

D. C. L., the Governors have no hesitation in saying, that under his skilful and practical training, in the departments of Chemistry and Natural History, (so essential in the present day to a complete education,) the student, if diligent, may be advanced as far as in any Institution in British North America. The learned Professor is always at his post, and is a stranger to that recreation which he needs, and which his colleagues have so frequently enjoyed.

The Governors have to record with deep regret, the death of Harry King, Esq., D.C.L., a member of their Board for several years, himself educated at the Institution, and evincing to the last a deep interest in its welfare. At a meeting held on the 11th Dec., 1865, the following resolution, unanimously passed, was ordered to be entered on the minutes:—"Resolved, that the Governors of King's College, whilst deploring the death of their late member Dr. King, will indulge a melancholy pleasure in recording on their journals, the sense they entertain of his services and their loss. With his memory they associate filial affection for his Alma Mater, and fervent zeal in her cause, often manifested by a cheerful readiness to promote her interests by kind offices, and by all the means at his command. More particularly they cherish the grateful recollection of his many valuable efforts, (as Examiner in Civil Law, as resident Governor in Windsor, and also as an active member of Convocation,) gladly exerted to advance the prosperity and usefulness of the University, with which he was intimately connected for a period of nearly half a century. Resolved, that the Secretary be instructed to communicate the foregoing resolution, to the widow and family of the lamented deceased, with the expression of sincere sympathy and condolence on the part of the Board."

The Governors have also to regret the loss they have sustained by the retirement of J. C. Cogswell, Esq., D.C.L., and A. M. Uniacke, Esq., D.C.L., who had long assisted in the management of the Institution. The latter gentleman especially, had from its re-organization in 1854, taken a very prominent and laborious part in the financial and general affairs of the College. It is to be hoped that he may ere long be called to resume a place, which he so long and so ably, and usefully filled.
