

The aspect of affairs in Belgium, if not alarming, is very unsatisfactory. A very serious outbreak of feeling has taken place in Brussels, Antwerp, Liege and Ghent, in consequence of the majorities obtained on the Ministerial measure which may be denominated a "Charity Request Bill."

The Provincial Legislature was opened at Fredericton on the 24th inst. As will be seen, the speech promises nothing, consequently we may expect nothing. It will also be seen that Mr. Harding is appointed Speaker by the members.

We had always supposed that the Speaker of our deliberative body was chosen under the supposition that that important personage was a gentleman who stood high in the estimation of members generally, and would command at all times and under all circumstances the attention and respect of the House.

The 11th annual Session of the Sons of Temperance has been held in Rhode Island, and so much of the proceedings as will stand the light of day, are published.

Our Mr. Fraser reported— "That the Grand Division of New-Branswick had been held in the question (previously agitated) of the creation of a separate Provincial Division for the British Provinces, and that said body would never consent to a separation from this body."

Mr. Fraser, for the committee on prohibition, submitted the following report, which was adopted by a unanimous vote: "The committee on whom was referred the subject of Prohibition, beg leave to report: That they fully echo the sentiment of our M. P. P. regarding prohibition, as a 'fixed necessity,' the establishment of which in every State and Province of our jurisdiction is a matter devoutly to be wished and eagerly to be labored for, not can we be content with a partial accomplishment. The reverse of such a policy would be to encourage the existence of the law in some parts of our jurisdiction, and not at all in others, and to encourage the sale of liquor in some parts, and to prohibit it in others, without a corresponding effort on the part of its promoters, to show the fallacy of such a cry, to wit, 'Prohibition, or nothing!'

Similar scenes have been enacted at Antwerp, Mons, Liege, and Ghent. At Antwerp all the windows of the Jesuits' College have been smashed. The streets had to be cleared by the troops, but it does not appear that any collision took place. The people retired before the troops and then re-assembled.

Belgium papers of Monday state that tranquility appears to be restored, but a portion of the civil guard is still under arms at Brussels, and the troops are ready for an emergency. Some students have been arrested, but the greater portion have been set at liberty.

The Chronicle.

St. John, N. B., June 26, 1857.

The Provincial Legislature was opened at Fredericton on the 24th inst. As will be seen, the speech promises nothing, consequently we may expect nothing. It will also be seen that Mr. Harding is appointed Speaker by the members.

We had always supposed that the Speaker of our deliberative body was chosen under the supposition that that important personage was a gentleman who stood high in the estimation of members generally, and would command at all times and under all circumstances the attention and respect of the House.

The 11th annual Session of the Sons of Temperance has been held in Rhode Island, and so much of the proceedings as will stand the light of day, are published.

Our Mr. Fraser reported— "That the Grand Division of New-Branswick had been held in the question (previously agitated) of the creation of a separate Provincial Division for the British Provinces, and that said body would never consent to a separation from this body."

Mr. Fraser, for the committee on prohibition, submitted the following report, which was adopted by a unanimous vote: "The committee on whom was referred the subject of Prohibition, beg leave to report: That they fully echo the sentiment of our M. P. P. regarding prohibition, as a 'fixed necessity,' the establishment of which in every State and Province of our jurisdiction is a matter devoutly to be wished and eagerly to be labored for, not can we be content with a partial accomplishment. The reverse of such a policy would be to encourage the existence of the law in some parts of our jurisdiction, and not at all in others, and to encourage the sale of liquor in some parts, and to prohibit it in others, without a corresponding effort on the part of its promoters, to show the fallacy of such a cry, to wit, 'Prohibition, or nothing!'

Similar scenes have been enacted at Antwerp, Mons, Liege, and Ghent. At Antwerp all the windows of the Jesuits' College have been smashed. The streets had to be cleared by the troops, but it does not appear that any collision took place. The people retired before the troops and then re-assembled.

Belgium papers of Monday state that tranquility appears to be restored, but a portion of the civil guard is still under arms at Brussels, and the troops are ready for an emergency. Some students have been arrested, but the greater portion have been set at liberty.

At Liege, where the windows of the bishop's palace were smashed by a volley of stones, the excitement is also subsiding. The reports from Mons, Ghent, Antwerp, and other towns in the provinces, are also of a tranquillizing nature.

Division in the City.—The reign of the party now in power is destined to be short—the first movement they made in not filling up all the offices, has convinced many who were friendly and who at the recent elections supported them, that duplicity and inebriety are striking traits in their character.

The exigencies of the public service have rendered it incumbent to summon you for the depth of business at the earliest possible period after the break-up into open hostility, for neither of them are men who can completely look upon a rival near their throne, and apart from their personal interests, which are decidedly hostile, the interests of the sections they represent have but little in common.

I have since the promulgation of the late Assembly's Warrants on the Treasury for the month of June, and the death of Her Majesty's Aunt, Her Royal Highness, the Duchess of Gloucester.

Mr. Speaker and Gentlemen of the House of Assembly:—I have since the promulgation of the late Assembly's Warrants on the Treasury for the month of June, and the death of Her Majesty's Aunt, Her Royal Highness, the Duchess of Gloucester.

COMMUNICATION.

FOR THE CHRONICLE.

WHO ARE THE GAINERS?—Great changes have taken place on the political arena of New-Branswick within the past few months. But who are the gainers? Not the people, for they will soon discover that in place of being the victors, they are the victims, and it is the former and not the latter, among whom the spoils are to be divided—therefore they are not the gainers?

Who are they? Chief among the number is Fisher; he will pocket by the change not less than £1,000 per annum. Whatever opinion may be entertained of him as a politician, on all sides it is conceded, that as a Lawyer, he ranks among the third class, whatever he is considered in the character of an Attorney-General, therefore his position at the position of first Law Officer of the Crown, which is generally a stepping stone to the bench (unless as to a late case it is barred away for party purposes) clearly proves that the country is not the gainer so far.

Who are the gainers? Tilly is one of them, yet, such success—if he can get the constituency of St. John to endorse his position. Will they do it? We have heard of it from all sides he wanted no office, and would take no office, but it turns out that he not only has one, and that, one of the choicest in the Province. Since his connection with the present Government has his course been not only honorable, but otherwise, it has been marked by duplicity, and an attempt to blind and mislead the public as to their real intention, until he can possibly secure his return again—This I hardly think is the way to obtain the confidence of the constituency of St. John, who respect and admire candour and open dealing even when they differ.

In 1856 when they went out of office, not only was the Province hundreds of thousands in debt, but its credit was gone, and its finances in a most deplorable condition. Mr. Tilly believes in the recent changes that the country will not only gain nothing, but lose much, as recklessness is already marking the proceedings of the government, as it did during the period it formerly was in office, and it will be found ere long, if it has not already been discovered, that to accomplish its ends, and to retain their places, they will stop at nothing; they will either ruin the country or themselves, and therefore the spoils they will divide among themselves. One thing is certain I think, that when the Railway plan is developed, it will be found that they will either ruin the country or themselves, unless the people wake up, they will when it is too late discover that again they are the victims. The time has not yet expired, with our scattered population of 200,000 to "give" the Province with the Iron Rail.

ONE WEEK LATER FROM EUROPE.—The steamship *Perla*, which sailed from Liverpool on the 13th inst., arrived at New York, on Tuesday last. The telegraph despatch reports the political news as unimportant. Parliament was engaged in discussing local matters. Evans, Hoare & Co., of London, engaged in the Australian trade, have failed. Liabilities £200,000. Markets—Cotton steady, and advanced 1-8. Sale of the week, 11,000 bales. Breadstuffs firm, but generally unchanged. Wheat had advanced 4d. Flour and corn remained at previous quotations. Provisions quiet. Tea Market excited, and large sales at a small advance for export to America. Sugar and Coffee dearer—advance on Rio Sugar 1s. 6d. Consols 93 1-8 to 93 1-4.

ST. JOHN NEWS.—Arrived from St. John—Athens, Lampedo, and Morning News, at Liverpool; Lender and Uriel, at Gravesend; Glenear, at Cork; and the *Perla*, from Liverpool. The *Perla*, a bark of 200 tons, was burnt at sea—Crew stranded at Malta. The *Perla*, a bark of 200 tons, was burnt at sea—Crew stranded at Malta. The *Perla*, a bark of 200 tons, was burnt at sea—Crew stranded at Malta.

PUBLIC DEBT OF CANADA.—The public debt of Canada at the present time amounts to 49 millions of dollars, of which forty millions are chargeable to public works. In the estimates recently submitted to the Canadian Parliament, the sum of £3,111,000 was included for the Grand Trunk Railway, which at 6 per cent. requires that country to provide £225,180, annual interest. Of the £3,111,000, £1,250,000 is for the Grand Trunk Railway, £1,000,000 for the St. Lawrence and Ottawa Railway, £500,000 for the Montreal and Quebec Railway, and £361,000 for the St. John and Miramichi Railway.

THE CHEMISTRY OF NATURE.—A SELF-ACTING LABORATORY.—The gastric juice which reduces the food in the stomach to a semi-fluid, and the bile which tempers this crude material and adapts it to the purposes of nutrition, are the two principal agents in the production of human blood. As health depends mainly upon the quality and purity of this fluid, a medicine which acts immediately upon its elements, discharging therefrom every tainted and unwholesome particle, necessarily be the true elixir of health—a sure antidote to the seeds of all internal disorders. In this consists the wonder-working power of Holloway's Pills. They seem literally to compel the stomach and the liver to do their whole duty, and to remove every impediment to its performance. We learn from their distinguished inventor, the noblest secret of his medicines, but our knowledge of their effects is based on our own observation as well as on the testimony of the world at large. We know that the victim of liver complaint, with attenuated frame, jaundiced skin, and lachrymose eyes, rapidly recovers strength, energy and health, and that the sufferer from indigestion, retching and vomiting, and the sufferer from the various diseases of the bowels, who are afflicted with the same complaint, are cured by the use of Holloway's Pills. They seem literally to compel the stomach and the liver to do their whole duty, and to remove every impediment to its performance.

"Domestic Manufactures."—We have already commented on this axiom of our country's prosperity, since the thoughtlessness of the mechanics and middle classes of this city, in losing sight of the annual ability of one of their own sort at the last City election; but as there is another contest on the foreground, the attention of the public is again led to the fact that Mr. John M. Cookery is agent for Thomson's steam brewed Ale, manufactured at Saint Andrews, and which is allowed to be quite superior to all other.

The London Shipping and Mercantile Gazette of the evening of the 26th inst., says:—The *Walter Castle*, from Melbourne, brings 38,125 ounces of gold, value £162,472, which, with the previous receipts of this week, make a total of £1,500,000, being one of the largest receipts for a very long while past; and it seems scarcely reasonable that it will fail to influence the rate of the money market as soon as the requirements of the week have been supplied. Gold is going into the bank, but slowly, the greater portion of the proceeds being required for re-shipment to the Continent, in payment of silver, while the silver brought by the *Orinoco* will be dispatched to China, the export by the next mail being estimated to reach a million sterling, as mentioned before.

An affray took place at a large ball room near the southwest gate of the Capitol, at Washington, on Thursday afternoon, and during the melee the proprietor of the saloon, Mr. Gerhardt, being at his usual seat, was severely wounded, and his name, Henry Schulte.—The unfortunate man died in a few moments after receiving the shot.

NECARAGUA'S ARRIVAL.—The Washington correspondent of the New York Herald says:—Gen. Walker declares himself a citizen of Nicaragua, and that he will soon return there again and take charge of his government.—The Nicaraguan correspondent of the Daily Times writes that 200 sick and wounded filibusters, the remnant of Walker's army, had arrived at San Carlos, on the steamer of the same name. They were all on their way home, and are described as being in a most pitiable condition. The men left Rivas, and have probably gone some 300 miles, where there are already some 300 deserters from Walker's army. Nicaragua was tranquil, and an election was to be held on the 15th of June. The republic would be occupied by the four Central American States until its government was firmly established.

A MORMON ELDER KILLED BY AN ISRAELITE.—The papers contain news of a Mormon elder's seduction of a wife, and the abduction by her of the children of herself and her lawful husband. It appears that Mrs. McLean was living in St. Paul, Minnesota, where she had converted to Mormonism by one P. P. Pratt, a missionary of that doctrine, and ultimately became his fifth wife. She left two children with her husband, who allowed them subsequently to go to her father's residence, whence they were afterwards abducted by their mother. This doubly outraged, McLean pursued the guilty mother, which she fled to Houston, in Texas, and finally to Fort Smith in the territory of the Cherokee. Here he obtained a warrant and had them arrested; but they were discharged by the magistrate, on which Pratt rode away. McLean followed him immediately and shot him.—*American Paper.*

SOMEWHAT LATE A RACE.—A contemporary says:—"Mr. Vanderbilt, a Yankee Millionaire, offered to run his new steamer, named after him, against any other steamer in the world, for the value of the slower steamer, where the value of the value of his own amounted to £130,000, it is considered that the Messrs. Cunard & Co. may accept the bet for their steamer, the *Perla*. It is certainly possible, which the Cunard Company might accept such a bet, and win it, but it is not at all probable. The Cunard line has not itself steadily against racing, which it has done under any circumstances, and probably the knowledge of this fact has given rise to the Thronson brag we have just quoted. The *Vanderbilt*, however, has not yet sailed, and the *Perla* has not yet sailed, and all that her owner has to do, if his ship can beat the *Perla*, is to load her equally, start her six hours after the *Perla*, and catch her, if he can.—*State of Maine.*

LARGE OXEN.—Mr. Driscoll, Senior, bought a pair of fat oxen a few days ago, from the Hon. Thomas Lee, for which he paid the handsome sum of ninety pounds. They weigh as they stand 55 cwt.—*Local Quarters.*

Elizabeth Bartlett, stewardess of the American ship *Perla*, of New York, lying at Newcastle, Miramichi, was almost instantly killed by falling a distance of four feet from the hatch of the vessel, on a bill of wood, which fractured her skull. The DEER OF WELLINGTON.—"A voluminous correspondence on the great Duke must have had," said a gentleman who was present at a speaking of the Duke of Wellington among a set of loungers congregated before the club rooms at Cheltenham, on the 21st, "observed a cavalry officer who had served under his name in the Peninsula, 'the Duke, I have heard, himself attended to the most trifling correspondence. For instance, a friend of mine, who was intimate with the Duke, told me the following story in explanation of this:—'He was breakfasting one morning at Appley House, and observed a man to smile at him, and to take up one of his letters, and afterwards set it apart. Some time afterwards he found, on referring to that letter in conversation, that it had come from a lady totally unknown to the Duke, and who kept a boarding school at Kensington. The lady solicited a particular favor from his Grace, namely, that he would sign a certificate of non-commissioned officer, whose character stood high in his esteem, for the purpose of teaching her young ladies to walk. Strange as this application was, it very much tickled his Grace's fancy, and during his morning ride he called at the Senior United Services Club, and desired one of the secretaries to send for Sergeant Murphy, of the Grenadier Guards. Upon the sergeant's arrival the Duke directed him to attend, in full uniform, at the House Academy on the following morning, and mention to Miss, that the Duke of Wellington had sent him there to teach her young ladies to walk.'—"

On the 20th inst. by the Rev. A. M. Stavel, Mr. Oliver Toland, to Miss Margaret Jane Nichol, all of this City.

On Sunday morning last, Mr. Christopher Smith, of this City, Proprietor and Publisher of the *Freemason's Telegraph*, in the 50th year of his age.

On Sunday, after a lingering illness, Eleanor A. Child, of this City, aged 62 years.

On the 21st inst. after a lingering illness, Mary, the beloved wife of Mr. P. J. Carey, aged 45 years, leaving a husband and children to mourn the loss of a kind wife and affectionate parent.

WANTED.—A TEACHER for the MARINA School at Shediac. He is expected to possess the qualifications of a No. 1 Class Provincial Teacher, and be competent to instruct in Bible History, the sciences, and the English and French languages, and to be conversant with the School and Catholic in accordance with the principles of that Church. Apply to the Rev'd. Charles Lee, Rector of St. Paul's, Portland, and Rev'd. Dr. James Sheehan, St. Peter's, Shediac.

GEO. S. JARVIS, D. D. Rector of St. Paul's, Portland.

JAS. WELLS, J. W. Rector of St. Peter's, Shediac.

Shediac, May 8, 1857.

ST. ANDREW'S CHURCH, in the Parish of St. Andrew, is desirous of having a supply of PORTER manufactured in any quantity, and at a price to be agreed upon.
