Price of pattern, 1s. or 25 cents.

LADIES' THREE-PIECE SKIRT, HAVING THE FRONT-GORE EXTENDED TO FORM A SHORT YOKE AT THE TOP.

(TO BE MADE WITH OR WITHOUT THE SEVEN-GORED FOUNDATION-SKIRT.)
(For Illustrations see Page 562.)

No. 2108.—By referring to figure No. 136 H in this magazine, this skirt may be again seen.

A unique idea is developed in this skirt, which has the front extended to form a slightly graduated circular yoke that will prove generally becoming. The skirt is here shown made of serge and effectively trimmed with braid and buttons; it has a seven-gored silk foundation-skirt that is smoothly fitted at the front and sides and gathered at the back. The use of the foundation skirt, however, is optional. The skirt consists of a narrow front-gore, extended at each side to form a yoke that is smoothly fitted over the hips by two darts at each side, and two circular portions that are joined to the yoke and ripple prettily at the sides and back. The fullness at the back is laid in a backward-turning plait at each side of the placket. Three rows of braid trim each side of the skirt along the bottom of the yoke, a pretty finish being given by turning in the front ends of the braid in loops and ornamenting them with buttons. The skirt measures three yards and seven-eighths round at the lower edge in the medium sizes; a bustle or any style of skirt extender often insures a perfect fit.

The skirt is one of the most popular of the season's modes and may be developed in either silk or woollen materials. It can be variously trimmed, to give either a plain or very decorative appearance. A very handsome effect could be obtained by braiding the front of the skirt in fancy panel style.

We have pattern No. 2108 in nine sizes for ladies from twenty to thirty-six inches, waist measure. To make the skirt for a lady of medium size, needs four yards of goods forty-inches wide. Price of pattern, 1s. or 25 cents.

LADIES' PETTICOAT-SKIRT, HAVING A FOUR-GORED UPPER PART WITH FRONT-YOKE AND A GRADUATED CIRCULAR FLOUNCE LOWER PART.

(For Illustrations see Page 563.)

No. 2132.—An up-to-date petticoat-skirt made with a circular flounce shown fashioned from silk and decorated around the bottom of the flounce with three gathered ruffles of the silk. It has a four-gored upper part consisting of a front-gore and a gore at each side, all slightly gathered at the top and joined to a shallow pointed yoke, and a straight back-breadth that is drawn up on shirr tapes, the tapes being tied about the waist. The circular flounce, which is corded at the top, is joined to the lower edge of the upper part; it is graduated so as to be deepest at the back and shallowest at the front, and owing to its shaping it falls in pretty ripples all round. The petticoat-skirt measures four yards round at the lower edge in the medium sizes.

This pattern may be selected for making up cambric, long cloth, muslin, silk, moreen, mohair, and alpaca, etc. The decoration may be as elaborate as desired, Valenciennes, torchon lace or embroidered edging and insertion, ribbon-run beading, etc., being introduced in trimming very handsome skirts.

We have pattern No. 2139 in nine sizes for ladies from twenty to thirty-six inches, waist measure. To make the petticoat skirt for a lady of medium size, needs seven yards and an eighth of goods twenty inches wide. Price of pattern, 10d. or 20 cents.

LADIES' SIX-GORED PETTICOAT-SKIRT, WITH FRONT-YOKE AND GRADUATED SPANISH FLOUNCE.

(For Illustrations see Page 564.)

No. 2136.—A very handsome petticoat-skirt is here illustrated made of silk. It comprises six gores, the front and side gores being joined to a deep, smooth yoke, while the back-gore is drawn up on tapes at the top, the tapes being tied about the waist. A stylish feature is the graduated Spanish flounce which is set on the skirt. The flounce is quite narrow
