the police books." In conversation with a mumber of police officers the Star learned that the general opinion of the force differs somewhat from that expressed by the magistrate. They suggest that the in-cidents relative to the appointment of sers t. Caples to the mayor's office in is8h had something to do with the case. IN CARLETON.

HOLY GHOST AND US.

HOLY GHOST AND US. Rev. Mr. Woodford, a Portland past-or, who has been investigating the Holy Ghost and Us movement as carried on by Rev. Frank Sanford and his dis-ciples at Shiloh, says that he is con-vinced that Sanford is crazy and that he posseses what the experts in insan-ity term "faise hearing." and that the Shiloh movement will eventually result in some tragedy which will necessitate the interference of the authorities. Mr. Woodford said that he did not doubt that Sanford possessed some hypnotic power of healing but that there are a great many cases on record where he has failed to heal. Mr. Woodford al-leges that it was admitted to him that Sanford had arranged for the delivery of certain things, as a check, a boiler or or an engine, at a certain hour at which he had announced to his congregation that these objects would arrive in ans-wer to his prayers. He stated that
