this latter quality may perhaps prove an insuperable objection to its adaptation for general purposes, but as this produce is only of surface growth, and gathered without material expense, it is not too much to presume that its discovery is merely the harbinger of something even more valuable beneath the surface.

JUBILEE DINNER OF THE ST. ANDREWS SOCIETY.—The members of this Society, with their guests, dined last evening at the Saint John Hotel.—The company was large, and we are informed that every thing went off with great *eclat*.

CITY CHARTER.—In our columns will be found the draft of an Act for making the proposed Amendments in the CITY CHARTER ; and as the subject will be discussed and finally adopted or rejected by the Common Council at their first meeting, it behoves all citizens to take the subject into serious consideration, and give such countenance to this, or any other desirable alterations, as may seem right in their own judgment.—The 4th section of the amended Charter repealed by the 26th section of this Act, relates to the sum paid for license to carry on business by Aliens, which by another section is reduced from a maximum of £25, to £10, and not less than £2. The 1st section repealed by this Act relates to the qualification of Aldermen and Assistants ; the 2d to that of Voters at elections ; the 8th is regarding the appointment of Commissions to hold elections, and is provided for in the 3d section of the present act. The 9th relates to the swearing in of the Mayor which is also provided for.

It is, we think to be regretted, that in repealing the first and second sections of the Amended Charter, the new Act makes no provision for their requirements ; but we are not without a hope that the Common Council will yet adopt the expunged sections. The qualification of candidates, indeed, should be doubled ; and the right to vote should be solely in those who pay the taxes.—The 25th section of this Act in particular is an exceedingly loose enactment ;—the Assessors book by it may be filled with names indefinitely, and all hold the right to vote, unless specially prevented by further enactment. The grand object of an election law should be to confine the right to vote in those to whom it properly belongs, and, if possible, prevent confusion and disturbance at the elections. This can only be done by discountenancing idlers and others, who generally are more numerous than the legitimate electors, from crowding and voting at the polls without a legal qualification ; and for which evil, the second section of the Charter as amended was found to be a perfect cure, when carried out with a corresponding bye-law. With regard to the sections in the new Act throwing overboard the "Commonalty" and making J. P's. of the Assistant Aldermen, we can hardly believe the Committee to be serious in :—it is really "too much the monkey," and looks like either an unbecoming aspirancy on the part of the left side of the Board, or that it has been held out as a straw to tickle them into the Aldermen's desired shape.—We have some fears that that portion of the Act giving the privilege of universal election will be thrown aside by the "rotten boroughs," who unfortunately have for many years held predominance at the Board. This section however has our most hearty concurrence, and we hope there is virtue enough in the board, notwithstanding our fears, to sustain it.—Most of the proposed changes, we have no doubt would be beneficial ; but we think that the holding of separate elections for the Board of Common Council and the Mayor, might be dispensed with, by vesting the latter election in the members of the board, and by ballot.—The composition of the Act, it is presumed, will be amended before being submitted to the Legislature.

We have as yet heard no time mentioned for the next meeting of the Common Council, but would advise all citizens to be on the alert, and attend at the discussion of this momentous question. The Committee are entitled to much credit for having brought the matter before the public, and it now only remains for that public to express their opinions, whether the desired changes are or are not to be found in the proposed enactment.

Within the last twelve days the Revenue Officers at this port have made seizure of thirty-six casks of Rum, illicitly landed from vessels in this harbour and its vicinity.

STAGE LINES TO FREDERICTON.—Messrs. Scammell and Green have commenced running a four horse coach to Fredericton—The old stagers, Bradley and Hewett, are also on hand and up to time. Both are *crack* conveyances and "warranted to go thro' in the shortest space of time."

WILLIAMS' Western Stage leaves every Monday, Wednesday, and Friday mornings, and connects with the American steamers for all parts of the United States.

LOSS OF THE GRAND MANAN AND WEST ISLES' PACKET.—The Mail Packet Beaver, which ran between St. Andrews, the West Isles, and Grand Manan, was totally wrecked in the vicinity of Woodward's Cove, Grand Manan, on the 20th instant. An old veteran servant of his country, Capt. Williams, was master and owner, and thus, in a moment, lost the fruits of a long continued course of honest exertion, no part of the property having been saved. Capt. Williams was for 21 years in the British naval service.—*Charlotte Gazette.*

BLOODY TRAGEDY—THREE MEN KILLED AND SEVERAL WOUNDED.—The town of Yellville, in Marion county, Arkansas, was, last Monday week, the scene of one of the most frightful and disgraceful rencontres that we have ever knew. We would premise that, for many years, there has been waged, between the Tutis and their friends on the one part, and the Everetts and their friends on the other, a most deadly feud. On Monday they all met at Yellville, Jesse Turner spoke there that day, and after the speaking the two parties, armed to the teeth, had some words, and drew up in battle array ; but the matter was quieted, and no outbreak took place.—Towards evening, and when the people had pretty generally left for home, the fight commenced. A man by the name of Watkins, of the Everett party, shot down Jack King. At the same time, Sim Everett fired at Sinclair, and missed him. Sinclair returned the shot mortally wounding Everett. King's brother was shot at by Bartlett Everett, the ball grazing his shoulder : he, in turn, shot Bartlett Everett dead in his tracks. After Sim Everett was shot, he gathered a rock, and pursued Sinclair ; but finding King, who had been shot in the beginning of the fight, he turned on him and smashing his skull in a shocking manner, and expired while in the act. King lived until morning. Watkins was badly beaten. He was taken into custody, but made his escape that night!

SURRENDER OF VIENNA.

The last advices from Vienna fully confirm the previously received intelligence. The whole town was in possession of the Imperial troops on the 1st of November. They made their first entrance into the inner town, after having taken all the faubourgs, on the evening of the 31st ult., the troops were advancing towards the bastions, upon which white flags had been raised, when they were received with a shower of balls. Shells and rockets were upon this thrown into the town. The Imperial library and a portion of the palace were soon in flames. The town submitted and the Burg Kaernthnerstrasse and St. Stephen-square were occupied by the military. A brisk fire was still kept up upon them. The fire in the palace library was extinguished, and it is hoped, the invaluable collection of the latter will not be lost. The students fought like madmen, and when the rest of the City had yielded, they still defended themselves in the centre of the Aula, supported by a portion of the workmen. On the 1st they still held out. At noon, however, the Aula, was taken by the Imperial troops, and the barracks carried by storm. On the 31st the Hungarians withdrew from the neighbourhood of the city. The conduct of the troops was admirable throughout. No mention is made of the Ban. He is, probably, with his Croats, at the heels of the Hungarians. Some disturbances, of a serious nature, had taken place at Brunn, but they had been put down. A letter, under date of the 2d inst., from Vienna, says, "The conflagration in the castle has been extinguished, and has occasioned but little damage. The books in the library are saved, as well as the fine monument of Canova in the church of the Augustins, and even the Museum of Natural History has not suffered much.

A letter dated Prague, the 30th ult., announces that the Emperor was expected to take up his residence in that City.

A letter dated Brunn, states that the insurrection amongst the operatives of that City had been suppressed after some bloodshed. During the night several bands of workmen traversed the faubourgs carrying lights. On the following morning they attacked some houses to obtain arms ; and the National Guard having attempted to disperse them was struck with stones. The latter then fired, by which two of the workmen were killed and thirty wounded. Several others were arrested. The National Guards and troops of the line continued to hold possession of all the military posts in the City.

THE FRENCH REPUBLIC.

The Constitution has been adopted by 739 votes, in the Assembly to 30, and is to be proclaimed with much ceremony, in Paris to-morrow and on Sunday next, in the departments. A gigantic altar will be erected in the middle of the Place de la Concorde. The Archbishop of Paris will officiate there, with the three Bishops who are representatives in the Assembly, after which a *Te Deum* will be chaunted by 500 clergymen and 500 professional singers. All the national assembly will be convened there, as well as deputations from all the national guards of France.—The poor of Paris will receive 200,000f., and those of the provinces, 80,000f. To cover the expenses of the banquet only, the representatives of the people will each give up four days' salary, amounting to 20,000f.

Chloroform Toothache Drops.

It is well known that "CHLOROFORM" has superseded (in a great measure,) the use of ETHER as an allayer of pain and is now used by the best Surgeons and Dentists in preference. A Celebrated Chemist, (and one of the first manufacturers of Chloroform) has discovered that a "Chloroform" with other simple preparations, will instantly cure the TOOTHACHE. After testing it in many cases has never failed to give instnt relief : there is no possible danger in using it, as it will not injure the sound teeth a particle. All that is necessary in using these drops is to saturate well a bit of cotton or lint, and place it in the cavity of the tooth. Relief will be immediate.

OBSTRUCTIONS OF THE LIVER, BILIOUS COMPLAINTS, DR. HALSEY'S GOLD AND SILVER PILLS.—Out of the "thousand and one" disorders which are the means of hurrying mankind to their final doom, more than one half arise from obstructions in the Ever. This important organ, when in a healthy condition, secretes the bile and blood, but, of unfit to perform its proper functions, excess of bilious matter accumulates—the worst out principle of the blood continues in the circulation, and like a slow but subtle poison, diffuses itself through out the whole system, finally giving rise to some dreadful malady. It may break out in the form of some dangerous Fever or Liver Complaint, Jaundice, or Rheumatism, or Scrofula, or some prevailing epidemic ; in fine, a morbid state of the liver stomach, and bowels, is the great cause which predisposes the system to every class of disease.

DR. HALSEY'S GOLD AND SILVER PILLS are known to be the most excellent remedy in the world to bring the liver to the performance of its proper functions, and to cleanse from the stomach and bowels all viscid and putrid matter. Were Dr. Halsey's Pills always resorted to when symptoms of sickness, or excess of bile are apprehended, a vast amount of suffering would be prevented, and many lives saved, who otherwise, from the use of bad medicines, would go prematurely to the grave.

As there are many bad pills in the market, the public should bear in mind that unless Dr. Halsey's signature is on the label of each box, they cannot be genuine, and that they are only for sale by H. G. Kinnear, 20, Dock street, and at Dr. Halsey's office No. 2, Courtland street, New York. Price, only 25 cents for the box, containing both the Gold and Silver Pills.

IMPORTANT FROM CANADA.

To all who are afflicted with Asthma :

Quebec, July 24, 1848.

I have at different times been afflicted with severe colds, which produced in my case, the Asthma. I have, on these occasions, used Dr. *WISTAR'S BALSAM of WILD CHERRY.* Two years ago I was quite sick, so much so, that I could not rest at nights. I procured of the agent in this city, a bottle of this Balsam of Wild Cherry. Before I had taken the whole of it I felt relieved. I continued taking it, until I had used three or four bottles, which completely cured me. I therefore cheerfully recommend my friends and others who need it, to try this medicine for their coughs and colds, and particularly the Asthma.

Respectfully yours, WM. M'GRATH.

None genuine unless signed I. Butts, on the wrapper.

The TERMS of the Paper will be continued same as at present—

FURTHER NOTICE.

TO DELINQUENTS.

☞ The Proprietors of the Chronicle FOR THE LAST TIME request that all Old Debts may be settled forthwith, according to previous notice, to first September last. Those who cannot pay the whole amount due, may pay us part, or give us a note for their respective amounts. We will also take COUNTRY PRODUCE, of ANY THING else in reason, to accomplish a settlement ; *but settled they must be, without further delay.* We are unwilling to resort to expensive law proceedings for recompense for past labors and materials furnished to delinquent Subscribers—a course as unpleasant to us as it is dishonourable to them ; we therefore hope, that they will avail themselves of our present liberal offer, and *settle in some way or other.*

☞ A List of those *hard customers*, several years in our debt, will shortly be prepared and published, in order to save the trouble of repeatedly making out accounts, and the expense of forwarding them by Post. Subscribers in arrears will then see at a glance the amount of their respective accounts, and will possess the advantage of always having the amount before them on reference to the paper in which it will be advertised until paid.
