Step in line with Joey Faculty group calls for student living allowances

dian Association of University barriers at this level. Teachers, in a brief to governments arising out of the Bladen Report, has taken a more addid the Canadian Union of Students.

The CAUT recommendations, made public Jan. 31, call for a comprehensive system of GOV-ERNMENT GRANTS FOR ALL STUDENTS, covering both fees and living costs.

The faculty group suggests that such a policy, similar to that introduced by Premier Smallwood in Newfoundland, be introduced at once for first year students, and extended later to all years.

It condemns the Bladen Report for basing its enrolment predictions on present patterns of unequal opportunity, and says "conservatism in the forecasts is linked to conservatism in the policy aims."

Showing marked concern for university autonomy, the CAUT advocates provincial Grants Committees, with strong aca-demic representation, to stand between governments and universities, but feels this is not enough to ensure autonomy.

Therefore it recommends indirect support from governments through student grants, retaining the fee system and reducing the amount of direct grants to universities.

All properly enrolled students would receive regular payments of specified sums directly from the government.

The CAUT brief presents statistics showing that 62 per cent of the total cost of a student's education is borne directly by the student and his family, including in this cost both the foregone earnings of the student and the full operating and capital costs

of the university. This figure is based on the modest assumption that a high school graduate could earn \$50 a week.

"EVEN IF A L L DIRECT COSTS WERE PROVIDED BY THE GOVERNMENT, THE STU-DENT WOULD STILL BE PAY-ING A COST IN TERMS OF RISK OF FAILURE, MENTAL STRESS, AND INCOME FORE-GONE," THE BRIEF STATES.

"For many potential students, the probability that income and other benefits after graduation will exceed these costs (fees, living expenses, and foregone earnings) is not sufficient to overcome the deterrent effect." Delay in income and risk of

failure are particularly important deterrents at the first-year level, the brief adds. The effects of geography and non-intellectual

Quebec battle **Raps low grants** to McGill campus

MONTREAL (CUP) - H. Rocke Quebec, believing itself to have Robertson, principal and vice- a vital role to play in the scichancellor of McGill University, entific, technological and cultural abandoning the lecture system has asked the Quebec government development of the province.

to reconsider the amount of its grant to McGill University for the coming year.

In a written statement Feb. 16 Robertson called the government's treatment of McGill 'inequitable'' and 'an error in judgment" and stated that the grant increase of only \$100,000 will face the school with a deficit of about \$3,500,000.

The grants, announced Feb. 15, gave McGill \$7,612,000, or some \$100,000 more than in 1965-66. The Universite de Montreal will receive \$16,367,000, an increase of about \$2,000,000.

Robertson called into question Quebec's system of dividing the province's population according to language for the purpose of university grants and equalizing the per capita sum according to the ratio of English and Frenchspeaking people in the province.

Robertson points out that under this system the government grants McGill only \$502 per student each year, while the Universite de Montreal receives \$1220 and Laval \$1290.

"But, more important than the failure of the estimates to deal fairly with McGill's requirements is the significance of the government's decision as a possible indication of its attitude to

McGill," he said. Since 1960-61, according to Robertson, grants to McGill have increased by only 47 per cent while grants to Laval have gone up 208 per cent, and to U de M 242 per cent.

Referring to the large number of donations to McGill, he pointed out that the university costs the far less than Laval or U de M. The government policy can only serve to diminish the ability of McGill to maintain its high standards, he said. Any lessening of standards would hurt Quebec and Flip the disc-then the cap. Take time out for the all of Canada.

L. B. PEARSON

Whenever conversation on the campus turns to music, someone is sure to mention the name of Nero Claudius - the man with the golden lyre. No other virtuoso on this difficult instrument has ever come close to the renown achieved by this boy from Antium. In his formative college years, Nero was something of a traditionalist, but at his apex he came very close to what moderns call "Le Jazz Hot". Those of his contemporaries and relations who survived the era he dominated - and they are regrettably few recall that in his final phase he was strangely preoccupied with torch songs. His career reached its peak in Rome in a blazing performance of his famous lyre solo against a trumpet obligato by a group of cats known as the Praetorian Guardsmen. Rome was never the same thereafter.

Rome wasn't rebuilt in a day. Safe, steady saving at the B of M is the surest way to build your finances. Open your B of M Savings Account today.

Kee-Saik heads foreign students

By KEE SAIK CHEAH Special To The Gazette Kee-Saik Cheah was elected president of the International Student's Association at Dalhousie during the society's annual elections in mid-February.

A four-member executive was 'elected' during I.S.A. elections in Room 21, A & A building. In fact, the entire executive was voted into office by acclamation, and took office, Marchfirst. Other executive members:

Vice-President, Peter Hatch-er; Secretary, Diane Prevatt; Treasurer, Errol Francis. After the elections, "China Night" was presented to a re-

ceptive audience. The Dalhousie Chinese Student's Society gave the audience an entertaining evening. Miss Lucy Chieng, the DCSS President, was MC.

First, there was a movie showing how the Chinese New Year was celebrated in traditional style, with all the people wearing colorful traditional costumes. Then Miss May Lui gave an interesting talk on how Chinese characters had evolved throughout the centuries.

Two slide-shows followed. The first one showed scenes in the everyday life and industry of Taiwan as a progressive country. The second series of slides was in the form of a guided tour of Hong Kong. The audience was then given a talk and demonstration on the methods and philosophy of Chinese painting. This was given by Mr. Cheung Wai-Ming.

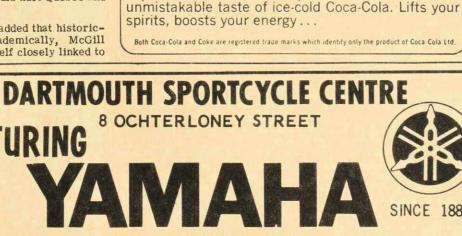

The highlight of the evening was a graceful Chinese Sword Dance, ably performed by Miss Diana Yue. The instrumental event of the show was given by Mr. Emerson Chan, who played three delightful Chinese tunes on his harmonica.

The last item of the evening was the Chinese folk-singing, presented by a group of talented students. The group sang a couple of group folk-songs, and there were 2 solos, one by Miss Mabel Liu and another by Mr. Cheng Lip Khai.

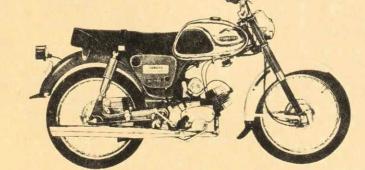

This is the last function of the year to be presented by the I.S.A. and the Executive would like to take this opportunity to wish all its members a good time ahead and a successful ending to the year in Spring.

Robertson added that historically and academically, McGill considers itself closely linked to
