

## An Educational Show

The dressed poultry show held in the warehouses of Gunn, Langlois & Co., Montreal, and referred to in Farm and Dairy last week, was the largest and best exhibit of dressed poultry ever shown in Canada, comprising as it did all the poultry shown at the Ontario Winter Fair, Guelph, at the Maritime Province Winter Fair, Amherst, and an entry equal in size competing for a prize equal in value to that of the Ontario Fair, of \$100.00, offered by Gunn, Langlois & Co., Ltd., for the best exhibits of turkeys, chickens, ducks or geese, for which producers in Ontario, New Brunswick, Nova Scotia, Prince Edward Island and Quebec competed. Every well known breed of poultry was represented. Each breed was properly tagged, making it easy for visitors to make a comparison for themselves. Expert poultrymen were

in attendance all the time, so that these points could be explained to visitors.

The following is a list of the prize winners in the competition for the special prizes:

Turkeys—1, Mrs. David Stewart, Renfrew, Ont.; 2, A. E. Armstrong, Pontal, Que.; 3, Miss Annie McCaskill, Bart, Ont.; and 4, Miss Mary McCaskill, Barb, Ont.

Chickens—1, A. A. Armstrong, Ferguson, Ont.; 2, Geo. Dumont, Baginville, N.B.; 3, D. McDonald, Glenfinnan, P.E.I.; and 4, Taylor Bros., Dewittville, Que.

Geese—1, A. A. Armstrong, Ferguson, Ont.; 2, Felix Polletier, Ste. Anne de la Pointe, Que.; and 3, Jos. Brownlee, Murrella, Que.

Ducks—1, Taylor Bros., Dewittville, Que.; and 2, D. McDonald, Glenfinnan, P.E.I.

The enthusiasm which this show has aroused will doubtless be a means of increasing the interest in poultry products. Producers will see that there is money in poultry if feed and marketed properly. Consumers will realize that there is a difference between good and poor quality, and that there is economy in buying the high class article. Not only will it help producers to secure "More and Better Eggs and Poultry," but it has been one of the greatest educational features to the consumers of the city of Montreal that has ever been brought forward in the line of dressed poultry.

## Poultry Pointers

Eggs are a good egg producing food.

Keep plenty of litter in the scratching shed.

Have regular feeding hours to feed the poultry.

Don't neglect the laying stock now—proper care and feed.

The feeding of more meat may be done with a profit this month.

Corn meal, meat, and potatoes are three things most valuable in the fattening bill of fare.

A heavier feed of corn these cold nights is beneficial, as it is heating and helps keep up the supply of animal heat.

Don't crowd the laying houses just because you may have a choice of pullets you may want to keep over. If you do you will keep them over at a big loss to the whole flock.

Frozen comb and wattles should have the following ointment applied after the frost is all out: Vaseline, five parts, glycerine, two parts, spirits of turpentine, one part.

# Free to Stock and Poultry Raisers

We will send, absolutely free, for the asking, postpaid, one of our large thirty-two-page booklets on the common diseases of stock and poultry. Tells you how to feed all kinds of heavy and light horses, colts and mares, milch cows, calves and fattening steers, also how to keep and feed poultry so that they will lay just as well in winter as in summer. No farmer should be without it.

At a cost of only two-thirds of a cent a year per Animal, Royal Purple Stock Specific makes each Animal worth 25 per cent more.

You never heard of any other Specific, or "Stock Food," being likewise.

Royal Purple will permanently cure the Bloat, Colic, Worms, Skin Diseases and Debility, and restore run-down Animals to plumpness and vigor.

It will increase the milk-yield three to five pounds per cow a day inside of from two to three weeks. It makes the milk richer than ever before.

MR. ANDREW WOODRICH, of Wainfleet, Ont., says: "This is to certify that I have tried your Royal Purple Stock Specific for two weeks, on one cow. On the 14th I weighed her milk as 17 pounds. I noticed a change of five or six days, as there was an extra weight of milk. On the 29th, I carefully weighed the milk, and she gave 22 pounds. I am giving an order for 5 boxes, as I consider it the best I have ever used."

"Stock Food" will not do this. Because "Stock Food" is nothing more or less than a mixture of the very things which you, yourself, grow on your own farm.

It is not more food your Animals need. They must have something to help their bodies get all the nourishment from the food they are getting. So that they will fatten, and stay fat, all the year 'round.

They need something to prevent disease, to cure disease, and to keep them in the best of health, all the time.

## Not a Stock Food

Royal Purple is not a "Stock Food," nor a "medicine." It is a Conditioner.

It does not contain Grain, nor farm products. Nor does it contain "Dope," or any other injurious ingredient. Royal Purple does not merely temporarily bloat or inspire the Animal. It fattens and strengthens it, permanently.

No other Specific known adds flesh so quickly as Royal Purple. It makes 6-week-old Calves as large as ordinary-fed Calves are at 10 weeks.

Royal Purple makes naturally-thin Animals fat.

and heavy. And it builds up the health and restores the former plumpness and vigor of run-down stock, in little or no time.

The very best time to use this Conditioner is NOW. It digests the hard food properly and prevents the animals getting indigestion or losing flesh.

## 50 per cent. Cheaper

One 50-cent Package of Royal Purple will last one Animal 70 days. This figure a little over two-thirds of a cent per day.

Most "Stock Foods" in 50-cent Packages last but 50 days, and are given three times a day.

But Royal Purple Specific is given only once a day, and lasts 50 per cent longer.

(A \$1.50 Pall, containing four times the amount of the 50-cent Package, lasts 280 days.)

So, you see, it is only necessary to give Royal Purple Specific once each day.

Just think of making each Animal worth 25 per cent, over its cost! What will that mean to you, Mr. Stock Owner!

Royal Purple creates an appetite for food, and helps nature to digest and turn it into flesh and muscle.

As a Hog Fattener, Royal Purple has no equal.

## Never Off Feed

Dan McEwen, the horseman, says: "I have used Royal Purple Stock Specific persistently in feeding 'The Earl,' 2,092, largest winner of any pacer on Grand Circuit in 1908 and 1909, and 'Henry Winters,' 2,104, brother of 'Allen Winters,' winner of \$36,000 in trotting stakes in 1908.

"These horses have never been off their feed since I started using Royal Purple Specific. I will always have it in my stables. Your Cough Powder works like magic."

## For Poultry

Royal Purple Specific is our other Specific. It is for Poultry—not for stock.

It makes the Hens lay Eggs in Winter as well as in the Summer.

MRS. WM. BURNHAM, Sanford, Ont., says: "Dear Sirs—This is to certify that I have used two boxes of your Poultry Specific for my hens. They laid so well while feeding it to them, I wonder how or where I could get some this winter. I bought it from your agent last winter. I had 32 hens, and some days I got two dozen eggs a day in February and March, while feeding them the Specific."

Royal Purple Specific prevents Fowls losing flesh at moulting time, and permanently cures every poultry disease. It makes their plumage bright and keeps it always in prime condition.

It makes your Poultry worth more than they could ever be without it.

Yet one 50-cent Package will last 25 Hens 70 days. Or a \$1.50 Pall will do 25 Hens 280 days. This is four times more material at only three times the cost.

W. A. Jenkins Mfg. Co., London, Ont.

Gentlemen—Last Fall we had in our stables a young mare belonging to Miss Clouston, of Montreal. We could not feed her any bran or account of causing violent scouring, consequently causing her to become weak and thin. We commenced using your Royal Purple Stock Specific, and the results were wonderful. After using it three weeks, we found we could feed the animal bran or any other soft feed without scouring her, and she actually took on in this time twenty-five pounds of flesh. We found her at the same time through the hunt. I can heartily recommend your Stock Specific.

TOM SMITH.

Trainer for the Hon. Adm. Beck.

We also manufacture:

Royal Purple Lice Killer..... 25c.

Royal Purple Gall Cure..... 25c.

Royal Purple Sweet Lintment..... 50c.

Royal Purple Cough Cure..... 50c.

Our Cough Cure will cure any ordinary cough in four days, and will break up and cure a distemper in ten to twelve days.

If your dealer cannot supply you with our Royal Purple Brands, we will supply you upon receipt of \$1.50 a pall, prepaid, for either poultry or stock, or if you want any Lice Killer, Gall Cure or Cough Powder, we will send it by mail, postpaid, upon receipt of price.

If you are not satisfied, after testing it, you don't lose anything, do you?

Centralis, Ont., Feb. 7, '10.

The W. A. Jenkins Mfg. Co., London, Ont.: Gentlemen—We have been using Royal Purple Poultry and Stock Specific for the last three weeks, and must say that results are remarkable. Am feeding the Stock Specific to two milking cows, and they have increased 30 per cent. in their milk. The Poultry results are even more marked than this. We have about 60 hens, laying age. When we commenced feeding the Specific, we were getting 10 eggs a day, and in the last five days the same flock of hens laid 150 eggs, almost an average of 31 each day, and those five days have been the coldest this winter.

You can see results plainly in two or three days after the use of "Royal Purple," and the poultry have the same husky and appearance now as in the summer time. With cows and poultry, an using exactly the same feed and care as before starting to feed "Royal Purple."

When farmers and stockmen get acquainted with Royal Purple, it will have a greater demand than all other tonics and stock foods on the market combined.

Yours truly, ANDREW HICKS.
