America has been carried out by Canadian civilian labour here.

Information is being obtained as to the conditions on which these men Information is being obtained as to the conditions on which these men Covernment of the Commonwealth of Australia are employed. Similar information regarding existing employment in detailed investigation is being made into the Australian manufactured the United Kingdom of United States civilian labour under contract situation with particular reference to probable valuable.

- abrames rue alth Government have already reached the conclusion of het
- certification and acting independently,
- .v. (b) Chat's the Canadian Government is informed of the full extent (so far as can be foreseen) of our needs, their reasons and over their relative urgency;
- regard to the programmes and difficulties of both countries, and the requirements and problems of all departments, in order that the Canadian military and industrial effort may be given every chance to dovetail into our own (and naturally of course with that of the rest of the Empire).
 - 9. It seems possible that in certain, probably every limited, spheres, some relief to the man-power problem in this country may be obtained by the employment of military personnel as units on work which is primarily of a civilian character. So far as is known no suggestion of this sort has so far been made to the Canadian Government or Canadian military authorities. It is understood, however, that it has been found possible for our own field engineering units to be allotted to specific reconstruction tasks or to clearance work required as a result of air-raid damage. In specially suitable cases the Canadian Military authorities might entertain suggestions of this sort in order more fully to occupy those of thertroops in this country who have already received complete training, but it is understood that there can be
