"The Wonder Car"

You will have only yourself to blame if you are "talked into" buying an "unsuitable" or a "theoretical" car

The two commonest mistakes made in buying an automobile are—*First*, Buying a car not suited to your needs.—*Second*, Buying a car that has not passed the theory stage.

The first mistake—buying an "unsuitable" car—is perhaps made even less often than the second.

The second mistake—buying a "theoretical" car—is perhaps the sadder mistake of the two—because when you have made this mistake, you have on your

hands some engineer's or designer's untried theory instead of a tried, known, successful car. Study your needs sensibly, just as you study your household needs, and buy a car you *can afford* to enjoy.

38,000 happy, satisfied Maxwell owners are driving 38,000 handsome streamline Maxwell cars today—at an upkeep cost that any man of any standing can afford, and at an original cost that is simply a practical investment.
